PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 47-08407

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order reinstating the permit since proof was submitted after the proof due date.

You indicate on the proof statement that you are diverting a rate of 0.04 cubic feet per second (cfs). There is no charge for a license examination fee for a groundwater right diverting 0.04 cfs or less. Therefore, I have initiated the process to refund the \$50.00 exam fee submitted. The refund should arrive in seven (7) to ten (10) business days under separate cover.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. If you have questions concerning the field examination, please contact the **Southern** Regional Office of the department in Twin Falls at (208) 736-3033.

RE: PERMIT NO. 47-08407

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated January 31, 2000. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

RE: PERMIT NO. 47-08407

Dear Permit Holder:

Under the conditions of approval of the above referenced water permit, you are required to submit proof of the extent of your beneficial use must be submitted to this office on or before April 1, 2000. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a predecessor owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for a reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 47-08407

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

If a well has not already been constructed you are required to obtain a "drilling permit" from the department. The right to drill a well is not a part of this permit to appropriate water.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

MICROFILMED
APR 10 1997

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

Sincerely,

A handwritten signature in cursive script, appearing to read "Shelley W. Keen".

Affidavit of Publication

STATE OF IDAHO }
COUNTY OF TWIN FALLS } SS.

FEB 28 1997 No 29068

I, Emily McKnight ^{Department of Water Resources}
being first duly sworn upon oath, depose
and say that I am Principal Clerk of the TIMES-NEWS, published daily, at
Twin Falls, Idaho, and do solemnly swear that a copy of the notice of advertisement, as per
clipping attached, was published in the regular and entire issue of said newspaper, and not in any
supplement thereof, for two consecutive weeks,
commencing with the issue dated February 20, 19 97,
and ending with the issue dated February 27, 19 97.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho
Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except
Monday, both of which newspapers prior to consolidation had been published under said names in said city and county
continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since
such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at which time said
newspaper began daily publication under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated
as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho, to be
published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each
issue thereof, Thursday is announced as the day on which said legal notices will be published.

Re: Application for Permit No. 47-08407

Dear Mr. Dale:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office has scheduled advertising the application in the Times News for 2/20 & 2/27/97. A period of ten days following the second publication will be allowed for the submittal of protests.

If an application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If an application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Enclosed is an application to transfer my water right from the diversion in Salmon Falls Creek to a domestic well which I plan to install this spring. Jim deKlinehans has had several conversations with you regarding our "joint" irrigation project, and since I am planning to build a house on my lot (#3), this seemed like the appropriate time to transfer this right to my well.

Please contact me if you need further information or require additional documentation.

RE: RETURN OF CLAIM AND CHECK 0413

Dear Mr Dale

I am returning the package that you submitted to the department as there are several issues that must be addressed before I can accept the claim.

Your letter indicates that you wish to transfer a surface water right to a well. That process is independent from filing an adjudication claim which is represented by the claim form and the \$25.00 filing fee. The department has accepted transfers for changing the diversion from a surface water source to a groundwater source in some instances, however, in your case there are other problems. When I conducted the field verification of the system I found that there was a combined system that could utilize water for irrigation from two wells and/or Salmon Falls Creek. Upon reviewing the records available, I found that no portion of 47-02159 was ever appurtenant to any of the ground north of Mr Ring's property. Nor is there any information available that indicates that there was an unrecorded transfer of a portion of 47-02159 to that ground. All adjudication claims based upon 47-02159 in your area are tentatively recommended for disallowal at this time.

You also indicated that you intend to develop a well for domestic purposes and that you want to transfer the irrigation right to this point of diversion. Prior to drilling the well you or your driller must obtain a drilling permit for the construction of that well. You may file for an application for permit for a domestic water right which establishes a priority date as of the date of filing or you may file a late adjudication claim once you have established beneficial use for the home and receive a priority date based upon that date. However, if your use falls within the domestic definition as found in Idaho code §42-111 no water right is required.
