№ 22827

STATE OF IDAHO }
COUNTY OF TWIN FALLS } ss.

I, Linda Capps McGuire being first duly sworn upon oath, depose and say that I am Legal Clerk of the TIMES-NEWS, published daily, at Twin Falls, Idaho, and do solemnly swear that a copy of the notice of advertisement, as per clipping attached, was published in the regular and entire issue of said newspaper, and not in any supplement thereof, for Two consecutive weeks, commencing with the issue dated October 3, 1991, and ending with the issue dated October 10, 1991.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except Monday, both of which newspapers prior to consolidation had been published under said names in said city and county continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at which time said newspaper began daily publication under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho, to be published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each issue thereof, Thursday is announced as the day on which said legal notices will be published.

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 4.0 afa per acre for the lands above.

==========

The following adjustments[1] were made on the field report to reflect actual usage:

1. Rate of diversion.
   a. Irrigation = acres x cfs/acre
      = 1.0 x 0.03
      = 0.03 cfs.
   b. Domestic, 1 home in-house use = **0.02** cfs.
   c. Maximum rate of diversion = a + b
      = 0.03 + 0.02
      = 0.05 cfs.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

The capacity of the pump/motor, as measured, is approximately .05 cfs. Therefore, this is the rate of diversion recommended.

Enclosure: copy of warranty deed in reference to the change of ownership of the property.
No overlaps were found.

The permit was approved under the name of the previous owner, Robert J. Mogensen. The current owners have not been able to contact him for an execution of assignment, so they have sent a copy of their warranty deed.

TO: WATER RIGHT HOLDERS AND APPLICANTS IN TWIN FALLS LOW-TEMPERATURE GEOTHERMAL MORATORIUM AREA

FROM: NORM YOUNG

RE: EXTENSION OF MORATORIUM

Enclosed is a copy of an order extending the order designating the Twin Falls Low-Temperature Geothermal Moratorium Area. I appreciated the attendance of many of the users at the public information meeting on this matter held in Twin Falls last week. I understood those in attendance favored an extension of the moratorium, and some of the users were encouraging that the size of the area be increased and that additional actions be taken to protect artesian pressures. I indicated at the meeting that the moratorium would be extended without modification to keep its continuity and that IDWR will schedule as time and resources permit a review of the following matters:

-Expansion of the area.
-The need for repair or reconstruction of wells in and adjacent to the area.
-Evaluate the adequacy of the agreement to manage pumpage to prevent withdrawal in excess of the average rate of recharge or to maintain artesian pressures in the public interest.
-Review need for and adequacy of monitoring programs.

With respect to monitoring, the data recorded by the USGS from the well at the Nazarene Church is an important part of the information now being collected. The Church will soon be finished and will be using water from the well. Data from an unused well is more reliable for evaluating aquifer conditions. USGS and IDWR are evaluating alternatives for replacing this source of data. If you are aware of a well that is finished into the low-temperature geothermal aquifer and is not being used, please call Loren Holmes, IDWR Regional Manager at Twin Falls, a call at 736-3033.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 47-08280

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)736-3033.

Sincerely,

Karen L. Gustafson

Re: Permit # 47-08280
Attn: Karen L. Gustafson

Dear Karen:

In my original proof of beneficial use, item(4) (a) unable to trace (b) unknown. I have at lengths pursued the information required. Neighbors rumored that "Austin" drilled the well. I contacted two Mr. Austins (Dave & H.E. "Pete"), neither had any recollection of the well in question. I was also told that a firm owned by Mrs. Marge Gray may have drilled the well. Upon investigating this lead, I found she was deceased. All of the records of this firm have been disposed of, as I can find no trace of their records.

JAN 23 1992

Volco Inc. of Twin Falls, sold the home and property to me. They made application for the permit in my name at the closing time.

The property was previously owned by Ed and Ann Kerpa. I have been unsuccessful in locating them as well.

There is a possibility the well was drilled well before July 1, 1987. The neighbors tell me the well was in several years before the house was built. As near as I can ascertain the house was started in 1988.

I have had several conversations with the local Water Resources Department. Mr. Doug Jones has been unable to trace any helpful information.

I am including a check for $50.00 as requested. It was not included in the original application because of the footnote at the bottom of the License Examination fee schedule. "No fee is required for single ownership domestic use or stockwater use of less than 13,000 gallons per day."

If I can be of assistance to process my permit or if more information is needed my work phone # is 208-734-0455, home phone # 733-5791.

Thankyou

Re: Permit No. 47-08280

Dear Permit Holder:

Returned is the Proof of Beneficial Use form submitted to this office on December 26, 1991, which indicates the total rate of diversion to be .07 cfs. When the total maximum rate of diversion is greater than 0.04 cfs, a license examination fee is required to be submitted with the proof. A license examination fee based on a rate of flow of .07 cfs. is $50. Note the back of the enclosed instruction sheet/fee schedule.

Also, during the department's review of the proof of beneficial use, we were not able to locate a drilling permit or well log. A drilling permit is required for all well drilled, deepened or enlarged after July 1, 1987 (Section 42-235, Idaho Code). We have also been unable to locate a well log which should have been submitted 30 days after the completion of the well.

Please return this completed form, fee, well drilling permit, and well log to me within 30 days of the date of mailing. Upon receipt of the proof form and fee, we will continue processing your proof by notifying the region that a field exam is needed.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 47-08280

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist

Re: Application for Permit No. 47-08280

Dear Mr. Mogensen:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Times News on 10/3 & 10/10/91. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Gary Funderburg
Sr. Water Resource Agent
