

Show 40-acre subdivisions, townships, ranges and ditches.

Hand-drawn map on a grid showing a rectangular area with various labels and measurements. The area is bounded by a solid line. Inside the area, there are labels: "T.135" on the left, "R. 16E" at the top, "40" on the left side, "35" on the top side, "35" on the right side, and "40" on the bottom side. There are also several "PD" labels and circled "X" marks. A dashed line runs horizontally across the middle of the area. A small "5" is written near the bottom right corner. A small "8" is written near the bottom left corner.

NOTICE OF AMENDMENT
TO A WATER PERMIT
NO. 47-08261

Notice is hereby given that WILLIAM J. LANTING DBA LANTING ENTERPRISE of Twin Falls, ID is the holder of Approved Permit No. 47-08261 with a priority date of 01/17/1991 authorizing the diversion of 3.80 cubic feet per second of water from groundwater in the NW1/4NW1/4SW1/4, S5, T13S, R16E County of Twin Falls, to be used for irrigation of 190 acres within S1/2NW1/4, N1/2SW1/4, S5, T13S, R16E; SE1/4NE1/4, S6, T13S, R16E.

This Application for Amendment proposes to add points of diversion.

The permit holder has applied to the Department of Water Resources for an Amendment to the Permit, to be changed as follows:

Amount: 3.80 cfs

Period of Use: 03/15 to 11/15

Point of Diversion: NW1/4SW1/4, S5, T13S, R16E; N1/2NE1/4, NE1/4SE1/4, S8, T13S, R16E.

Place of Use: No change.

Any protest against approval of the amending of Permit No. 47-08261 as set forth above must be filed with the Idaho Department of Water Resources, 222 Shoshone Street East, Twin Falls, ID 83301 on or before April 19, 1993.

STATE OF IDAHO
COUNTY OF TWIN FALLS } SS.

JAN 04 1995

No 26646

I, Linda Capps McBride, being first duly sworn upon oath, depose
and say that I am Print Clerk South of the TIMES-NEWS, published daily, at
Twin Falls, Idaho, and do solemnly swear that a copy of the notice of advertisement, as per
clipping attached, was published in the regular and entire issue of said newspaper, and not in any
supplement thereof, for Two consecutive weeks,
commencing with the issue dated December 8, 19 94,
and ending with the issue dated December 15, 19 94.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho
Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except
Monday, both of which newspapers prior to consolidation had been published under said names in said city and county
continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since
such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at which time said
newspaper began daily publication under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated
as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho, to be
published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each
issue thereof, Thursday is announced as the day on which said legal notices will be published.

