WATER RIGHT LICENSE

WATER RIGHT NO. 47-08162

Priority: December 18, 1988

Maximum Diversion Rate:

0.04 CFS

Maximum Diversion Volume:

1.3 AF

This is to certify, that ERNEST FIFE
PRISCILLA FIFE

230 CLEARSPRINGS DR
TWIN FALLS ID 83301

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated December 2, 1988; and has submitted Proof of Beneficial Use on July 17, 1990. An examination indicates that the works have a diversion capacity of 0.050 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
COMMERCIAL	01/01 to 12/31	0.02 CFS	0.1 AF
DOMESTIC	01/01 to 12/31	0.04 CFS	1.2 AF
	Totals	0.04 CFS	1.3 AF

LOCATION OF POINT(S) OF DIVERSION:

SESE , Sec. 11, Township 10S, Range 16E
TWIN FALLS County

PLACE OF USE: COMMERCIAL

TWN RGE SEC

10S 16E 11 SESE

PLACE OF USE:

DOMESTIC, same as COMMERCIAL use

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Water used under this right if discharged into a natural channel or subsurface system shall meet Idaho Water Quality Standards.
6. Commercial and domestic uses are for an auto repair shop.

Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 47-08162

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 23RD
day of SEPTEMBER, 1995.

Acting for KARL J. DREHER, Director

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 47-8162 IN THE)
NAME OF ERNEST OR PRISCILLA FIFE) ORDER OF REINSTATEMENT
_____)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before July 1, 1990; and,

WHEREAS, the Department has notified the permit holders by certified mail that proof was due and instructed the permit holders of the steps to be taken to submit the proof of beneficial use; and,

WHEREAS, the Department has notified the permit holders that the permit lapsed for failure of the permit holders to submit the proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holders have provided a reasonable showing why the permit should be reinstated by submitting an acceptable proof of beneficial use on July 17, 1990;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 47-8162 be REINSTATED and the priority advanced to December 18, 1988.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 47-8162, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before July 1, 19 90.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other:

Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

Irrigation use under this permit is authorized only in connection with a domestic use.

Water used under this permit if discharged into a natural channel or subsurface system shall meet Idaho Water Quality Standards.

The maximum rate of diversion for irrigation purposes under this permit shall not exceed 0.03 cfs.

Witness my hand this 6th day of June, 1989.

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \underline{N.A.}$

$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = \underline{\hspace{2cm}}$

$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = \underline{\hspace{2cm}}$

2. Volume Calculations for Other Uses:

Commercial Use:

$$\underline{6} (\text{full-time employees}) \times \underline{15} (\text{g.p.d.}) \times \underline{6} (\text{days/week}) \times \underline{52} (\text{weeks}) = \underline{0.10} \text{ afa}$$

NOV 08 1995

H. REMARKS AND OVERLAP REVIEW ANALYSIS

No irrigation system or usage was found. The front lawn is less than 1/2 acre, and has been included in the recommendation for domestic use. It is thus recommended that the permit be amended for just commercial & domestic uses.

Calculation for Instantaneous Demand:

$$5\text{-fixtures} \times 1.1 \text{ gpm} = .02 \text{ cfs}$$

No overlaps were found.

I. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
Commercial	1-1	12-31	.02	.10
Domestic	1-1	12-31	.04	1.2
Totals:			.04	1.3

2. Recommended Amendments

☐ Change P.D. as reflected above

☐ Add P.D. as reflected above

☐ None

☒ Change P.U. as reflected above

☐ Add P.U. as reflected above

☐ Other

TO: WATER RIGHT HOLDERS AND APPLICANTS IN TWIN FALLS
LOW-TEMPERATURE GEOTHERMAL MORATORIUM AREA

FROM: NORM YOUNG

RE: EXTENSION OF MORATORIUM

Enclosed is a copy of an order extending the order designating the Twin Falls Low-Temperature Geothermal Moratorium Area. I appreciated the attendance of many of the users at the public information meeting on this matter held in Twin Falls last week. I understood those in attendance favored an extension of the moratorium, and some of the users were encouraging that the size of the area be increased and that additional actions be taken to protect artesian pressures. I indicated at the meeting that the moratorium would be extended without modification to keep its continuity and that IDWR will schedule as time and resources permit a review of the following matters:

