MEMORANDUM

TO: FILE NOS. 45-02234, 45-02247, 45-02559, 45-02581 & 45-02826

FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: TRANSFER NO. 4583

DATE: July 7, 1995

=====

Transfer No. 4583 was filed to add points of diversion and change the place of use under the above referenced groundwater rights, creating a permissible place of use with surface water Right No. 45-00498. Water is diverted through three wells into a mainline or pond where is commingled with surface water and pumped to pivots.

These rights are limited to the irrigation of a combined total of 444 acres within the described 473 acre land base and each right is limited to a specific number of acres and volume. Region staff confirmed that only 444 total acres have been irrigated in a single season under these combined rights within the described property in many years. The difference in total acres is due to non-irrigation of the corners around the pivot in the SE, Section 26, T11S, R19E. (See Allen Merritt's 06-27-95 Memo)

This transfer is being processed concurrently with Transfer No. 4582 which combines the surface water right within the same place of use. Each transfer will reference a combined rights limit including the surface and groundwater rights.

The season of use and diversion volume was adjusted to current standards. Other recommended conditions include permissible place of use, combined limits, irrigation overlap, multiple points of diversion/measuring devices, groundwater/surface water overlap and standard transfer conditions.

FROM: Allen Merritt *AM*

DATE: June 27, 1995

TO: TRANSFER FILES #4582 & #4583

SUBJECT: REVIEW AND RECOMMENDATION

These two transfers involve the same place of use. Transfer #4582 is for the surface water right from Dry Creek and transfer #4583 involves the groundwater rights from three existing wells. The purpose of the transfers is to create a permissible place of use (PPU) for all of these right which utilize an interconnected delivery system. The proposed PPU consists of 473 acres. Originally all these acres were covered by the groundwater rights in total and approximately 170 acres were covered by the Dry Creek water. Conversations with the applicant by Jim Stanton (See 3/24/95 memo) and review of 6/24/1987 NAPP photos as well as my conversation with Tamera in the Cassia Co. CFSA(ASCS) this day finds that the corners of the southern pivot have not been irrigated for many years and the corners have not been in CRP. Based on this it appears that the maximum number of acres which should be allowed to be irrigated at any one time should be no more than 444 acres in any one season. The table below summarizes these acres found irrigated as shown on the attached map.

TWP	RGE	SEC	NE				NW				SW				SE				
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
11S	19E	23													38	37	40	38	153
11S	19E	26	39	38	40	38					3			3	30	35	35	30	291

RECOMMENDATION:

I recommend that both transfers be approved with the requested 473 acre PPU; however, that a limitation be placed on the use of the rights such that in any one year the total number of acres irrigated shall not exceed 444 acres. Consistent with this limit the combined diversion volume should be limited to (4 x 444) or 1776 AFA and that maximum total diversion rate shall not exceed 8.88 cfs at any one time. The rights being combined shall be all those listed on these two transfer applications.

Additionally all wells must be equipped with measuring devices with totalizing meters. All rights are subject to future SRBA review.

CONSENT TO TRANSFER

The Travelers Insurance Company ("Travelers") is a lienholder on certain real properties, which include appurtenant water rights, owned by Larry M. and Kathy S. Adams, doing business as Mountain Meadows Ranch ("Borrower"). Travelers hereby consents to the transfer of certain of these rights, to wit:

MEMORANDUM

TO: ALAN MERRITT/SOUTHERN REGION OFFICE

FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: TRANSFER NO. 4582
WATER RIGHT NO. 45-00498

DATE: June 12, 1995

=====

As we discussed this morning, I am returning this transfer file to your office. It should be processed with the companion groundwater Transfer No. 4583 and forwarded with similar recommendations regarding the permissible place of use.

The file contained only a 1991 Warranty Deed as proof of ownership, so I called the Twin Falls County Assessor to confirm current ownership of the land. They confirmed that the Adams own a 166.9 acre parcel in the SE 1/4 and Part of the E1/2 of SW, Section 26, T11S, R19E.

The memo mentioned in this file that you have in the file for Transfer No. 4583, talks about whether all this ground has been irrigated in the last 5 years. Please review and recommend the actual number of acres confirmed irrigated under both these transfers, so that the common permissible place of use corresponds under each transfer.