STATE OF IDAHO
COUNTY OF TWIN FALLS

On this 29 day of December in the year of 1994, before me,

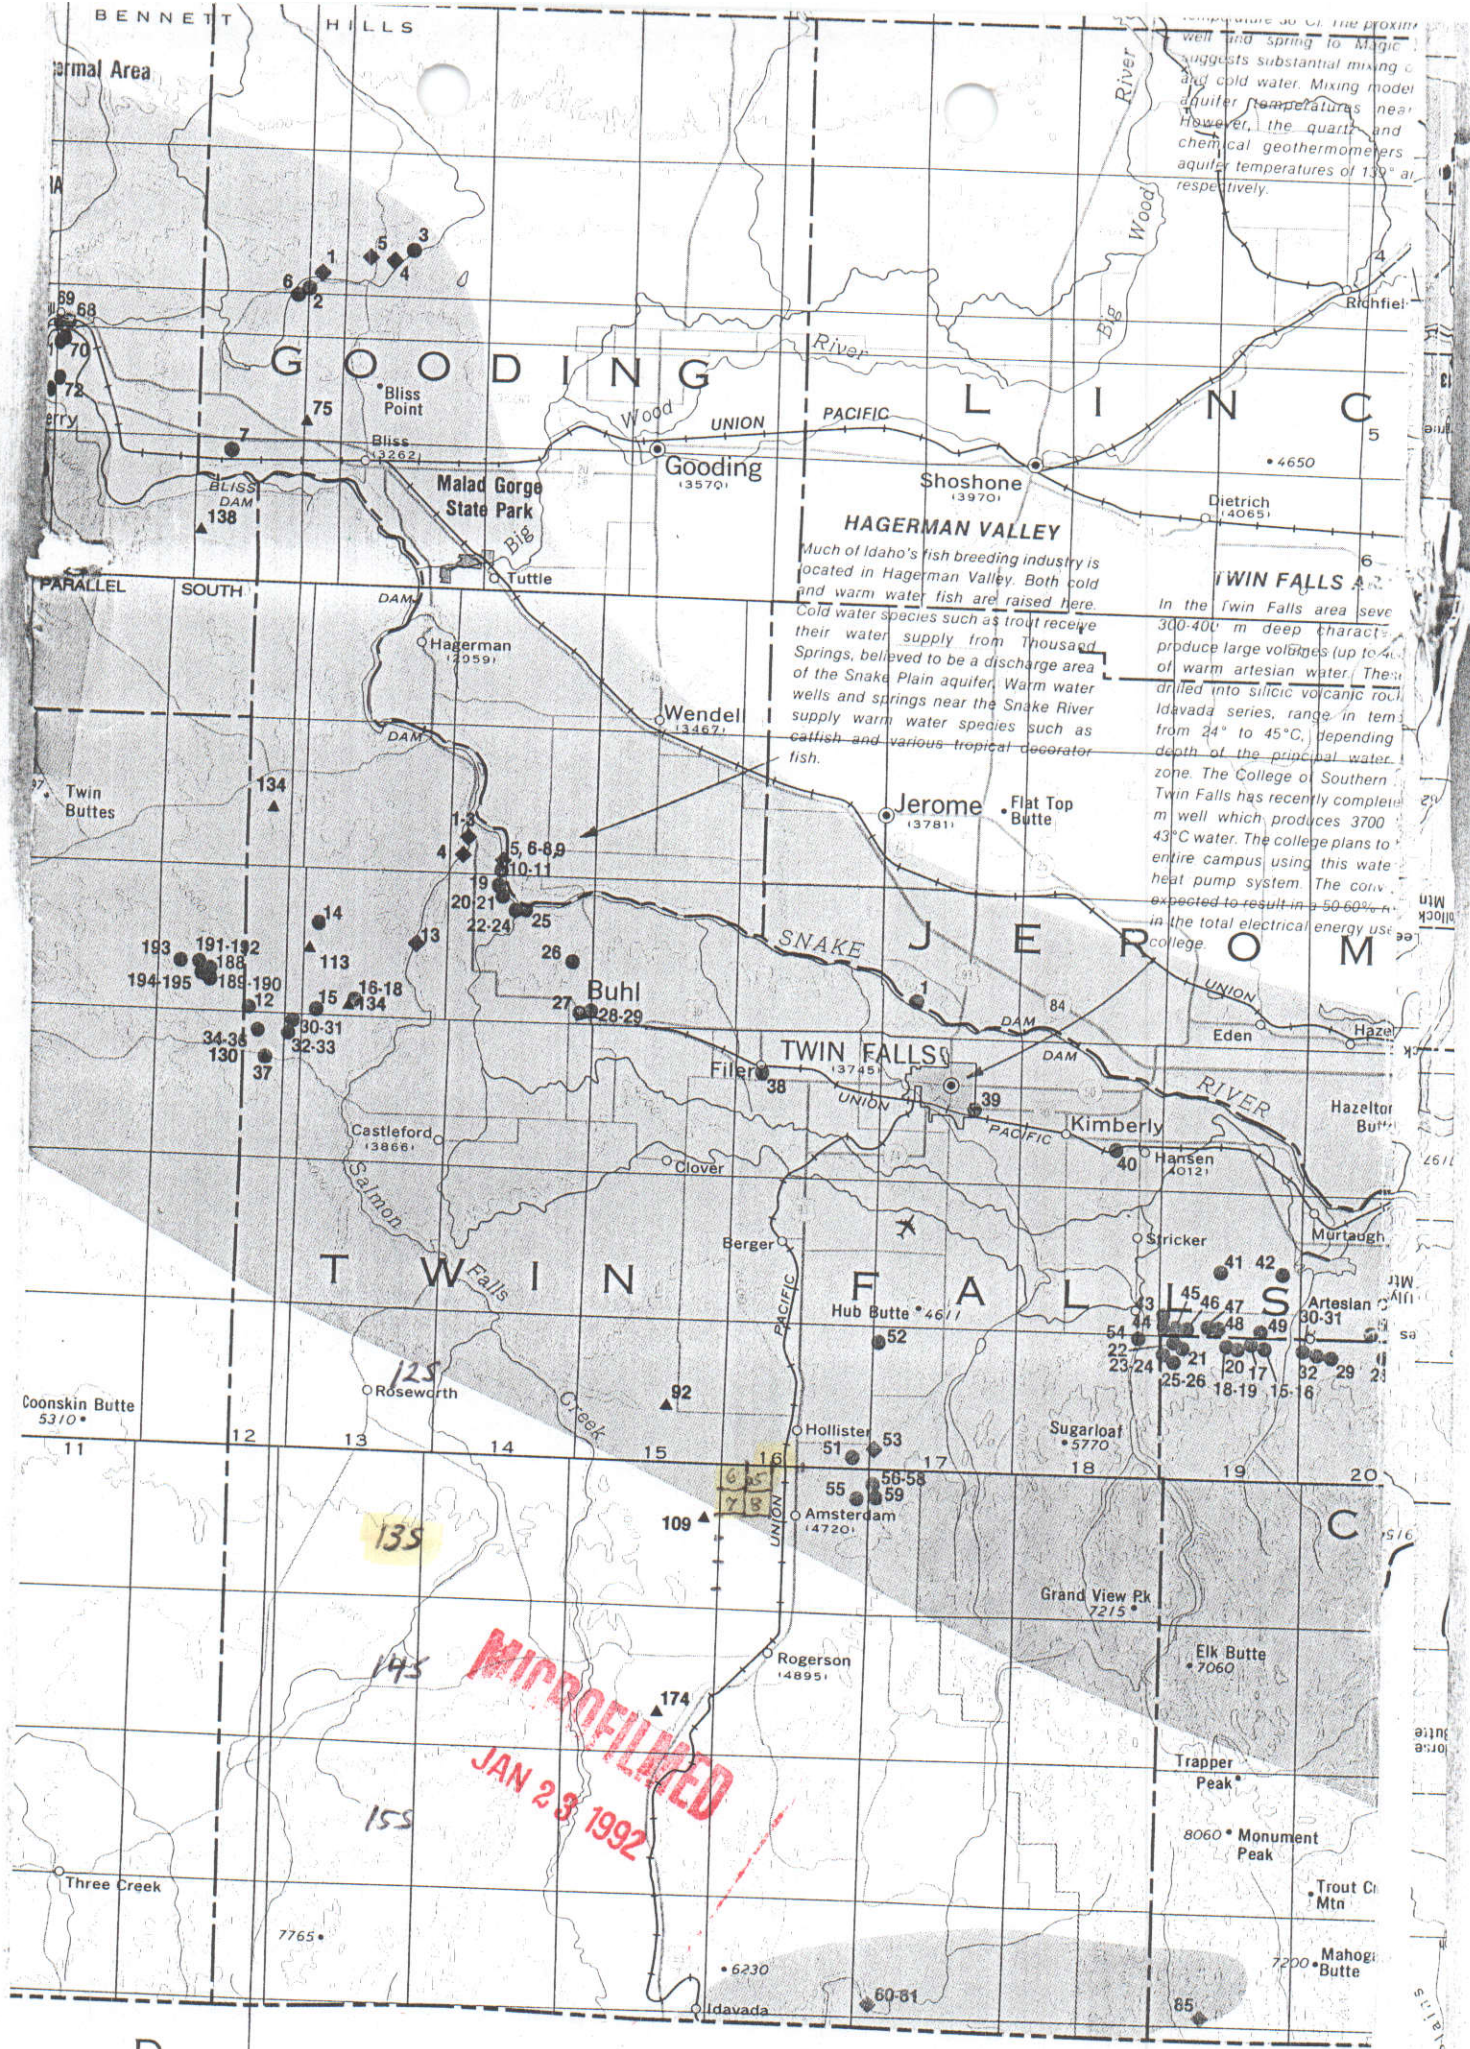

a Notary Public, personally appeared Linda Capps McBride,
known or identified to me to be the person whose name subscribed to the within instrument, and being by me first duly
sworn, declared that the statements therein are true, and acknowledged to me that he executed the same.

well and spring to Magic suggests substantial mixing of hot and cold water. Mixing model aquifer temperatures near However, the quartz and chemical geothermometers aquifer temperatures of 133° at respectively.

HAGERMAN VALLEY
Much of Idaho's fish breeding industry is located in Hagerman Valley. Both cold and warm water fish are raised here. Cold water species such as trout receive their water supply from Thousand Springs, believed to be a discharge area of the Snake Plain aquifer. Warm water wells and springs near the Snake River supply warm water species such as catfish and various tropical decorator fish.

