BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 47-08236	)	
	)	ORDER OF
IN THE NAME OF LARRY B. HEIDEMANN	)	REINSTATEMENT
	)	

This matter having come before the Idaho Department of Water Resources (Department), the Department finds as follows:

FINDINGS OF FACT

1. On July 27, 1990, the Department issued Permit No. 47-08236 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before August 1, 1993.

2. On May 31, 1993, the Department sent a proof due notice to the permit holder.

3. On August 5, 1993, the Department sent a lapse notice to the permit holder.

4. On October 19, 1993, the permit holder submitted proof to the Department.

5. Section 42-218a.2., Idaho Code, authorizes the Department to reinstate a lapsed permit, with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly establishing the extent of beneficial use prior to the proof due date and a showing of reasonable cause why the proof was submitted late.

6. The permit holder submitted evidence to confirm that water has been put to beneficial use during the authorized development period. The evidence consisted of an affidavit from Don Maier stating as the Heidemann's neighbor, he has knowledge the water was being used during the development period, and an affidavit from Kristi Heidemann stating the Heidemann dairy office was reorganized and the proof overlooked.

PAID 11-27
JUN 12 1994

CONCLUSIONS OF LAW

1. The permit holder has submitted proof of beneficial use along with supporting evidence which establishes that water was in fact beneficially used as identified on the permit.

2. The permit holder has shown sufficient cause why the proof of beneficial use was not submitted in a timely manner.

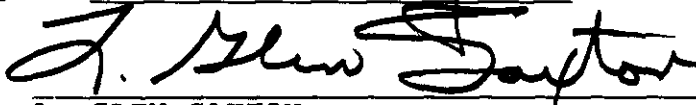

3. The permit can be reinstated with the date of priority advanced to the date proof of beneficial use was received by the Department.

ORDER

IT IS HEREBY ORDERED that Permit No. 47-08236 is REINSTATED.

IT IS FURTHER ORDERED that the date of priority of this permit is advanced to October 19, 1993.

Dated this 5th day of January, 1994.

E. NARRATIVE/REMARKS/COMMENTS

FILE: 47-08236

FROM: Amanda Folsom

DATE: December 22, 2000

I performed this exam on August 10, 1999. Mr. Heidemann's hired hand was there to assist me with the exam. The dairy and wells are located in the NENE ¼ of Sec 34, Twn 10S, Rng 18E. There are three wells on the dairy. Two of the wells, the west and east well, are located close to the barn on the south side. The newer well is approximately 200 yards south of the barn.

Eaton's Drilling from Wendell, Idaho sent me a copy of the pump curves for the three wells and the history of their installation. Apparently, the west and east wells were the first to be drilled. Both had a 7½-hp pump installed at the time, however, after time and the proximity of the two wells, they began to draw on each other causing an insufficient water flow. Under transfer number 4658, the third well was drilled. The drillers removed one of the 7½ pumps from the existing wells and placed it in the new well. Later the drillers came back and deepened one of the older existing wells and placed a 15hp pump in the well. Larry from Eaton Drilling provided me with all this information, however, he was unsure as to which of the old wells had been deepened. All of the wells are connected. Larry also sent me a copy of the pump curves, which I used to calculate the flow. My calculations came to a total capacity of 0.62cfs for the three wells. At the time of the exam, one of the wells was being repaired.

Ben Heidemann sent me the recorded amount of cattle that was on the dairy in 1993. I used this information to calculate the volume for drinking water and commercial use for the dairy. I used the Dairy Water Use Worksheet to help with my calculations.

On January 5, 1994, this permit was reinstated with the stipulation that the priority date would be advanced to the date that proof of beneficial use had been received under Section 42-218a.2., Idaho Code. This order advances the priority date of this permit to October 19, 1993.

My recommendation is as follows:

