G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 4.5 \times 4.0 \text{ gfa} = 18.0 \text{ gfa}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 6.14(214)(1.9835) = 59.4 \text{ gfa}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 18.0 \text{ gfa}$$

H. REMARKS AND OVERLAP REVIEW ANALYSIS

The output of the irrigation system at capacity is approximately .13 cfs, which is the rate of flow requested on the permit.

Another WR# for irrigation, #47-08298, is being held under the current drought moratorium.

No overlaps were found.

RE: Amendment of Permit No. 47-08216

Dear Water Right Holders:

The above referenced application for amendment has reached the State Office for final review and processing. Our records indicate that there is an outstanding balance of \$165.00 on Drilling Permit No. 47-92-S-017 issued to you February 4, 1992. The permit was issued for domestic use instead of irrigation. The fee for an irrigation permit is \$200.00, leaving a \$165.00 balance.

Please remit the additional fee as quickly as possible to prevent any further undue delay in processing your application for amendment. If you have recently paid the fee, please ignore this notice.

Sincerely,

A handwritten signature in cursive script that reads "Brenda L. Miller".

Re: Application for Amendment, 47-08216

Dear Applicants:

The Department of Water Resources acknowledges receipt of your application for amendment of a permit.

This office will be advertising the application in the Times News on 9/3 & 9/10/92. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. A typical processing time for an unprotested application is about eight weeks.

Please be advised that an additional \$165.00 must be paid before the Application for Amendment of Permit No. 47-08216 can be approved. Since Drilling Permit No. 47-92-S-017 was approved for Domestic use only and the above referenced Application for Permit proposes irrigation use, the difference in filing fees is required.

Please feel free to contact this office if you have any questions regarding this procedure.

MEMORANDUM

DATE: JULY 31, 1992 139408

TO: WATER RIGHT HOLDERS AND APPLICANTS IN TWIN FALLS
LOW-TEMPERATURE GEOTHERMAL MORATORIUM AREA

FROM: NORM YOUNG

RE: EXTENSION OF MORATORIUM

Enclosed is a copy of an order extending the order designating the Twin Falls Low-Temperature Geothermal Moratorium Area. I appreciated the attendance of many of the users at the public information meeting on this matter held in Twin Falls last week. I understood those in attendance favored an extension of the moratorium, and some of the users were encouraging that the size of the area be increased and that additional actions be taken to protect artesian pressures. I indicated at the meeting that the moratorium would be extended without modification to keep its continuity and that IDWR will schedule as time and resources permit a review of the following matters:

- Expansion of the area.
- The need for repair or reconstruction of wells in and adjacent to the area.
- Evaluate the adequacy of the agreement to manage pumpage to prevent withdrawal in excess of the average rate of recharge or to maintain artesian pressures in the public interest.
- Review need for and adequacy of monitoring programs.

With respect to monitoring, the data recorded by the USGS from the well at the Nazarene Church is an important part of the information now being collected. The Church will soon be finished and will be using water from the well. Data from an unused well is more reliable for evaluating aquifer conditions. USGS and IDWR are evaluating alternatives for replacing this source of data. If you are aware of a well that is finished into the low-temperature geothermal aquifer and is not being used, please call Loren Holmes, IDWR Regional Manager at Twin Falls, a call at 736-3033.

RE: PERMIT NO. P47-08216

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

SUBJECT

I believe the well log and Tax record submitted by the Applicant provides sufficient evidence to establish development prior to 10/1/84. I've also looked at our 1986 LANDSAT DATA, AND the LAND is classified as irrigated in that year. Our 1976 orthophoto also shows the LAND as irrigated, although the source at that time may have been CANAL WATER. Based on all of this info, I believe the well was in use for the irrigation of the 4.5 Acres prior to 1984 and that we need not ASK for additional info or evidence. Due to the priority of this filing, it is considered a trust water filing & should be conditioned AS such.

Dear Loren:

As per our telephone conversation of today regarding the Swan Falls policy of the Department, I am enclosing an Application for Permit for an irrigation use as well as a claim for domestic use to be entered into the Adjudication for our client Mr. Roy Raymond. I have taken the original domestic claim filed timely in the Adjudication and revised it for domestic use only including the irrigation of a half acre and supplemented per Department rules with the Application for Permit for irrigation of 4 1/2 acres so as to provide irrigation for the claimant's total property of 5 acres.

The Application for Permit is filed in accordance with the Department's Swan Falls Water Right Policy and Implementation Plan, IV: Policy, Section 4, page 8, dated November 10, 1988.

If you have questions regarding either of these filings, please contact me at once.

Best wishes and thank you for your help in interpreting the policy so as to allow our client to irrigate his entire property and be in compliance.

RE: SRBA CLAIM

Dear Claimant:

Your adjudication claim for diversion from a groundwater source and your money order #/check # 7362 are returned. You are given the opportunity to withdraw this claim. Any water right developed from a groundwater source after 3/25/1963, for any use other than single family domestic use, is required to have an application for permit filed. Normally, any claim for a diversion from a groundwater source with a priority date after 3/25/1963 is disallowed and no water right decreed for the use claimed. This includes uses such as irrigation of over 1/2 acre or domestic use for a commercial business.

I have enclosed an application for permit, with instructions for your use in this matter. If you will return the completed forms to the Department of Water Resources, 2148 4th Avenue East, Twin Falls, ID 83301, we will be happy to proceed. If you have any questions, contact our office, (208)734-3578, for an appointment or assistance.

Sincerely,

Allen Merritt