The other missing piece is the lienholder's approval. The letters in the file reflect the request, but no results in file.

Transfer No. 4581 was forwarded for approval since it was a point of diversion change only and no proof of ownership or lienholder's approval is required.

Thanks for following up on these matters and please forward the files together when complete.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho
Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except
Monday, both of which newspapers prior to consolidation had been published under said names in said city and county
continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since
said consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at which time said
newspaper began daily publication under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated
as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho, to be
published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each
issue thereof, Thursday is announced as the day on which said legal notice will be published.

Re: Applications for Transfer

Dear Applicants:

The Department of Water Resources acknowledges receipt of your Applications for Transfer and has scheduled advertising the applications as follows:

Transfer No. 4581 (45-02380, 45-2381, 45-02589, 45-07201) & **Transfer No. 4582** (45-00498) should appear in the South Idaho Press on 4/10 & 4/17/95.

Transfer No. 4583 (45-02234, 45-02247, 45-02581, 45-02826) & **Transfer No. 4584** (45-02374, 45-02626) should appear in the Times News on 4/13 & 4/20/95.

The advertisements will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

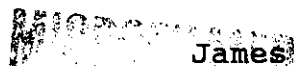

If an application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

Before we can forward your application to our state office for approval we must include in the file evidence of ownership of the land to which the water is appurtenant such as copies of deeds, tax records, etc. and a notarized statement from any lien holder on the property agreeing to the proposed change.

State Office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

James E. Stanton
Sr. Water Resource Agent

SUBJECT: App. for Transfer - Larry Adams, 45-02559 Etc.

Last week I visited this property for a pre-transfer exam. Today the applicant came in to the office to discuss this transfer. He said that the north well provides most of the groundwater for this property. Of the two wells in the SW/SE Sec. 26, the west well is used to provide some water to the farm. According to Mr. Adams, the east well has not been used for more than 5 years due to a drastic decline in water levels. There is no pump in this well now. He still wants to keep the east well in the system in case it can be rehabilitated.

There are 3 pivots on this ground now, with no corners irrigated. Adams told me that the corners around the south pivot have been dry for more than 5 years. The other corners have been watered in the last five years, as these two pivots were installed later than the south pivot. The orthophotoquad map shows that the corners were watered at one time. Mr. Adams plans to install corner booms on all 3 pivots in the near future.

Based on the owner's statement, recommend right be cancelled on the land not irrigated by the south pivot in the SE 1/4 & the S 1/2 SW 1/4 Sec. 26.

Dear Chris:

I am enclosing a letter from Mel Schulte together with the first pages of some transfer applications and asked that you comply with the first paragraph in that you give a Travelers consent to the transfers as evidenced by the first pages.

It is now near the end of the month and we need to address the issues of the extension that we have previously talked about.

Dear Bill:

Larry Adams was in my office today to execute five transfer applications. He requested I solicit your assistance on his behalf to obtain approval of the proposed transfers from his mortgagee. Any time the land underlying a water right is subject to liens or mortgages and we are changing a major component by transfer, we require a notarized statement of approval from the lien holders.

Enclosed is the front page of each application which summarizes what each one proposes to accomplish. Larry has a complete copy of each transfer if you need to see them or call me at 736-3033 if you need additional information.

It appears Larry will file one more beneficial use adjudication claim for some land that he knows Mr Sturgill has historically used groundwater on. Larry indicated he has surface water for the land but would like to have a groundwater right on it also.

Please obtain a notarized statement of approval from the Adam's lienholder and have it sent to my attention at the address above.

Cordially,

**NOTICE OF PROOF APPLICATION OF
WATER TO BENEFICIAL USE**

Notice is hereby given that at 11:00 A. M. on the 19th day of August, 1958, at Twin Falls, County of Twin Falls, State of Idaho, before J. R. Keenan, Notary Public, Room 2, Fidelity Nat'l. Bank Bldg., proof will be submitted of the application to beneficial use of 3.2 cubic feet per second of underground water from wells in accordance with the terms and conditions of Permit No. 20128 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit is W. E. Savage Ranches, Inc., Kimberly, Idaho.