Stockwater	0.15cfs	30.1afa
Commercial	0.15cfs	17.3afa
Total	0.15cfs	47.4afa

COMMENTS

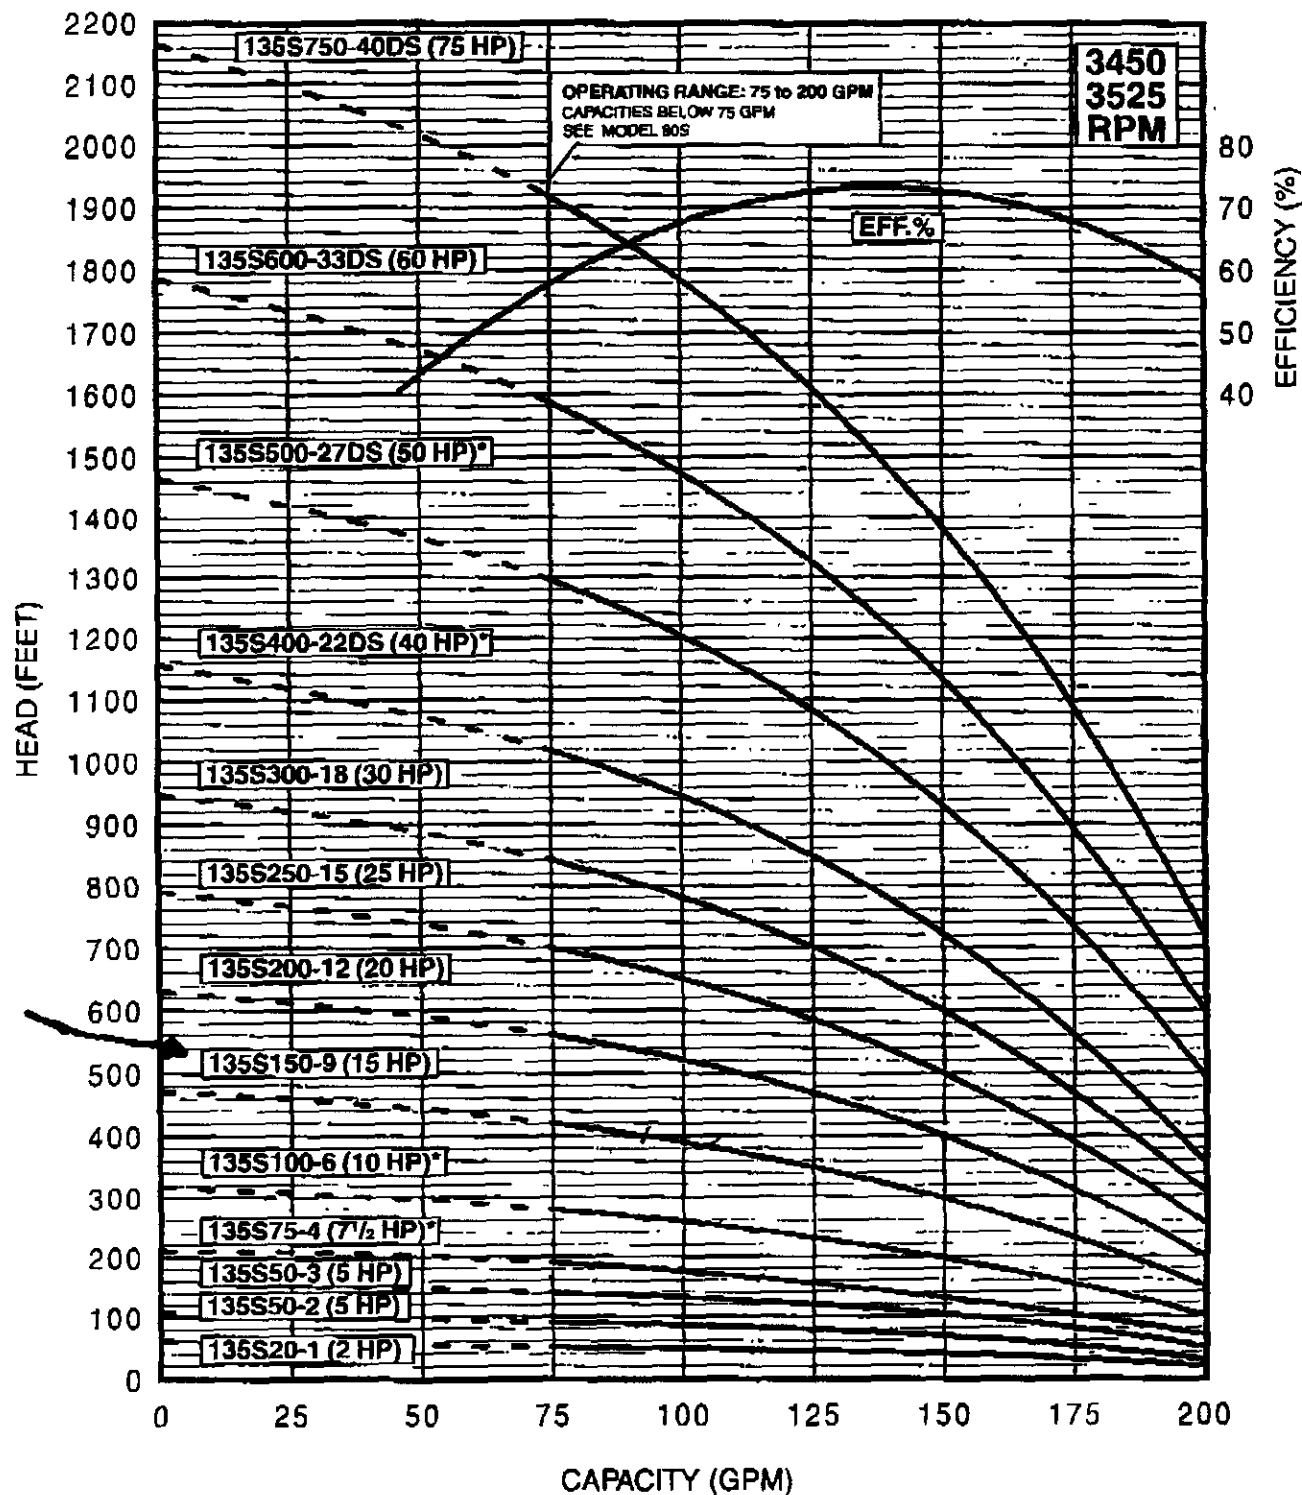

Our well logs are color graded copies. Can hardly read. Suggest asking IDWR for copies of originals. Should be on file. Sending copies of permits so you can get permit number and water right number for the well logs.