TWIN FALLS
In the Twin Falls area several 300-400 m deep character produce large volumes (up to 400 gpm) of warm artesian water. These drilled into silicic volcanic rock (Idavada series, range in temperature from 24° to 45°C, depending on depth of the principal water zone. The College of Southern Twin Falls has recently completed a well which produces 3700 gpm of 43°C water. The college plans to install a heat pump system. The conversion is expected to result in a 50-60% reduction in the total electrical energy use of the college.

CONDITIONS OF APPROVAL AND REMARKS

1. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
2. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
3. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
4. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
5. Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
- * 6. The total instantaneous diversion of water from all points of diversion under Transfer 5279 shall not exceed 4.10 cfs, nor total combined annual volume of 900.0 af.
- ** 7. Rights 47-02263, 47-08007B and 47-08261 when combined shall not exceed the irrigation of 347 acres.
- ** 8. Right 47-02263 is limited to the irrigation of 70 acres within the place of use described above in a single irrigation season.
- ** 9. Right 47-08007B is limited to the irrigation of 87 acres within the place of use described above in a single irrigation season.
- ** 10. Right 47-08261 is limited to the irrigation of 190 acres within the place of use described above in a single irrigation season.
11. The period of use for the irrigation described in this approval for Rights 47-08007B and 47-08261 may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/31 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date of this approval.
12. Rights 47-08007B and 47-08261 are for the use of trust water and are subject to review 20 years after the issuance of the permits to determine availability of water and to re-evaluate the public interest.

WATER RIGHT NO(S). 47-02263/47-08007B/47-08261

CONDITIONS OF APPROVAL AND REMARKS

13. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under Rights 47-08007B and 47-08261 and shall only divert groundwater under this approval when water from the appurtenant surface water rights cannot be delivered to the right holder.
14. If the surface water right appurtenant to the place of use is sold, transferred, leased or used on any other place of use, Rights 47-08007B and 47-08261 to divert groundwater shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.

)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before December 1, 1995; and,

WHEREAS, the Department notified the permit holder on September 30, 1995, by certified mail that proof was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

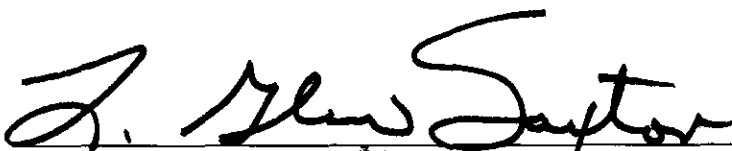

WHEREAS, the Department sent a lapse notice on December 8, 1995, since an acceptable proof of beneficial use or extension of time had not been received; and,

WHEREAS, Section 42-218a, Idaho Code, provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting an acceptable proof of beneficial use on January 3, 1996;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 47-08261 is **REINSTATED** with an advance in priority to February 19, 1991.

REQUEST FOR EXTENSION OF TIME

**TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT**

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right.

Permit No. 47-08261

Name(s) of Permit Holder: William J. Lanting dba Lanting Enterprise

Mailing Address: 2181 A 2300 E. Twin Falls, Ida. 83301

Date Proof is Due: 2-21-1995 Telephone No. 655-4272

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

Well is drilled. 200 HP pump is installed. We have pumped for
three seasons. We are pumping into a center pivot. Pump from
350-390 feet.

Costing \$ 85,000

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

We want to amend the permit to move the water from land that
we are not able to irrigate, to other land that would make our
irrigation systems more productive and effecient.

Permit holder(s) request an extension to 12-1-, 1995.

FEE: \$50.00

Wm. J. Lanting dba Lanting Enterprise
(Signature)*
*If other than permit holder, Power of Attorney must be supplied.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above request for extension of time be APPROVED and the time within which to submit proof of beneficial use is extended to December 1, 1995 13 1995

4. a. Who owns the property at the point of diversion? Applicant
b. Who owns the land to be irrigated or the place of use? "
c. If the property is owned by a person other than the applicant, describe the arrangement enabling the
applicant to make this filing: _____

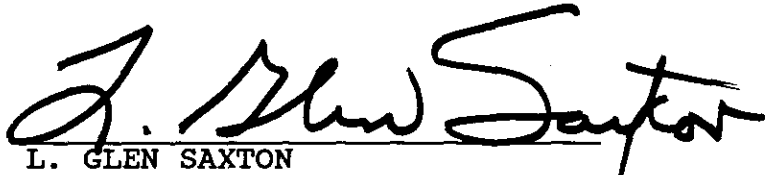

JUN 30 1993

CONDITIONS OF APPROVAL

Amendment of Permit No. 47-08261

1. The previous conditions as set forth in Permit No. 47-08261 must be met.
2. Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.
3. Construction of the well must comply with Idaho well construction standards.
4. This amendment authorizes the construction of a second well for a total of two (2) wells authorized by the permit and amendment.

Dated this 11th day of June, 1993.

Affidavit of Publication

STATE OF IDAHO
COUNTY OF TWIN FALLS } SS.

No 24638

I, Linda Capps McNamee being first duly sworn upon oath, depose and say that I am Linda Capps of the TIMES-NEWS, published daily, at Twin Falls, Idaho, and do solemnly swear that a copy of the notice of advertisement, as per clipping attached, was published in the regular and entire issue of said newspaper, and not in any supplement thereof, for Two consecutive issues, commencing with the issue dated April 1, 1993, and ending with the issue dated April 8, 1993.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except Monday, both of which newspapers prior to consolidation had been published under said names in said city and county continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at which time said newspaper began daily publication under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho, to be published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each issue thereof, Thursday is announced as the day on which said legal notices will be published.

STATE OF IDAHO
COUNTY OF TWIN FALLS

JUN 30 1993

On this 27 day of April in the year of 1993, before me, a Notary Public, personally appeared Linda Capps McNamee, known or identified to me to be the person whose name subscribed to the within instrument, and being by me first duly sworn, declared that the statements therein are true, and acknowledged to me that he executed the same.

