Sir:

We are just in receipt of your letter enclosing notices for final proof under above permit. In reply would say that, inasmuch as there was no time specified in your application for completion of works and beneficial use of the water, the regular six months was allowed, bringing the date for both proofs to April 20, 1915. If you will not be prepared to make proof at that time and desire an extension of time, you should file application for extension. The required blanks will be mailed you upon request. However, unless you advise us that an extension is desired, the notice will be advertised for proof to be made on April 20th.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Roy A. Judd,
BOISE, IDAHO.

BOISE, IDAHO,

JANUARY 7, 1915.

DEAR SIR:

Under the terms of your permit No. 10705, you are required to complete your diversion works on or before April 30, 1915. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

F. P. KING,
Acting State Engineer.
