Dear Water Right Holder(s):

Enclosed is a copy of the Water Right License issued on the above referenced permit. If you have any questions, please contact me within 10 days of receipt of this license.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

RE: Water Right No. 47-08183

Dear Mr. and Mrs. Baggett:

The Department of Water Resources is preparing to license Water Right 47-08183. Permit 47-08183 was issued to you in 1992. I have enclosed a printout showing the information that is being proposed for the license.

Before the license can be issued, however, there is one matter that must be resolved. Although your permit was issued for a diversion rate of 0.40 cfs and for the irrigation of 20 acres, your proof of beneficial use statement, which you submitted in 1992, indicated that you developed only 0.20 cfs on 10 acres. In accordance with your proof statement, you paid an examination fee of only \$50.00. The field examiner sent to verify your development in 1995 reported that you are diverting at 0.40 cfs to irrigate 20 acres. The examination fee for a diversion of 0.40 cfs is \$100.00. Your water right license must be limited to 0.20 cfs unless you pay the remainder of the examination fee for a diversion rate of 0.40 cfs.

If you want your water right license to reflect the 0.40 cfs reported by the field examiner, please submit the additional \$50.00 and a late payment penalty of \$25.00 within 30 days. If the examination fee and late payment are not received within 30 days, your right will be licensed for 0.20 cfs in accordance with the examination fee already paid. If you submit the fee after 30 days but before your license is issued, the priority date of your right will be advanced in accordance with Section 42-217 of the Idaho Code.

If you have any questions, please contact me at 208-327-7946.

Respectfully,

Shelley Walter Keen
Water Rights Supervisor

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 47-08183

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)736-3033.

Sincerely,

Karen L. Gustafson

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P47-08183

Dear Permit Holder(s):

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by

state action, and is held in trust by the State of Idaho for the use and benefit of the people within the state. Conditions pertaining to a term review, annual use fee and jurisdiction of the permit are trust water conditions.

MEMORANDUM

TO: FILE

FROM: TIM LUKE

RE: APP. NO. 47-8183

DATE: 12-18-91

The above application is a trust water filing which was held in the region and had not been reviewed in sequence with other filings. The filing was not reviewed earlier due to confusion as to whether the point of diversion was in a groundwaer management area. ✓

The applicant has returned a trust water information questionnaire stating that development as represented by the application was completed prior to 1984. Comments on the original filing also indicate that this is a supplemental filing. A copy of an orthophoto attached to the application seems to confirm that the land is developed and irrigated. Since this is a supplemental filing and the development was completed prior to 1984, acreage will not count as trust acreage.

I recommend continued processing of the application. Trust conditions are applicable due to the late priority/filing date.

TRUST WATER INFORMATION QUESTIONNAIRE

Application No. 47-8183

INSTRUCTIONS: IF YOU ARE NOT INTERESTED IN HAVING THE APPLICATION PROCESSED, PLEASE COMPLETE AND RETURN THE ENCLOSED WITHDRAWAL FORM.

IF YOU WISH TO HAVE THE APPLICATION PROCESSED, PLEASE ANSWER THE FOLLOWING QUESTIONS AS THOROUGHLY AS POSSIBLE. FAILURE TO RETURN EITHER THE WITHDRAWAL FORM OR QUESTIONNAIRE IS CAUSE FOR THE DEPARTMENT TO VOID THE APPLICATION.

1a. Are you the current owner of the land or place of use described under this application? Yes X No

b. If you are not the property owner, please describe the arrangement enabling you to develop the proposed project.

2a. Has the source of water listed on this application been used to irrigate any of the land described under this same application prior to October 1, 1984? Yes X No

b. If yes, please describe the extent of development and number of acres irrigated. (Note: Uses developed after October, 1984 are considered trust water diversions and may be subject to certain conditions. You may be asked to verify uses established prior to October, 1984.)

well has been used since 1975 and irrigates approx 90 Acres

3. If you answered NO to ques #2a, please state the number of acres you have irrigated with this source after October 1, 1984.

4. If you have not irrigated lands under this application, please state the number of acres you plan to complete.

5. If the permit is a supplemental filing please identify other water rights which are used on the same land.

Thrin Falls Canal Co.

Use the reverse side of this form if you wish to add any comments. You may mark changes on the enclosed application to designate any proposed amendments. (Note: Proposed changes which result in an expansion of use will not be considered by the department.)

I hereby assert that the responses provided above are true to the best of my knowledge. I understand that any willful misrepresentations may result in voiding of the application.

RE: APPLICATION FOR PERMIT NO. 47-8183

Dear APPLICANT:

Due to the Swan Falls litigation, Department approval of the enclosed application may have been delayed. The Department is presently reviewing your application and may authorize the proposed development.

The purpose of this letter is to determine: (1) if you are still interested in developing the project, and (2) the extent of development, if any, that has already occurred under the application. Enclosed are two forms requesting information which will help the Department expedite the processing of the application.

1. If you have abandoned or have no interest in continuing with your plans for development of the project, please complete the enclosed withdrawal form and return it to the Department. If you request a withdrawal of the application and the application was not previously advertised, the department will refund your original filing fee.

2. If you wish to continue with your proposed development plans, or have completed all or a portion of the proposed development before October 1, 1984, then you must complete and return the enclosed questionnaire. You may use the questionnaire and enclosed application to make any comments &/or amendments concerning the application. Your completion of the questionnaire will expedite processing and help the department determine if the water diverted under the application is public water or trust water. Approved trust water applications may be subject to additional conditions.

Failure to return either of the above forms within thirty (30) days of the date of this letter is cause for the Department to void the application.

Please be further advised that if any undeveloped portion of your proposed project is greater than 200 acres, or if the application proposes diversion of more than 5.0 cfs, the department will issue a notice requesting additional information as required by Water Appropriation Rule 4,5. (copy enclosed). In particular, rules 4,5,3. through 4,5,3,5. apply to your project if it is more than 200 acres. If necessary, the rule 4,5. information notice will be sent to you after you return the questionnaire.

Re: Application for permit No. 47-08183

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

Because your application proposes to appropriate water which has been identified as "trust water" in the Swan Falls agreement, it will be processed under rules and regulations for water appropriation that have been adopted as required by law.

Under the rules, applications will be processed at a rate which allows development of 20,000 acres per year. The oldest applications will be processed first, provided that applicants are willing and able to proceed.

For this reason, it is not possible to estimate at this time when action will be taken on your application.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Douglas Jones, E. I. T.
Water Resources Engineer
