RE: Permit No. 20064

Mrs. Norma C. Larson
Mr. E.J. Morgan
290 Lincoln Street
Twin Falls, Idaho

Dear Mrs. Larson and Mr. Morgan:

Enclosed is a form for amending the land list under Permit No. 20064.

Our letter to you of June 26, 1959 did not mention the $E\frac{1}{2}SE\frac{1}{4}$, $W\frac{1}{2}NE\frac{1}{4}$, Section 27, Township 11S., Range 19E. That land can be included in the certificate by completion of the enclosed form.

The statutory fees would be \$16.00 (based at the rate of \$2.00 for each 40-acre subdivision) with the above land included.

There would be no other changes in our letter of June 26, 1959.

Very truly yours,

GEO. N. CARTER

Dear Mrs. Larson & Mr. Morgan:

Our field engineer's report on his inspection of proof for application of water to beneficial use under the terms of Permit No. 20064, shows that the water from two wells is capable of conveying 142 miner's inches (2.84 c.f.s.) of water for irrigation of 160 acres.

Upon receipt of the statutory fees of \$8.00 (based at the rate of \$2.00 for each 40-acre subdivision) we will issue the License and Certificate of Water Right confirming the right with priority of November 27, 1947 to the use of 2.84 second feet of subterranean water with the points of diversion in the SE¹/₄ NW¹/₄, Sec. 35, for the irrigation of 160 acres in the NW¹/₄, Sec. 35, T. 11 S., R. 19 E., B. Dear Mrs. Larson:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Kimberly Advertiser, all submitted in Proof of Application of Water to Beneficial Use, on Permit No. 20064.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. ✓ Mrs. Norma C. Larson — Real Estate & Insurance — 290 Lincoln St., Twin Falls, Idaho and ✓ E. J. Morgan, Farming, Hansen, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. NONE

Ques. 3. State number and date of permit, and date of priority of the permit.

Ans. Permit number 20064 Date of priority is November 28, 1947

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Our water supply is of sub-terranean source and is located on the land it is used on as follows: one well is in the S. E. corner and the other well is 200 yards West of the S. E. corner of Sec. 35 of Twp 11 of Range 19 E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Our works of diversion are two wells located as above described. These wells are equipped with turben pumps each capable of conveying 900 gals. per min. into irrigation ditches that convey the water to the fields. The wells are 1100 feet deep and are cased with 16 inch $\frac{1}{2}$ " wall casing to a depth of 260 feet deep. The water stands at 350 feet when pumping. We measure the water with a weir.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. All the water is used for irrigation. Our land is in a high state of cultivation. The water from these wells are used to irrigate 160 acres on which they are located and the waste water from this farm is picked up on adjacent land. The water is used on NW $\frac{1}{4}$ of Sec. 35, of Twp 11 of Range 19 E.B.M.

20064

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. None

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 1440 gals. per minute

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. We purchased the land from the above/ man that the above mentioned permit was originally issued to.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The water has been used fully for the purpose of growing crops of a high cultivated nature such as potatoes, seed peas, and commercial beans.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. none

Ques. 3. Have you read or heard read said Permit No. 20064, and are you familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. subterranean source, S. E. corner of the Northwest quarter Section 35, Township 11 south, Range 19 East Boise Meridian

Water is conveyed by two deep well turbine pumps into ditches into irrigation ditches that convey the water to the fields.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. five and two tenths

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. one well measured approximately 2 second feet by weir.

saw the other well measured approximately 3 second feet by orifice.

20064

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. for irrigation purposes to irrigate 160 acres of cultivated land in the northwest quarter of Section 35, of Township 11 of Range 19, E.B.M.
Waste water used on other land of the applicant's.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. no other uses.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is sandy loam in character, and I estimate 160 miner's inches of water required for profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no interest

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. The last four years I have been in weekly contact as a neighbor and prior to that an occasional observation. I have seen a variety of crops being raised profitably by the applicant.

Dear Mr. Morgan:

This acknowledges the Notice of Proof of Application of Water to Beneficial Use under Permit No. 20064, in the name of E. J. Morgan and Norma C. Larson. The proofs are to be made at 10:00 A. M. on the 4th day of December, 1958, before Gordon L. Crockett, Shoshone St., Twin Falls, Idaho.

As of this date we have mailed the Notice to the Kimberly Advertiser, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each, and that all depositions (Holder and two Witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

RE: Permit No. 20064

Date March 1, 1958

E.J. Morgan & Ladell M. Larson
Twin Falls, Idaho
306 North
Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 20064 is due not later than May 5, 1958. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclosed Form 10, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, filled out in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water filed on, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated--all by legal land description.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper, we will also send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

RE: Permit No. 20064

Mr. E. J. Morgan
306 North Locust Street
Twin Falls, Idaho

Dear Mr. Morgan:

You had scarcely had time to get to the corner before we located the file in connection with your assignment from Mrs. Alice Wilson of a portion of Permit No. 20064.