- Expansion of the area.
- The need for repair or reconstruction of wells in and adjacent to the area.
- Evaluate the adequacy of the agreement to manage pumpage to prevent withdrawal in excess of the average rate of recharge or to maintain artesian pressures in the public interest.
- Review need for and adequacy of monitoring programs.

With respect to monitoring, the data recorded by the USGS from the well at the Nazarene Church is an important part of the information now being collected. The Church will soon be finished and will be using water from the well. Data from an unused well is more reliable for evaluating aquifer conditions. USGS and IDWR are evaluating alternatives for replacing this source of data. If you are aware of a well that is finished into the low-temperature geothermal aquifer and is not being used, please call Loren Holmes, IDWR Regional Manager at Twin Falls, a call at 736-3033.

Ernest or Priscilla Fife
Rt. 4 Box 7551
Twin Falls, ID 83301

Dear Mr. and Mrs. Fife:

Re: Permit Nos. 47-08160, 47-08161 and 47-08162

For Permit No. 47-8160, returned is the proof of beneficial use form along with a copy of the permit for which proof was submitted. Note that the permit was issued for irrigation of three acres and the total diversion rate was proposed as 0.09 cfs. Please advise me if there is irrigation, the number of acres, the rate of diversion and the appropriate license exam fee (\$50 if diversion rate is over 0.04 cfs).

On the form you indicate that you filed a claim A47-11903 in the Snake River Adjudication. That particular claim shows water is used for domestic and does not show if an irrigation right has been developed.

For Permit Nos. 47-8161 and 47-8162, the department acknowledges receipt the proof of beneficial use form. Enclosed is a copy of a order for each permit which reinstates the permits with an advance in priority since the proof were received after the proof due date.

The next step is for the department to conduct the field inspection to confirm and determine the extent of beneficial use. I cannot tell just when the representative from our Southern Regional office will conduct the exam, but he will try to contact you or your representative prior to being in the area.

The adjudication claims filed for these two rights were probably evidenced by the permits. Therefore, it is important to complete the proof of beneficial use submittal which you have for Permit Nos. 47-8161 and 47-8162 to keep the claims valid.

If you have questions, please contact me.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

PROOF OF BENEFICIAL USE

ANALYSIS SHEET

Permit No. 47-8162

Date: 10-26-90

General Considerations:

☒ Name same as permit
☒ Signature the same as permit holder
☐ Address change If yes, prepare a data entry
☒ Proof received timely
☒ Reinstated

Source of Water:

☐ Surface water
☒ Groundwater
 1. well log in file
 2. drilling permit
 A. amount of drilling fee paid for proposed uses

Extent of Use and Rate of Diversion:

☒ Rate of diversion appropriate for uses
 Is rate or volume and fee appropriate?
☒ Has permit holder indicated when water was first put to a beneficial use?

Measuring Device:

☒ Is a measuring device or access port required?
☒ Has one been installed?
☒ Waiver or modification of measuring device requested

Remarks:

*Well drilled in 1965
Proof acceptable
Reinstate*

LAPSE NOTICE

RE: PERMIT NO. 47-08162

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated April 30, 1990. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

L. GLEN SAXTON
Chief, Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 47-08162

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. 47-08162

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section

Re: Application for Permit No. 47-08160, 47-08161, 47-08162

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right applications for permit. The applications have been assigned the above referenced identification numbers. Please refer to these numbers in all further correspondence.

This office will be advertising the applications in the Times News on 4/6 & 4/13/89. A period of ten days following the second publication will be allowed for the submittal of protests.

If the applications are protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the applications are not protested, they will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the applications and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Terry Blau
Sr. Water Resource Agent
