Mr. Truman R. Davidson

Dear Mr. Davidson:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Times-News, all submitted in proof fo beneficial use on Permit No. 20686.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds. However, our field engineer thought it very doubtful that he would be able to check your well before next year and thought it advisable for you to have your power turned off.

We are enclosing herewith Deposition of Holder, Truman R. Davidson, Deposition of Witness, Russel Riggs, and Deposition of Witness, Fred C. Farmer, together with Affidavit of Publication of Times-News, in connection with Proof of Beneficial Use on the above numbered Permit.

It will be appreciated if you will acknowledge receipt of the enclosed Affidavits and Proof of Publication, and when writing will you please advise whether your field man will visit the wells in connection with Proof of Beneficial use, yet this fall. The irrigation season is concluded here since we had a good rain a few days ago, and if you do not contemplate sending a field man this fall, Mr. Davidson would like to have the electric power discontinued on the two wells in question. However, if the field man will visit Mr. Davidson's place in the near future, he will keep the power on until he arrives.

Thanking you, we are

Permit No. 20686

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. TRUMAN R. DAVIDSON, residence and post office address: Murtaugh,
Idaho; occupation farmer.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 20686 - date of priority: October 5, 1948.

Ques. 4. State source of water supply and give exact location of point of diversion. Subterranean water from 2 wells - Well No. 1 located 280 feet south from the Northeast corner of
NE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 26, Twp. 11 S., Rge. 20 E.B.M. - Well No. 2 located 400 ft.
East from the west line and about 400 feet south from the north line of SW $\frac{1}{4}$ NE $\frac{1}{4}$
of Sec. 26 Twp. 11 S., Rge. 20 E.B.M. - wells are points of diversion

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well #1: 600 feet deep - 10 inch hole for 200 feet - 8 inch hole for
400 feet, no casing, equipped with 50 H.P. Fairbanks Elec. motor and turbine pump,
pump setting 200 feet, 200 feet of 8 inch steel pipe and 500 feet of 6-inch pipe
(steel) for sprinklers, also private ditches to place of use - depth to water 130
feet; Have 96 sprinklers; 11/64ths and 3/16ths size with 40 to 50 pounds of pres-
sure; pump discharges 80 inches of water - water amount by pump estimates and from
experience in judging flow of water. Works would safely conduct 100 inches of
water.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water from 2 wells is used for irrigation of 40 acres of NE $\frac{1}{4}$ NW $\frac{1}{4}$,
40 acres of NW $\frac{1}{4}$ NE $\frac{1}{4}$, 40 acres of SW $\frac{1}{4}$ NE $\frac{1}{4}$ and 80 acres of S $\frac{1}{2}$ NW $\frac{1}{4}$ Section
26, Twp. 11 S., Rge. 20 E.B.M. Land is all cultivated land. Improve-
ments: Land cleared from sage brush, fences constructed, also built 5 room
home, barb, granary, machine shed and corrals. Constructed pipe lines and
ditches for irrigation of above described land.

20686

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Water used for irrigation

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Land requires about 3/4ths of one inch per acre for profitable cultivation.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Water from Well No. 1 used during all of crop season of 1949 and every crop season since that time. Water from Well No. 2 used during all crop season of 1953 and every crop season since.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No other water available for above described land.

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. RUSSEL RIGGS, age 53 years, residence and postoffice address-
Murtaugh, Idaho. Occupation - farmer.

Ques. 2. Are you acquainted with Truman R. Davidson, the
holder of Permit No. 20686? How long have you known him and where does
he reside?

Ans. Yes, I have known him for about ten years. He resides at Murtaugh,
Idaho.

Ques. 3. Have you read or heard read said Permit No. 20686, and are you
familiar with its provisions and conditions?

Ans. Yes, and I am familiar with the provisions of said Permit.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Subterranean water is pumped from
Wells. Well #1 is about 280 feet south from the NE corner of the
NE1/4NW1/4 26-11-20. That well is 600 ft. deep equipped with a Fairbanks-
Morse 50 H.P. electric motor and turbine pump setting at 200 feet. Also that
well has about 200 ft. of 8" steel pipe and 500 ft. of 6" steel pipe for
sprinklers, and open ditches for conveying water. Well #2 is located 400 ft
east from the west line & 400 ft. south from north line of SW1/4NE1/4 26-11-20.
Well is 480 ft. deep & is equipped with a 40 H.P. U.S. Electric motor with a
Layne-Bowler turbine pump setting at 200 ft. also 800 ft. of 8" steel pipe
and open ditches for conveying water to places of use.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. The works for each well will safely convey 100 inches of water. I
have seen Well #1 pumping 80 inches and Well #2 pumping 75" with water
being conducted to place of use through said works.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. I have seen Well #1 deliver 80 inches of water and Well #2 deliver
75 inches of water. Water was measured by pump estimates and from my ex-
perience in judging flow of water from pumps. I have had about 12 years ex-
perience in judging well flows, and have used water for irrigation of farm
crops for about 25 years.