Permit To Appropriate Water

NO. 47-08261

Proposed Priority: January 17, 1991 Maximum Diversion Rate: 3.80 CFS
This is to certify, that **WILLIAM J LANTING**

DBA LANTING ENTERPRISE
RT 1
2181A N 2300 E
TWIN FALLS ID 83301

has applied for a permit to appropriate water from: **GROUNDWATER**
and a permit is **APPROVED** for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
IRRIGATION	03/15 to 11/15	3.80 CFS

LOCATION OF POINT(S) OF DIVERSION: NWNWSW , Sec. 5, Township 13S, Range 16E
TWIN FALLS County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
13S	16E	5	SWNW 40	SENW 35	NESW 35	150
			NWSW 40			40
		6	SENE 40			

Total number of acres irrigated: 190

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before **December 1, 1994**.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. Prior to the diversion of water under this right a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.
5. Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
6. Any license issued by IDWR pursuant to the right or portion thereof for the use of trust water is subject to a term review of 20 years after the date of this approval to determine availability of water for the use and to re-evaluate the public interest at the end of the term.
7. Diversion and use of water under this right is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.

APPROVED
JAN 23 1992

State of Idaho
Department of Water Resources**Permit To Appropriate Water**

NO. 47-08261

CONDITIONS/REMARKS:

8. The Director retains jurisdiction of this right and/or subsequent license issued to change, add or remove any requirement as determined to be appropriate.
9. The rate of diversion of water for irrigation under this right and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.
10. The well driller must monitor water temperatures while drilling the well. If water with a temperature greater than 85 degrees Fahrenheit is encountered by the driller, drilling must immediately cease, and the Department must be notified. Drilling shall not resume until the Department has reviewed the drilling conditions, and established standards for construction with the driller.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this

10th day of January, 1992

RE: WATER RIGHT NO. 47-08261

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

MICROFILMED
JUN 25 1997

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

For your records I have also enclosed a copy of your Application for Amendment of Permit, which was approved.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

RE: Water Rights 47-08007A, 47-08007B, and 47-08261

Dear Mr. Lanting:

Water Right Permits 47-08007 and 47-08261 are in the process of being licensed. Before they can be licensed, however, there is an item that needs to be addressed.

In 1996 you submitted an application proposing an amendment of Permit 47-08007. Your amendment application is still being reviewed because it is slightly in conflict with the findings of the field examiner who inspected your development in 1996. The field examiner reported that the permit does need to be amended before a water right license can be issued. But, in order to reflect your actual development, he has recommended splitting the right and describing it differently than proposed in your amendment application.

I have enclosed Application for Amendment forms for 47-08007A, 47-08007B, and Permit 47-08261, which show the correct locations of the points of diversion and the places of use, as reported by the field examiner. Each amendment form also contains a list of conditions and remarks proposed for the license when it is issued. These conditions and remarks may be modified upon further administrative review.

Because the amendment forms prepared by IDWR are based on the field examiner's report, I recommend pursuing them instead of the one you already submitted. The \$50 fee you paid in connection with the 1996 amendment application can be applied to one of the three amendment applications I have enclosed.

Please review the amendment forms carefully. If you concur with the information presented, sign the forms and return them with the \$100.00 filing fee (\$50.00 each, minus \$50.00 already paid) within fourteen days. If you sign and return the amendment forms I have enclosed, I will interpret that to mean that you wish to withdraw your 1996 amendment application and replace it with the amendments proposed by IDWR.

E. NARRATIVE/REMARKS/COMMENTS

The water for this permit is pumped from two wells. Well number one is located in the SW 1/4 of the NW 1/4 of the SW 1/4 of section 5 in township 13S range 13E. Well number two is located in the SE 1/4 of the NE 1/4 of the NE 1/4 of section 8 in township 13S range 16E. Well number one discharges into a mainline that is split into three mainlines. The first mainline heads south and waters the corners on the south end of the center pivot through gravity flow irrigation. The second section of the mainline travels west under the lane then turns north to irrigate the 28 acres in the NE 1/4 of the SE 1/4 of section 6 by using gated pipe. The third section of mainline travels north and discharges into pond number 1. The water is commingled with SRCC water in pond #1. The P/D for the SRCC water is in the NW 1/4 of SW 1/4 of section 5. The water is conveyed from the P/D to pond #1 through an open ditch along the south and west perimeter of the irrigated lands which is also used to irrigate the southern corners of the center pivot.

The water is moved from pond #1 by pump number 2 through a mainline to the northwestern center pivot in section 5. From the northwestern center pivot the water is then moved to the center pivot in the southeastern section of 5. From the southeastern center pivot the water is moved to diversion point #1 in the SE 1/4 of the SE 1/4 of section 5. At this diversion point the water can be sent to sump #1.

Sump #1 is the main redirection point for the system. At sump #1 the water is commingled with SRCC water and/or water from Well #2 which is transported through a cement pipe from pump #6 and/or the water from well #1 through the mainlines connecting the two center pivots. The commingled water in sump #1 can be diverted a four ways. First the water from sump #1 can be sent east to pond #2 in section #4, where it commingles with SRCC water and is pumped by pump #4 to the center pivot in the SE 1/4 of section #4. Second the water from sump #1 can be transported north through a gated pipe to water the corners of the center pivot in the SE 1/4 of section 5. Third the water can be sent south to section #8 to pump # 6 which irrigates the lands in section #8 with three wheel lines and one hand line. Fourth the water from sump #1 can also be sent to sump # 2, in the same 1/4 1/4 and section. The water in sump #2 is pumped by pump #3 back through the through rediverson point #1 to the mainlines connecting the two center pivots

MICROFILMED
JUN 25 1997

in section 5.

Well #2 sends its water to pump #6 which waters the land in section #8 and can be sent down a cement pipe to sump #1 (see Above for pump #6 description).

RECOMMENDATIONS REMARKS:

I recommend that this permit be licensed under the following conditions:

1. That this water right be used as supplemental water for the Salmon River Canal Company (SRCC) water assigned to the place of use for this permit. The SRCC is an unreliable source of irrigation water for this farm. The SRCC often reduces the amount of water per share and usually begin delivering water between the second week in May and the Last week in August. This prevents the Lantings from irrigating through the entire growing season.
2. That this water only be used on a designated area of 190 acres within the permissible place of use. This will allow Lanting Enterprises to manage their crop rotation to use this water to irrigate crops with a longer growing season without crop damage from an early shut off of the SRCC supplies of water. this will allow the Lantings to irrigate water sensitive crops by supplementing reduced shares of SRCC water.
3. That this water right when combined with 47-08007B and 47-02263 do not exceed a total diversion rate of 4.2 cfs from these two points of diversion.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 47-08261

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

Enclosed is an order reinstating your permit since proof of beneficial use was received after the proof due date. Please note that the priority date has been advanced to February 19, 1991.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning the field examination, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208) 736-3033.