The use to which said water has been applied is irrigation and domestic purposes. The amount applied to beneficial use is 3.2 cubic feet per second.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) NE 1/4 of Section 26, Township 11 South, Range 19 E. B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is not named.

The right to take water from such works is based upon Permit No. 20128.

The source of supply from which such water is diverted is underground water developed by two wells in SW 1/4 NE 1/4, Sec. 26, Twp. 11 S., R. 19 E. B.M.

The date of priority which said user is prepared to establish is July 28, 1947.

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. W. B. Savage. Kimberly, Idaho. Farmer

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. W. B. Savage Ranches, Inc., Kimberly, Idaho. I am president. I have been authorized by the Board of Directors to appear for the corporation.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 20128. Date of Permit, July 31, 1947. Priority date is July 23, 1947.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Underground water from two wells referred to as Well No. 10 and Well No. 11, in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 26, Township 11 South, Range 19 E.B.M., Twin Falls County, Idaho.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. See answer attached

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. Place where the water is used is the NE $\frac{1}{4}$ of Section 26, Township 11 South, Range 19 E.B.M., Twin Falls County, Idaho. Number of acres irrigated is 160.

20128

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 160 inches for irrigation.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. The permit was originally issued to me. I assigned it to the corporation on July 1, 1958.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. It is diverted by gravity from the pump in ditches to the land. The water has been used since 1953 on row crops, specifically beans, wheat, potatoes, clover and corn. The full amount of the water pumped up to 110 inches has been used on this land.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. The amount of water available from the two wells is not sufficient to irrigate the full 160 acres. The deficiency is made up from water diverted from a well described in Permit No. G27140, upon which proof of beneficial use was submitted on August 18, 1958, and it varies depending upon the need.

(Sign)

W.B. Savage

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Twin Falls, County of Twin Falls, State of Idaho, on this 19th day of August, A. Permit No. 20128

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Willard M. Rees. 52. Kimberly, Idaho. Banker. Box 343, Kimberly, Idaho.

Ques. 2. Are you acquainted with W. B. Savage Ranches, Inc., the holder of Permit No. 20128? How long have you known him and where does he reside?

Ans. Yes. I have been familiar with the corporation since it was organized in 1948. I have known the president, W.B. Savage, for more than 20 years. He resides in Kimberly, Idaho, and the corporation has its office there.

Ques. 3. Have you read or heard read said Permit No. 20128, and are you familiar with its provisions and conditions?

Ans. Yes. I am familiar with its provisions and conditions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. The source of water is ground water from two wells in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ and the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 26, Township 11 South, Range 19, E.B.M., Twin Falls County, Idaho. The water is conveyed to the land by gravity ditch.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. The main ditches will carry about 200 inches. I have seen at least two second feet in the main ditches.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen at least twenty inches being pumped from the well known as No. 10, and at least ninety inches being pumped from the well known as No. 11. It is an estimate based upon observations over several years.

20128

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. The land irrigated is the NE $\frac{1}{4}$ of Section 26, Township 11 South, Range 19 E.B.M. The number of acres irrigated is 160. The land is in cultivated row crops. There are no improvements other than the wells and ditches.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The character of the land is Portneuf Silt Loam. I estimate the amount of water needed is one inch per acre.

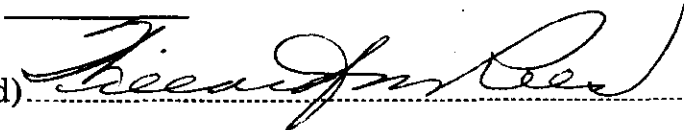

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

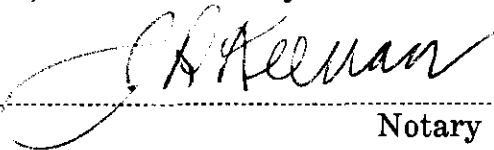

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have observed water being used on this land several times each year during the irrigation season since 1953.

(Signed)

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Twin Falls, County of Twin Falls, State of Idaho, on this 19th day of August, A. STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 20128

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Robert Nail, Hansen, Idaho. Occupation: farmer. Age 40.

Ques. 2. Are you acquainted with W. B. Savage Ranches, Inc., the holder of Permit No. 20128? How long have you known him and where does he reside?

