Affidavit of Publication

STATE OF IDAHO

COUNTY OF TWIN FALLS

SS.

No 20366

I, Linda Capps McQuire being first duly sworn upon oath, depose
and say that I am Print Clerk of the TIMES-NEWS, published daily, at
Twin Falls, Idaho, and do solemnly swear that a copy of the notice of advertisement, as per
clipping attached, was published in the regular and entire issue of said newspaper, and not in
any supplement thereof, for Two consecutive Weeks,
commencing with the issue dated September 21, 1989,
and ending with the issue dated September 28, 1989.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho
Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily ex-
cept Monday, both of which newspapers prior to consolidation had been published under said names in said city and
county continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-
NEWS, since such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at
which time said newspaper began daily publication under said name in said city and county continuously and
uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated
as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho,
to be published weekly, will be published; and that at the head of the editorial column of said combined newspapers,
and in each issue thereof, Thursday is announced as the day on which said legal notices will be published.

PLACE OF USE:

DOMESTIC, same as IRRIGATION use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Irrigation use under this right is authorized only in connection with a domestic use.
6. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 4.0 afa per acre for the lands above.

JAN 12 1994

E. NARRATIVE/REMARKS/COMMENTS

A 3 H.P. submersible pump in a 102' well supplies water for pasture, lawn, & home. A 2" buried mainline runs north from the well. 6 1" buried laterals run east off this mainline. Every lateral has 8 sprinkler holes on it. Most of the sprinklers were Toro 6000 series. At the time of the exam, a buried mainline was leaking so a true measurement could not be obtained.

The owner changed to a 3 H.P. pump in May of 1988. The water level was 34' then. An area estimate was done to verify this statement. The water level ranged mainly from 30' to 45' in that area (plenty of logs in area). A theoretical diversion rate of .10 cfs was calculated.

Acreage was determined by inspection. Everything on the 3 acre property was beneficially irrigated except the house, driveway, & the back 60' by 200' area (shed, garage, etc.). I determined 2.5 acres were beneficially irrigated. The lawn & landscape has an automatic sprinkler system. I included the lawn under the irrigation use, so I reflected an interval volume only for domestic use.

The pasture is for 3-5 cattle.

According to my research, no examination fee was received with the proof of beneficial use. But the department acknowledged the proof, so I really couldn't limit this permit.

Have conditions of permit approval been met? ☒ yes ☐ no

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = (2.5)(4.0) = 10.0 \text{ afa}$$
$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = (.05)(214)(1.9835) = 21.2 \text{ afa}$$
$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 10.0 \text{ afa}$$

2. Volume Calculations for Other Uses:

Internal domestic only = .6 ofa

REMARKS The owner changed to a 3 H.P. in the May of 1988. So they knew the water level was 34' then. An area estimate was done to confirm this statement. There were plenty of logs in that area & water level ranged from 30' to 45'.

RE: Permit 47-8225

Dear Mr. & Mrs. Becker:

While reviewing the field exam report for the field exam conducted August 6, 1992 on your domestic and irrigation system, it became evident additional fees may be due.

The permit allowed for the development of three acres irrigation and a single domestic component. The Proof of Beneficial Use you filed indicated the same and the field exam confirmed the domestic portion and 2.5 acres irrigation as having been developed. While there is no license exam fee required for a single family domestic or stockwater use, there is a \$50 exam fee due if the irrigation part of the permit is to be included.

With the irrigation component included, the total recommended diversion rate is .09 cfs. Please note on the enclosed License Examination Fee Schedule the line I highlighted that reflects the fee amount necessary for a diversion rate of .09 cfs.

If you want to include the irrigation part of your permit in the final license to be issued, please remit your check payable to Idaho Department of Water Resources in the amount of \$50. If you choose not to pay the \$50 exam fee we will process the license for your domestic use only. Please call me at 736-3033 if you would like to discuss this matter in more detail.

TO: WATER RIGHT HOLDERS AND APPLICANTS IN TWIN FALLS
LOW-TEMPERATURE GEOTHERMAL MORATORIUM AREA

FROM: NORM YOUNG

RE: EXTENSION OF MORATORIUM

139411

Enclosed is a copy of an order extending the order designating the Twin Falls Low-Temperature Geothermal Moratorium Area. I appreciated the attendance of many of the users at the public information meeting on this matter held in Twin Falls last week. I understood those in attendance favored an extension of the moratorium, and some of the users were encouraging that the size of the area be increased and that additional actions be taken to protect artesian pressures. I indicated at the meeting that the moratorium would be extended without modification to keep its continuity and that IDWR will schedule as time and resources permit a review of the following matters:

- Expansion of the area.
- The need for repair or reconstruction of wells in and adjacent to the area.
- Evaluate the adequacy of the agreement to manage pumpage to prevent withdrawal in excess of the average rate of recharge or to maintain artesian pressures in the public interest.
- Review need for and adequacy of monitoring programs.

With respect to monitoring, the data recorded by the USGS from the well at the Nazarene Church is an important part of the information now being collected. The Church will soon be finished and will be using water from the well. Data from an unused well is more reliable for evaluating aquifer conditions. USGS and IDWR are evaluating alternatives for replacing this source of data. If you are aware of a well that is finished into the low-temperature geothermal aquifer and is not being used, please call Loren Holmes, IDWR Regional Manager at Twin Falls, a call at 736-3033.

RE: PERMIT NO. 47-08225

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)734-3578.

Sincerely,

Rita Fleck

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P47-08225

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor

Re: Application for Permit No. 47-08225

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Times News on 9/21 & 9/28/89. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Loren O. Holmes, P.E.
Southern Region

Dear Mr. Merritt:

Enclosed is my check for \$30.00 and the completed application for permit which you sent me.

This is a different permit application than I have completed for adjudication, so I would appreciate your looking it over to ensure that it has been completed correctly.

As you recall, this application came about because of the $\frac{1}{2}$ acre limitation on the domestic &/or stockwater claim which I submitted some time ago for the Snake River Basin Adjudication process for the same well.

Please let me know if further information is required.

Sincerely,