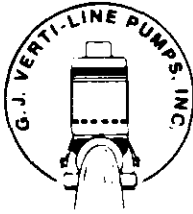

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

LAPSE NOTICE

RE: PERMIT NO. 47-08261

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated September 30, 1995. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

L. GLEN SAXTON
Chief, Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 47-08261

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1995. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

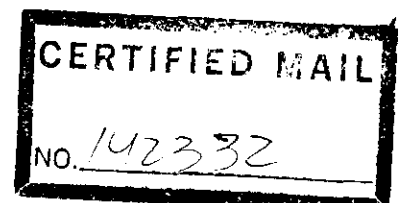

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

Conditions of Approval:

- 26A - Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
- 01G - Prior to the diversion of water under this right a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.
- 046 - Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
- 051 - Any license issued by IDWR pursuant to the right or portion

Conditions of Approval:

- thereof for the use of trust water is subject to a term review
- of 20 years after the date of this approval to determine
- availability of water for the use and to re-evaluate the public
- interest at the end of the term.
- 052 - Diversion and use of water under this right is subject to an
- annual use fee if rules are subsequently promulgated which
- provide for the submittal of the fee.
- 053 - The Director retains jurisdiction of this right and/or
- subsequent license issued to change, add or remove any
- requirement as determined to be appropriate.
- 03A - The rate of diversion of water for irrigation under this right
- and all other water rights on the same land shall not exceed 0.02
- cubic feet per second for each acre of land.
- 46B - Construction of the well must comply with Idaho well
- construction standards.
- ~~001~~ - After specific notification by the department, the right holder
- shall install a suitable measuring device or shall enter into an
- agreement with the department to determine the amount of water
- diverted from power records and shall annually report the
- information to the department.

Remarks: The well driller must monitor water temperatures while drilling the well. If water with a temperature greater than 85 degrees Fahrenheit is encountered by the driller, drilling must immediately cease, and the Department must be notified. Drilling shall not resume until the Department has reviewed the drilling conditions, and established standards for construction with the driller.

RE: Permit No. 47-08261

Dear Permit Holder:

Enclosed is a copy of your approved Request for Extension of Time submitted in connection with the above referenced permit. The time within which to submit proof of beneficial use is extended **December 1, 1995.**

Please note that the department has granted this extension based a government agency delay. It is important that you work diligently to develop the water right. The department **may not** be able to grant additional extensions.

Additionally, enclosed is the Proof of Beneficial Use you submitted on November 23, 1994. I have begun the process of refunding the \$125.00 you submitted with the proof. The refund should arrive in seven (7) to ten (10) days under separate cover.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

JULIE L. YARBROUGH

RE: Permit No. 47-08261

Dear Mr. Lanting:

On November 16, 1994, I sent you a letter suggesting that you withdraw the extension of time request you submitted October 4, 1994, and file proof instead. At that time I was unaware that you had filed for an amendment to change the place of use of the permit.

The Department should have accepted and granted the extension request until the amendment was processed and you had time to divert and use the water.

At this time I am requesting that you re-submit an extension request to extend the proof due date until the amendment can be processed and water applied to the new land. The Department will disregard and return the proof of beneficial use, refund \$125.00 of the license exam fee and apply the remaining \$50.00 to the extension request.

- I apologize for the confusion and for any inconvenience this may have caused you.

If you have any questions or concerns, please contact me at (208) 327-7953.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

MEMORANDUM

TO: File No. 47-08261

FROM: Julie Yarbrough 

SUBJECT: Proof Submittal

DATE: February 15, 1995

On October 4, 1994, the permit holder submitted an extension of time request to extend the proof due date to December 1, 1995, since he planned to change the place of use of the permit. I mistakenly returned the extension request and advised the permit holder that proof should be filed instead. On October 4, 1994, an amendment was filed to change the place of use. The Department should return the proof and solicit another extension request to extend proof until the amendment is approved. I will refund \$125.00 of the license examination fee and apply the remaining \$50.00 to the filing fee for the extension.

Affidavit of Publication

STATE OF IDAHO
COUNTY OF TWIN FALLS } SS.

No 26646

JAN 04 1995

I, Linda Capps McBride, being first duly sworn upon oath, depose
and say that I am Owner of the TIMES-NEWS, published daily, at
Twin Falls, Idaho, and do solemnly swear that a copy of the notice of advertisement, as per
clipping attached, was published in the regular and entire issue of said newspaper, and not in any
supplement thereof, for Two consecutive weeks,
commencing with the issue dated December 8, 19 94,
and ending with the issue dated December 15, 19 94.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho
Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except
Monday, both of which newspapers prior to consolidation had been published under said names in said city and county
continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since
such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at which time said
newspaper began daily publication under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated
as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho, to be
published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each
issue thereof, Thursday is announced as the day on which said legal notices will be published.

STATE OF IDAHO
COUNTY OF TWIN FALLS

On this 29 day of December in the year of 1994, before me,
a Notary Public, personally appeared Linda Capps McBride,
known or identified to me to be the person whose name subscribed to the within instrument, and being by me first duly
sworn, declared that the statements therein are true, and acknowledged to me that he executed the same.

Sheva R. Feltman
Notary Public for Idaho
Residing at Twin Falls, Idaho.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 47-08261

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208) 736-3033.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

Gentlemen:

Enclosed you will find a legal notice which we wish to have published in your newspaper. We have inserted the required publication dates. If time allows, please submit a galley proof for review before publication.

We have attempted to submit this legal as camera ready. Please call me at your earliest convenience and prior to your staff re-typing the legal if it does not meet your specifications so I can possibly make adjustments.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

In order to receive payment, an affidavit of publication must be submitted to the Department along with the publication bill.

Very truly yours,

Mary Baldwin
Sr. Secretary

NOTICE OF AMENDMENT TO A WATER PERMIT
NO. 47-08261

Notice is hereby given that WILLIAM J. LANTING, dba LANTING ENTERPRISE of 2181-A N, 2300 E, Twin Falls, ID has applied to the Department of Water Resources to change place of use for the following described water right.

WATER RIGHT AS RECORDED:

Permit No. 47-08261
Source: groundwater
Priority: 01/17/1991
Amount: 3.8 cfs
Use: irrigation (4/1-10/31)
Point of Diversion: NWSW, S05; NENE, NWNE, NESE, S08, T13S, R16E; Twin Falls County.
Place of Use: 190 acres within S1/2NW, N1/2SW, S05; SENE, S06, T13S, R16E.

WATER RIGHT TO BE CHANGED AS FOLLOWS:

Place of Use: 190 acres within S1/2NW, N1/2SW, S05; SENE, S06; SENE, S08, T13S, R16E.