Ans. Yes. I have known about the corporation since it was organized in 1948. I have known the president, W.B. Savage, who was the original permit holder, for 20 years. He resides in Kimberly, Idaho, and the corporation offices are in Kimberly, Idaho.

Ques. 3. Have you read or heard read said Permit No. 20128, and are you familiar with its provisions and conditions?

Ans. Yes. I am familiar with its provisions and conditions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Underground water from two wells, referred to as Well No. 10 and Well No. 11, in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 26, Township 11 South, Range 19 E.B.M., Twin Falls County, Idaho. The water is conveyed to the place of use by a system of gravity ditches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. The main ditches connecting with both wells will convey about 200 inches. I have seen as much as 110 inches being conveyed in the main ditches.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen as much as 20 inches being pumped from Well No. 10 and I have seen as much as 90 inches being pumped from Well No. 11. It is an estimate. I base the estimate upon the fact that there is an 8-inch pipe discharge and I have seen it almost full.

20128

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. It is used for irrigation. The place where the water is used is the NE $\frac{1}{4}$ of Section 26, Township 11 South, Range 19 E.B.M. The number of acres being irrigated is 160. It is cultivated row crop. The only improvements which have been made are the wells and the ditches.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Lava ash loam. At one time in sagebrush. I estimate that the amount of water required for its profitable cultivation is one inch per acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No. I have no interest financial or otherwise in the land or works, but I am the tenant.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen it applied on the land continuously every day since the wells were drilled in 1953.

(Signed) _____

Dear Mr. Keenan:

This acknowledges the Notice of Proof of Application of Water to Beneficial Use under Permit No. 20128, in the name of W. B. Savage Ranches, Inc. Final Proof is to be made before you as Notary, on the 19th day of August, at 11:00 A. M. at Twin Falls, Idaho.

As of this date we have mailed the Notice to the Times-News, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and his two disinterested witnesses, who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you as Notary, as stated in the Publication Notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and Witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

RE: Permit No. 20128

Date May 1, 1958

W. B. Savage
Kimberly, Idaho

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 20128 is due not later than July 31, 1958. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclosed Form 10, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, filled out in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water filed on, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated--all by legal land description.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper, we will also send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Re: Permit No. 20128.

Dear Mr. Kulp:

Reference is made to your notice dated March 16, 1953, addressed to W. B. Savage, Kimberly, Idaho, advising that he should on or before forty days from March 16 show cause why the permit should not be cancelled. I am enclosing Proof of Completion of Works consisting of the affidavit of the holder and the affidavits of two witnesses on two wells that were completed prior to July 31, 1952.

Delay in submission of this data was due in large part to the fact that Mr. Marshal Chapman, who died several years ago, was handling these matters for Mr. Savage, and Mr. Savage has just recently obtained the files.

It is respectfully requested that the permit should not be cancelled and that the Certificate of Completion of Works be issued. In that connection, I am enclosing a check for \$5.00.

In the event additional information is required, please do not hesitate to let us know.

Thank you for your courtesy in the matter.

Re: Permit No. 20128

To: Mr. W. B. Savage

Kimberly, Idaho

It appearing to the State Reclamation Engineer that the terms and conditions of Permit No. 20128 to appropriate the Public Waters of the State of Idaho, have not been complied with as to

Completion of works July 31, 1952

you are hereby notified in compliance with Sec. 42-311, Idaho Code annotated that said Permit No. 20128 is hereby held for cancellation.

You are hereby required to show cause before the State Reclamation Engineer on or before forty days from date of this notice why said Permit should not be cancelled.

Said Permit No. 20128 claims the use of 3.2 cubic feet per second of the waters of wells with point of diversion located NE 1/4 Section 26, Twp. 11 S., Range 19 E., D. 1. and was approved July 31, 1947

In Witness Whereof, I have hereunto set my hand and affixed the seal of my office at Boise, Idaho, the 16th day of March 1953.

Mark H. Kelly
State Reclamation Engineer.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mr. W. B. Savage

Boise, Idaho

May 1, 1952

Kimberly, Idaho

Dear Sir:-

Under the terms of your Permit No. ~~20128~~.....you are required to complete your diversion works on or before ~~July 31, 1952~~..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

State Reclamation Engineer