20686

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Water from both wells is and has been used for irrigation of 40 acres of NE $\frac{1}{4}$ NW $\frac{1}{4}$, 40 acres of NW $\frac{1}{4}$ NE $\frac{1}{4}$, 40 acres of SW $\frac{1}{4}$ NE $\frac{1}{4}$ and 80 acres of S $\frac{1}{2}$ NW $\frac{1}{4}$ 26-11-20. All land is cultivated. Land was cleared from sagebrush, fences constructed, also a 5-room residence, barn, granary, machine shed and corrals, as well as irrigation ditches and piping above described.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is Minidoka silt and I would say would require at least 3/4ths of one inch of water per acre for profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No _____

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I am a neighbor of Mr. Davidsons, live within a mile of the above described property, and I have seen water being used for irrigation of the land above described, from said wells, on many occasions during each of the last ten years.

Attention: Mr. Robert W. Stephan

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 20686, in the name of Truman R. Davidson. Final Proof is to be made before you, as Notary on the 17th day of September, 1959, at 2:00 o'clock P.M., at Twin Falls, Idaho.

As of this date we have mailed the Notice to the Times-News with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

DEPARTMENT OF RECLAMATION

RE: Permit No. 20686

Date August 1, 1959

Truman R. Davidson
Murtaugh, Idaho

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 20686 is due not later than Oct. 11, 1959. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a Notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated--by 40-acre legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

Also enclosed is Form 11, which is the authorization for us to have the Notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

Very truly yours,

RE: Permit No. 20686

Mr. Truman R. Davidson
Murtaugh
Idaho

Dear Mr. Davidson:

We return your application for amendment to the point of diversion in Permit No. 20686, which has been approved by the State Reclamation Engineer and recorded in this department.

We also enclose Certificate of Completion of Works issued under this permit for the diversion of 3.1 second feet of water from wells in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ and SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 26, Township 11 South, Range 20 East, B.M., for irrigation of land in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, and S $\frac{1}{2}$ NW $\frac{1}{4}$ Section 26, Township 11 South, Range 20 East, B.M.

We also enclose departmental receipt No. 26324 for the \$5.00 fee in connection therewith.

Very truly yours,

Dear Mr. Davidson:

We are this morning in receipt of your application for amendment to show an additional point of diversion in Permit No. 20686.

However, we note that you have described the additional location as in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 26, Township 11 South, Range 20 East, whereas your proof of Completion of works show it as in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of said section, which is the way we had prepared the amendment application for you.

Please advise which is the exact location of this second well, whether it is in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ or ~~NW $\frac{1}{4}$ SE $\frac{1}{4}$~~ of Section 26.

Dear Mr. Davidson:

Your corrected proof of completion of works on Permit No. 20686 reached us this morning and we note that you describe two wells, one in the NE¹/₄ NW¹/₄ and one in the NW¹/₄ SE¹/₄ Section 26, Township 11 South, Range 20 East, B.M.

However, your permit only describes the well in the NE¹/₄ NW¹/₄ and if you have developed water from two wells it will be necessary for you to make an application for amendment to the original permit to include the additional well on the form enclosed.

Very truly yours,

Dear Mr. Davidson:

We are returning your proof of completion of works on Permit No. 20686 for additional information.

You failed to fully answer Question 3 describing the point of diversion or location of your well by legal subdivision, section, township and range. You should also describe the works in full, showing size and depth of well also size of pump.

As a suggestion, if you propose to irrigate more land than the 100 acres stated in this proof, or to increase your water supply from said well, or wells, it would be to your advantage to increase the amounts as stated in this proof.

Please supply the above stated information and return to this office. We will hold your check until corrected proof is returned.

Very truly yours,

PROOF OF COMPLETION OF WORKS

Boise, Idaho

Dear Sir:-

Under the terms of your Permit No. 20686 you are required to complete your diversion works on or before October 11, 1953. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

Dear Mr. Davidson:

We enclose Permit No. 20686 and direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. 20936 for the filing fee of \$6.25, and as your check was in the amount of \$6.50 there is a refund of \$.25 due you which we enclose herewith.

We note your statement that if your first well does not produce sufficient water you expect to drill other wells until the necessary amount is obtained. If you find it necessary to drill other wells you should notify this Department and we will furnish you the necessary form of application for amendment to the original permit.

Very truly yours,