Any protest against approval of the proposed amendment water right application must be filed with the Director, Idaho Department of Water Resources, 222 Shoshone Street East, Twin Falls, ID 83301 together with a protest fee of \$25.00 on or before December 26, 1994. The protestant must also send a copy of the protest to the applicant.

RE: Permit No. 47-08261

Dear Mr. Lanting:

The Department is in receipt of the Request for Extension of Time you submitted in connection with the above referenced permit.

I am writing to advise you that since you have developed the water right and are diverting water for a beneficial use, a Proof of Beneficial Use form should be filed instead of an extension request. If you withdraw the extension request in writing within thirty (30) days, the Department will refund the \$50.00 filing fee. If you chose not withdraw the extension request, the Department will act on it as submitted and it will likely be denied.

I have enclosed a Proof of Beneficial Use form and instructions for your convenience.

If you have any questions or if I can be of assistance, please contact me at (208)327-7953.

Sincerely,

A handwritten signature in cursive script that reads "Julie L. Yarbrough".

DEC 29 1994

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

REQUEST FOR EXTENSION OF TIME

TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right.

Permit No. 47-08261
Name(s) of Permit Holder: William J. Lanting dba Lanting Enterprise
Mailing Address: 2181A 2300N, Twin Falls, ID 83301
Date Proof is Due: 12-1-1994 Telephone No. 655-4272

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

Well is drilled. 200 HP Pump is installed. We have pumped
for 3 seasons. We are pumping into a center
pivot. pump. from 350-390 feet.

Costing \$ 85,000

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

We want to Amend The permit to move the water
from land that ^{we are} not able to irrigate to other land
that would make our irrigation systems more productive
+ efficient.

Permit holder(s) request an extension to 12-1-, 19 95.

FEE: \$50.00

x Wm J. Lanting
(Signature)*

*If other than permit holder, Power of Attorney must be supplied.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above request for extension of time be

TWIN FALLS ID 83301

PROOF DUE NOTICE

RE: PERMIT NO. 47-08261

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

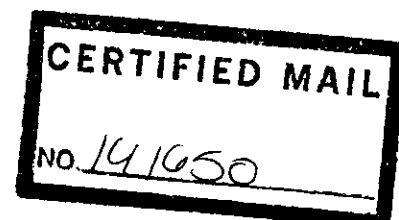

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

NOTICE OF AMENDMENT
TO A WATER PERMIT
NO. 47-08261

Notice is hereby given that WILLIAM J. LANTING DBA LANTING ENTERPRISE of Twin Falls, ID is the holder of Approved Permit No. 47-08261 with a priority date of 01/17/1991 authorizing the diversion of 3.80 cubic feet per second of water from groundwater in the NW1/4NW1/4SW1/4, S5, T13S, R16E County of Twin Falls, to be used for irrigation of 190 acres within S1/2NW1/4, N1/2SW1/4, S5, T13S, R16E; SE1/4NE1/4, S6, T13S, R16E.

This Application for Amendment proposes to add points of diversion.

The permit holder has applied to the Department of Water Resources for an Amendment to the Permit, to be changed as follows:

Amount: 3.80 cfs

Period of Use: 03/15
to 11/15

Point of Diversion:
NW1/4SW1/4, S5, T13S,
R16E; N1/2NE1/4,
NE1/4SE1/4, S8, T13S,
R16E.

Place of Use: No
change.

Any protest against approval of the amending of Permit No. 47-08261 as set forth above must be filed with the Idaho Department of Water Resources, 222 Shoshone Street East, Twin Falls, ID 83301 on or before April 19, 1993.

NO. 47-08261

Notice is hereby given that WILLIAM J. LANTING DBA LANTING ENTERPRISE of Twin Falls, ID is the holder of Approved Permit No. 47-08261 with a priority date of 01/17/1991 authorizing the diversion of 3.80 cubic feet per second of water from groundwater in the NW1/4NW1/4SW1/4, S5, T13S, R16E County of Twin Falls, to be used for irrigation of 190 acres within S1/2NW1/4, N1/2SW1/4, S5, T13S, R16E; SE1/4NE1/4, S6, T13S, R16E.

This Application for Amendment proposes to add points of diversion.

The permit holder has applied to the Department of Water Resources for an Amendment to the Permit, to be changed as follows:

Amount: 3.80 cfs

Period of Use: 03/15 to 11/15

Point of Diversion: NW1/4SW1/4, S5, T13S, R16E; N1/2NE1/4, NE1/4SE1/4, S8, T13S, R16E.

Place of Use: No change.

Any protest against approval of the amending of Permit No. 47-08261 as set forth above must be filed with the Idaho Department of Water Resources, 222 Shoshone Street East, Twin Falls, ID 83301 on or before April 19, 1993.

R. Keith Higginson, Director

Published in the Times News on 4/1 & 4/8/93.

Re: Application for Amendment, 47-08261

Dear Mr. Lanting:

The Department of Water Resources acknowledges receipt of your application for amendment of a permit.

This office will be advertising the application in the Times News on 4/1 & 4/8/93. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. A typical processing time for an unprotested application is about eight weeks.

Final regional review cannot be completed until we receive a list of company officers, including the title of your position and evidence of ownership of the place of use.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Mel Schulte
Water Right Agent

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 47-08261

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of of measuring device options.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows

RECEIVED
JAN 23 1992

established by state action, and is held in trust by the State of Idaho for the use and benefit of the people within the state. Conditions pertaining to a term review, annual use fee and jurisdiction of the permit are trust water conditions.