This file includes a letter written to you on March 24, 1952, but addressed to 123 Shoshone Street South, in which we inquired as to what Mrs. Wilson intended to do in regard to the unassigned portion of the permit. No reply was received to this letter, so we wrote you again in regard to it on May 21, 1952, at the same address. Since you gave your address today as 306 North Locust, possibly these former letters failed to reach you.

Since so much time has elapsed, we assume that Mrs. Wilson is no longer interested in proving up on the unassigned portion of the permit and we shall therefore record her assignment of 2/3 interest to you, also your application for amendment to the location of the wells, and issue Certificate of Completion of Works for the 3 wells described in Section 35, Township 11 South, Range 19 East, B.M., for the diversion of 3.2 second feet of water under this permit.

Dear Mr. Morgan:

We do not seem to have received a reply to office letter addressed you on March 24, 1952, in reference to an assignment from Alice V. Wilson of 2/3 interest in Permit No. 20064 and your proof of completion of works on that portion of the permit.

Since completion of works proof on the entire permit was due on or before May 5, 1952, and nothing has been done on the remaining 1/3, we are forced to assume that Mrs. Wilson is no longer interested in proving up on the 1.6 second feet, or 80 inches, of water appurtenant to the N $\frac{1}{2}$ SE $\frac{1}{4}$ Section 34, Township 11 South, Range 19 East, B.M.

We are sending a copy of this letter to Mrs. Wilson and shall appreciate being advised in this matter.

Dear Mr. Morgen:

Reference is made to your letter of March 20, 1952, enclosing application for amendment to Permit No. 20064 and also to your letter of March 12, 1952, enclosing assignment of a 2/3 interest in Permit No. 20064 and proof of completion of works on that portion assigned to you.

We note that you are not interested in the N $\frac{1}{2}$ SE $\frac{1}{4}$ and we also note that the application for amendment eliminates the well in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 34 included in the original permit.

Since we are not quite sure as to what Mrs. Wilson intends to do with the remaining 1/3 interest in this permit, we are sending her a copy of this letter with the request that she advise us if it is her intention to prove up on the well in Section 34, the last date for making such proof being May 5, 1952.

If so, it would be better to make a joint proof of completion of works including all the wells and also to change your application for amendment so as to leave the well in Section 34 as well as including the other three which you have developed.

Dear Madam:

In reference to your letter of March 14 regarding the above captioned permit, wherein you state our location of wells changed from those indicated on our permit. We wish to indicate the location you have put in blue ink on the township plat form is correct.

We sent under the same letter, a form wherein two-thirds of the original permit was assigned to us. This takes out the North one-half of the Southeast one-fourth of Section 34. This particular acreage does not belong to us, therefore, it is our intention to omit it from our affidavit to prove completion of works under the above permit.

Please find enclosed our application for amending the location of our wells in our permit. Hoping this information is satisfactory and in detail enough to give you full information, I remain

RE: Permit No. 20064

Mr. E. J. Morgan
123 Shoshone Street
Twin Falls, Idaho

Dear Mr. Morgan:

Reference is made to the assignment of Permit No. 20064 from Alice V. Wilson to E. J. Morgan and Annie M. Morgan and Ladell M. Larson and Norma C. Larson, also affidavit in proof of completion of works under said permit.

The proof describes two wells, one on the South line of the $SE\frac{1}{4} NW\frac{1}{4}$ and one well on the South line of the $NE\frac{1}{4} NW\frac{1}{4}$ Section 35, Township 11 South, Range 19 East, B.M., whereas the permit describes one well near the South line of the $SE\frac{1}{4} NW\frac{1}{4}$, one well near the South line of the $NE\frac{1}{4} NW\frac{1}{4}$, one well in the $SE\frac{1}{4} NW\frac{1}{4}$ Section 35, and one well in the $NE\frac{1}{4} SE\frac{1}{4}$ of Section 34, Township 11 South, Range 19 East, B.M.

If two wells have been developed near the South line of the $SE\frac{1}{4} NW\frac{1}{4}$ and none in the $SW\frac{1}{4} NW\frac{1}{4}$ Section 35 or the $SE\frac{1}{4} NE\frac{1}{4}$ of Section 34, an amendment will be necessary to the original permit.

The proof describes the land where the water is to be used as the $NW\frac{1}{4}$ of Section 35, whereas the permit also includes the $N\frac{1}{2}SE\frac{1}{4}$ of Section 34. Is it your intention to omit the 80 acres in Section 34 and only prove up on the 160 acres in the $NW\frac{1}{4}$ of Section 35?

We shall await your further advice in this matter, and meanwhile we enclose a form of amendment to the points of diversion (or location of the wells) if that is required.

PROOF OF COMPLETION OF WORKS

Mrs. Alice V. Wilson

Kimberly, Idaho

Boise, Idaho March 1, 1952

Dear Sir:- Madam:

Under the terms of your Permit No. 20074..... you are required to complete your diversion works on or before May 5, 1952..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