Sending Pump curves for first 2 pumps installed in 1990. They both were S&B - Model # 75K6 7 1/2 HP

In 1993 we drilled well #3 because first 2 wells were pumping off (to close together). Permit # 47-98-S-0039 we installed pump from one of 1st two wells.

In 1998 deepened one of original wells (#47-98-S-0039-100) from 255' to 356' (west well)

Then we installed a 15 HP Grundfos Model 1352150 in well. - Sending this pump curve also.

RE: Assignment of Permit 47-08236

Dear Permit Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced permits to you and Northwest Farm Credit Services, PCA. The department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact the department if you have questions.

Sincerely,

for Jeff Peppersack, Manager

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 47-08236

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority date of the permit to October 19, 1993, since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls, at (208)736-3033.

To Whom It May Concern:

I am writing this affidavit in reference to Permit #47-8236, a water drilling right permit for Heidemann Dairy. To the best of my knowledge, Heidemann Dairy used the specified pump from April 5, 1993 until August 1, 1993. This was evident to me because I farmed the land directly next the well sight.

Dear Sirs,

We regret any inconvenience caused by untimely information. We underwent a change in personnel and subsequently transferred the dairy records to the dairy office. Our bookwork became shuffled and your request overlooked.

If your office needs any further information to retain Permit #47-8236 in effect please let us know. We appreciate your understanding.

RE: Permit Nos. 47-08236

Dear Permit Holder:

The Department received your proof of beneficial use statement for the above referenced permit on October 19, 1993. The permit lapsed on August 1, 1993, so the 60-day late period during which the permit can be readily reinstated has passed.

Because you failed to file the proof of beneficial use in a timely manner, and pursuant to Section 42-218a, Idaho Code, (copy enclosed) the permit can be reinstated only if you submit the following:

- a) Two pieces of evidence to show that beneficial use of the water did commence and to show the extent of the use of water during the authorized permit period from the time the permit was issued until the proof due date, and
- b) Reasonable cause why the proof of beneficial use was filed late.

Your proof of beneficial use statement along with any information which may have been submitted with it, will remain on file in this office for 60 days to allow you an opportunity to assemble and submit the additional required information.

You should also be aware, that since the proof was filed late, your priority date has been penalized. Provided you supply the requested information, your priority date of March 5, 1990 will be advanced to October 19, 1993.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

LAPSE NOTICE

RE: PERMIT NO. 47-08236

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated May 31, 1993. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 47-08236

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

MEMORANDUM

DATE: JULY 31, 1992

TO: WATER RIGHT HOLDERS AND APPLICANTS IN TWIN FALLS
LOW-TEMPERATURE GEOTHERMAL MORATORIUM AREA

FROM: NORM YOUNG

RE: EXTENSION OF MORATORIUM

139414

Enclosed is a copy of an order extending the order designating the Twin Falls Low-Temperature Geothermal Moratorium Area. I appreciated the attendance of many of the users at the public information meeting on this matter held in Twin Falls last week. I understood those in attendance favored an extension of the moratorium, and some of the users were encouraging that the size of the area be increased and that additional actions be taken to protect artesian pressures. I indicated at the meeting that the moratorium would be extended without modification to keep its continuity and that IDWR will schedule as time and resources permit a review of the following matters:

- Expansion of the area.
- The need for repair or reconstruction of wells in and adjacent to the area.
- Evaluate the adequacy of the agreement to manage pumpage to prevent withdrawal in excess of the average rate of recharge or to maintain artesian pressures in the public interest.
- Review need for and adequacy of monitoring programs.

With respect to monitoring, the data recorded by the USGS from the well at the Nazarene Church is an important part of the information now being collected. The Church will soon be finished and will be using water from the well. Data from an unused well is more reliable for evaluating aquifer conditions. USGS and IDWR are evaluating alternatives for replacing this source of data. If you are aware of a well that is finished into the low-temperature geothermal aquifer and is not being used, please call Loren Holmes, IDWR Regional Manager at Twin Falls, a call at 736-3033.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P47-08236

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of

RECORDED

JUL 30 1990

Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor

Re: Application for Permit No. 47-08236

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Times News on 5/3 & 5/10/90. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Douglas Jones, E. I. T.
Water Resources Engineer

This Permit is Approved Date 3/5/90

If approved, this permit authorizes the construction of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

REQUEST FOR EXPEDITED ISSUANCE OF A DRILLING PERMIT

Larry B. Heidemann, Applicant, requests issuance of a drilling permit prior to approval of a water right to withdraw water from the well.

The request is made for the following reason(s):

Construction of the dairy is to begin immediately. The wells need to be drilled right away so that other construction will not be interfered with.

Applicant understands that the drilling permit does not constitute a water right and does not authorize diversion or use of water from the well.

Applicant acknowledges that by accepting a drilling permit and commencing construction he accepts all risk that the well may not ultimately be approved for use.