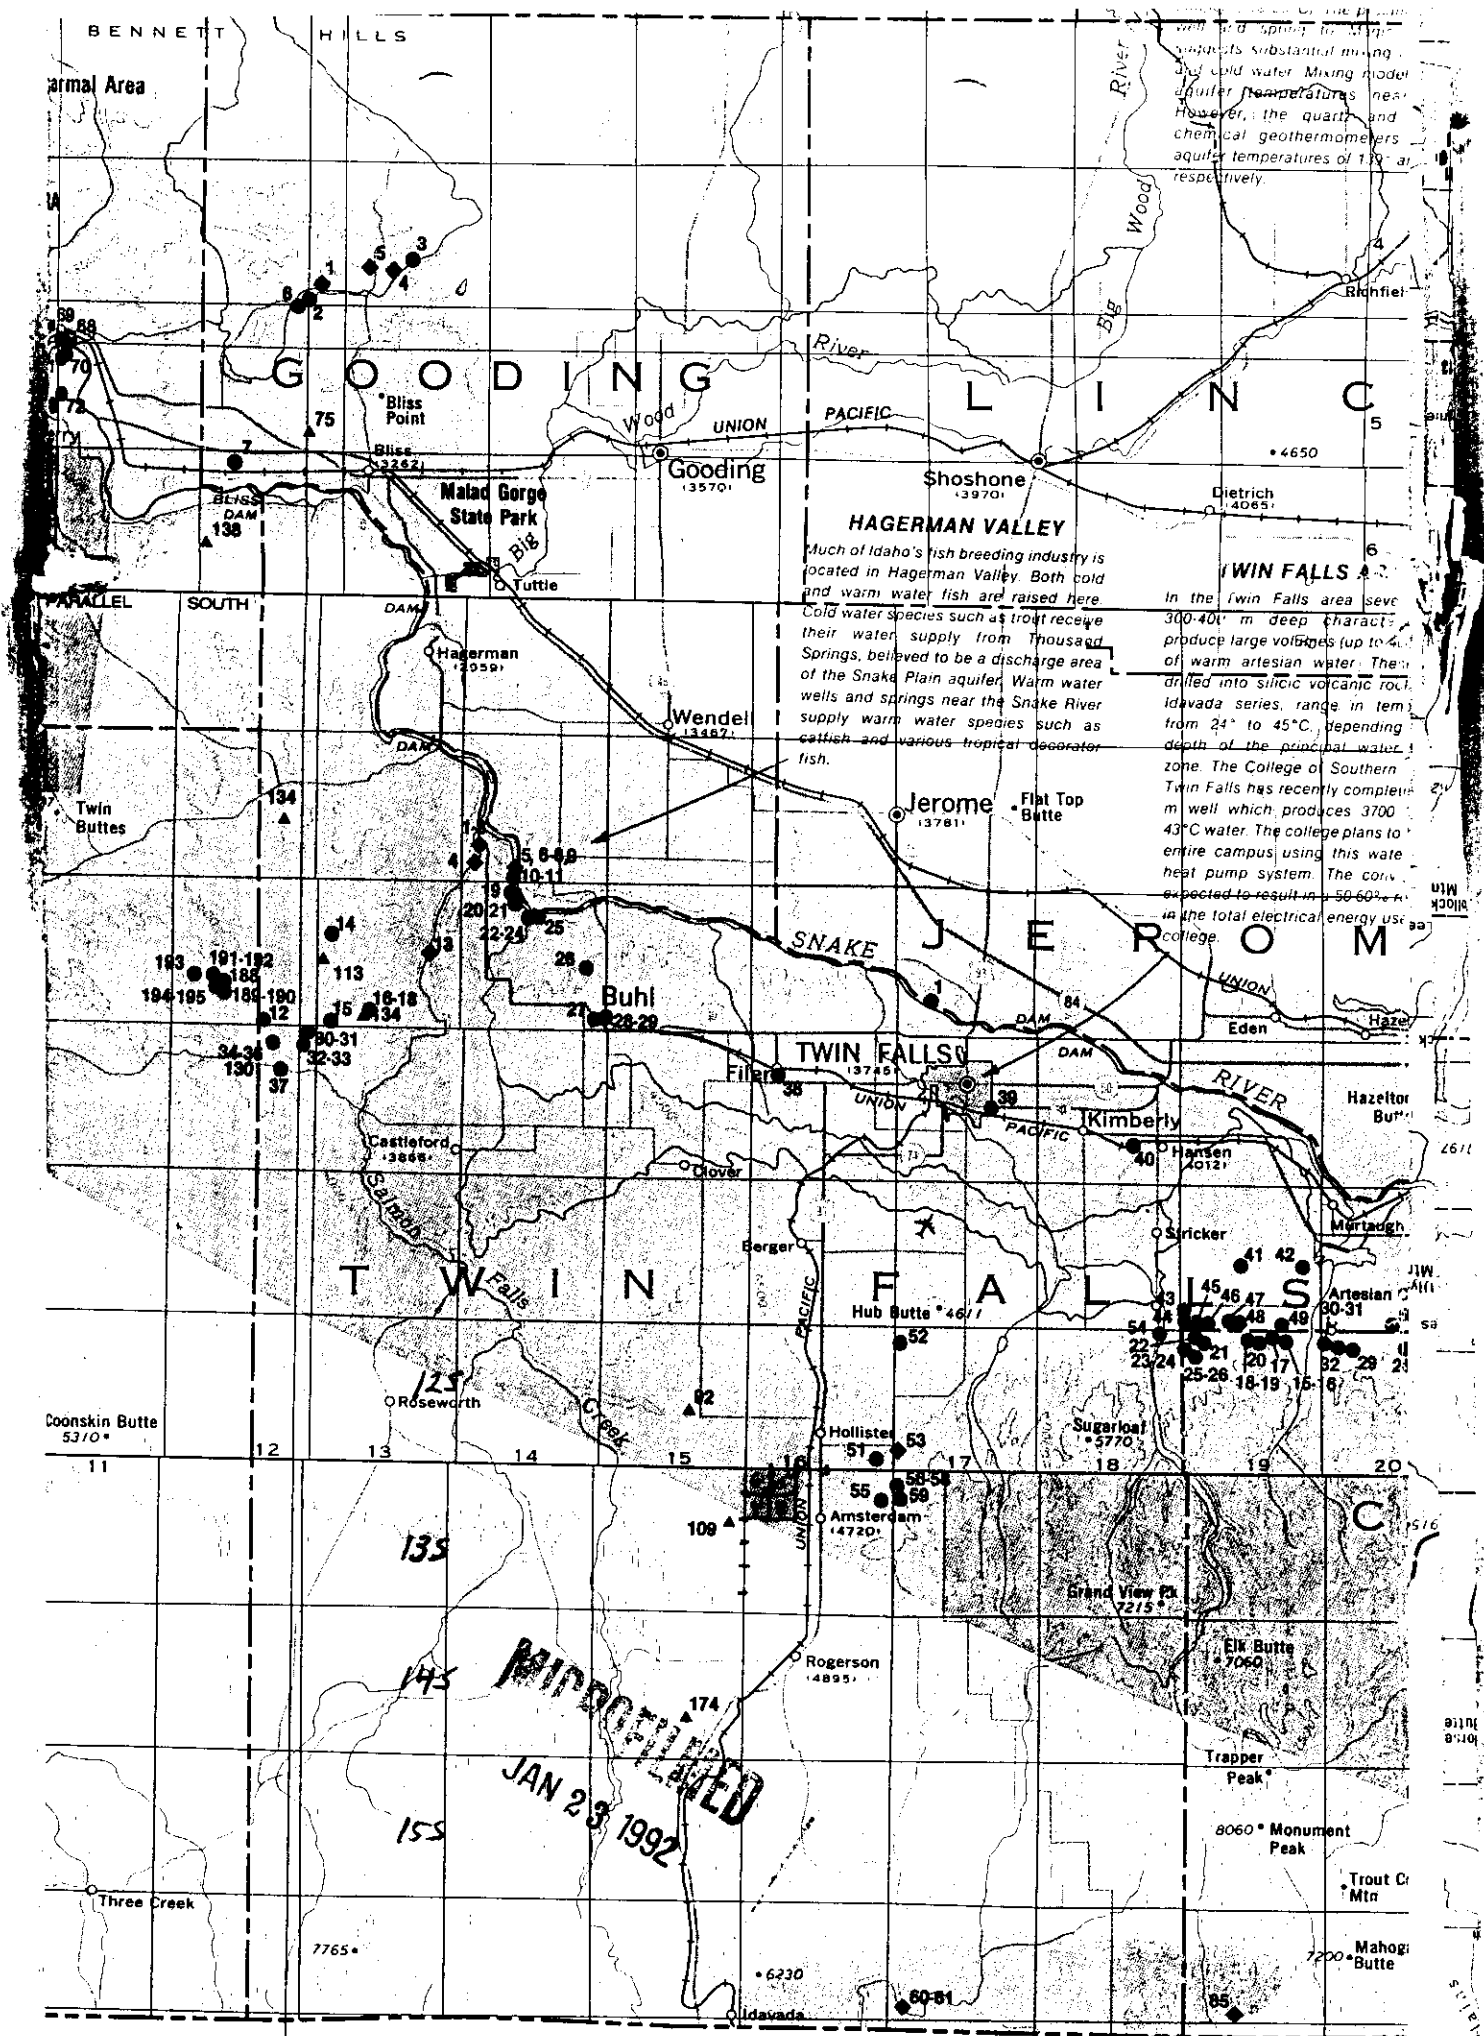

Sincerely,

PAMELA SKAGGS
Technical Records Specialist

MEMORANDUM

TO: FILE

FROM: TIM LUKE

RE: APP. NO. 47-8261/Trust Water Processing

DATE: 12-27-91

The above application is a trust water filing which has been forwarded to the state office for final review and processing. The applicants have amended the filing to avoid submittal of information required by Water Appropriation Rule 4,5,3.

Review of a 1976 orthophoto and 1980 infrared aerial photo indicates that the amended filing may be supplemental to only 49 acres of the total 190 acres. The remaining 141 acres do not appear to be irrigated in either photo and thus should be counted as trust acreage.

Continued processing of the application is recommended. Trust conditions are applicable. Advertising of the amendment is not required since both acreage and rate of diversion under the filing has been reduced.

Re: Application for Permit No. 47-8261

Notice of Information Required by Water Appropriation Rule 4,5,3.

Dear Applicant:

The above referenced application which you filed with the Department earlier this year has been forwarded to the state office for final review and processing.

For applications seeking diversion of more than 5.0 cfs and/or projects proposing irrigation of more than 200 acres, applicants are required to submit additional information as outlined under Water Appropriation Rule 4,5,3. Your project proposes diversion of more than 5.0 cfs of groundwater and includes more than 200 acres. The filing therefore is subject to the additional information requirements. In particular, you must submit the information outlined in Rules 4,5,3,1. through 4,5,3,5 (copy attached). A guideline for assisting you with submittal of the additional information is also enclosed.

I note that the Department overlooked notifying you about the additional information requirements before now. I apologize for this oversight and any delay or inconvenience it may cause.

The information must be submitted within 30 days of the date of this notice. **Failure to submit the required information within the time period allowed may be cause for the Department to void the application.** The Department may grant an extension of time in which to submit the information upon request and a showing of good cause. Requests for extension of time must be in writing. Please contact me at this office or call me directly at 327-7864 if you have any questions concerning the contents of this notice and/or the information requested under Rule 4,5.

Sincerely,

Tim Luke

Re: Application for Permit No. 47-08261 in the Name of
Lanting Enterprise

Dear Mr. Jones:

We are in receipt of your letter dated September 20, 1991 in which you expressed concerns about the approval of the above-referenced application for permit.

The concerns that you have noted have been reviewed by this office, and your letter will be retained in the file. Please be advised that any water right issued by this office is conditioned to be "subject to all prior water rights." This does offer protection to any senior water rights you may have.

Since you were the only party who expressed concerns about the application and our research failed to find evidence that the well had been drilled, the Department will proceed with the normal processing of the application which includes regional review prior to being forwarded to our State Office.

State office personnel will conduct a complete review prior to final processing of the application. When a permit is issued, you will be sent a copy.

If you have any questions or if this office can be of further assistance, please feel free to contact us.

Very truly yours,

Loren O. Holmes, P.E.
Southern Region Manager

Dear Sir:

Regarding Application For Trust Water Right
47-08261 in the name of Lanting Enterprise,
DBA.

We are writing this as a letter of concern.
We are not protesting a cold water well, but
should they encounter a hot water aquifer we
would be greatly concerned. Although, our
wells, which are approximately 97°, are located
approximately 5 miles east of the proposed
drilling site; we feel that the withdrawal of
that amount of warm water could lower the
depth of water in our wells and affect our
pumping ability.

Thank you.

Respectfully,

Roger Jones

Re: Application for Permit No. 47-08261

Dear Mr. Lanting:

On March 25, 1988 the Federal Energy Regulatory Commission (FERC) issued an order satisfying the last condition to make the Swan Falls Agreement effective. The Department is now prepared to proceed with the normal processing of your application.

This office will be advertising the application in the Times News on 9/5 & 9/12/91. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Douglas Jones, E. I. T.
Water Resources Engineering Specialist

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before SEPTEMBER 23, 1991.

Yours truly,

Mary Baldwin
Secretary/Office Coordinator

Re: Application for permit No. 47-08261

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

Because your application proposes to appropriate water which has been identified as "trust water" in the Swan Falls agreement, it will be processed under rules and regulations for water appropriation that have been adopted as required by law.

Under the rules, applications will be processed at a rate which allows development of 20,000 acres per year. The oldest applications will be processed first, provided that applicants are willing and able to proceed.

For this reason, it is not possible to estimate at this time when action will be taken on your application.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Douglas Jones, E. I. T.
Water Resources Engineering Specialist
