Water Right License

WATER RIGHT NO. 47-08123

Priority: September 29, 1988

Maximum Diversion Rate:

0.10 CFS

Maximum Diversion Volume:

6.7 AF

This is to certify, that IDAHO HERITAGE MUSEUM

C/O JERRY LEE YOUNG

2140 E 2200 N

TWIN FALLS ID 83301

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated September 29, 1988; and has submitted Proof of Beneficial Use on February 13, 1997. An examination indicates that the works have a diversion capacity of 0.100 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/01 to 10/31	0.01 CFS	0.8 AF
COMMERCIAL	01/01 to 12/31	0.09 CFS	5.9 AF
	Totals	0.10 CFS	6.7 AF

LOCATION OF POINT(S) OF DIVERSION:

NWSW , Sec. 10, Township 13S, Range 16E
TWIN FALLS County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
13S	16E	10	NWSW	0.2		0.2

Total number of acres irrigated: 0.2

PLACE OF USE:

COMMERCIAL, same as IRRIGATION use

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license shall be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

PROOF OF BENEFICIAL USE

Department of Water Resources

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 47-08123 Telephone No. (208) - 655-4444

2. Name(s) of Permit Holder(s): Jerry Lee Young

3. Mailing Address: 2140 E 2200 N Twin Falls Ida 83301

4. Source of Water: WELL If GROUNDWATER (well), Date Drilled: mo. _____ / yr. _____

a. Well Driller: ELsing Well Drilling Drilling Permit Number: 47 - 89 - 2 - 005

b. OPTIONAL:
Pump Horsepower: 5 HP Pressure (psi): 50 P.S.E. Dynamic pumping level (ft): 119'

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): _____

Irrigation (No. of acres): _____ Other: Commercial: Store/Restaurant/campground

6. Total rate of diversion and/or volume for which proof is submitted: _____ cfs OR 1 1/2 acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required? Yes _____ or No X

Has the measuring device been installed? Yes _____ or No X

Flow Measurement Port: Is a flow measurement port required? Yes _____ or No X

Has the measurement port been installed? Yes _____ or No X

8. Fee Enclosed: \$ 6 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: Jerry Young Telephone Number: 208-655-4444

Address: 2140 E 2200 N Twin Falls Id. 83301

10. The information given on this form is my true statement of the extent to which the above number of acres has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 47-8123, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before April 1, 19 91.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other:

Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

Irrigation use under this permit is authorized only in connection with a domestic use.

Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Witness my hand this 10th day of March, 1989.

RE: WATER RIGHT NO. 47-08123

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

NOT RECORDED
JUN 08 1998

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

RE: Additional beneficial use examination fee

Jerry Young called today to tell me that he will send the additional examination fee and penalty immediately.

MICROFILMED

JUN 08 1998

MEMORANDUM

DATE: May 12, 1998
TO: File No. 47-08123
FROM: Cindy Zimmerman 
SUBJECT: Licensing Recommendation

Proof of Beneficial Use was filed without the needed examination fee. On April 7, 1998, Shelley Keen requested the exam fee be submitted within 30 days. As of today, the department has not received a response from the right holder or the exam fee.

This right diverts groundwater. An exam fee is not required for diversions of groundwater of 0.04 cfs or less. Therefore, I recommend the license on this right be limited to a rate of diversion of 0.04 cfs.

RE: Permit No. 47-08123

Dear Mr. Young,

Your permit is currently being reviewed for licensing. The department's field examiner recommended licensing this water right with a diversion rate of 0.10 cfs. However, because no examination fee was submitted with your Proof of Beneficial Use, your license will be limited to 0.04 cfs, the maximum rate for which no examination fee is required.

If you want your water right license to reflect the 0.10 cfs found by the examiner, you must submit the additional examination fee of \$50.00 required for a diversion of 0.10 cfs, plus a late payment penalty of \$25.00, within 30 days. If we receive the examination fees after 30 days from the date of this letter, the priority date of your right will be advanced in accordance with Section 42-217, Idaho Code.

If you have any questions, please contact me as soon as possible at (208) 327-7946.

Sincerely,

Shelley Walter Keen
Water Rights Supervisor

MICROFILMED

JUN 08 1998

MEMORANDUM

DATE: April 7, 1998
TO: File No. 47-08123
FROM: Cindy Lou Zimmerman *CLZ*
SUBJECT: Review of Beneficial Use Field Report

This permit was approved with condition #041 pertaining to irrigation use only in conjunction with a domestic use. No domestic use was approved under this permit. This condition was added at one time to small irrigation uses within the trustwater area. This condition is not appropriate for the uses permitted and I recommend it be removed for licensing.

No exam fee was paid when proof was submitted. The permit was approved to develop a diversion rate of 0.10 cfs. The exam identified a theoretical capacity of 0.14 cfs. The amount of exam fee paid, \$0, limits the rate of diversion to 0.04 cfs. I recommend the department solicit the exam fee. If the fee is received, the license may be issued for the permitted flow rate, 0.10 cfs. If the fee is not submitted, the license will be limited to 0.04 cfs.

E. NARRATIVE/REMARKS/COMMENTS

FROM: Georgia Satter
DATE: 05 January 199
RE: 47-08123

On 17 December 1997 at 0900 hrs., I met with Jerry Lee Young to perform a field examination on the permit. The permit is for commercial and irrigation from one of the two wells. The license right, 47-08122, calls to the other well for commercial use.

There are two wells that serve the establishment(s). The first well is located near the north-east corner of the museum. This well was called out in the licensing examination for 47-08122. The second well, near the pump house, is approximately 250 feet north of the first well. Both wells are in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 10, T13S, R16E.

The museum has been in business for eleven years. The licensing examination for 47-08122 established commercial use for the museum and 0.2 acre of irrigation. The number of museum visitors each year is about 30,000. Hours: May-Nov 7 days 10:00 a.m.- 6:00 p.m., Dec-Apr weekends only 10:00 a.m.- 6:00 p.m., 1 person out of 10 use the toilet, 2 bathrooms each bathroom w/ sink and toilet.
3000 toilet users(10 gal per user)=30,000/325,850=0.1 afa

The store has been opened since April 1997. Due to the store's infantile stage, I am estimating the patrons for the store.

MUSEUM: See 47-08122

STORE: Opened=April 1997

Hours: 7 days 6:00 a.m. - midnight
Patrons (estimate 100,000 per year)
1 person out of 10 use the toilet
10,000 toilet users(10 gal per user)=100K/325,850=0.3 afa
6 full time employees, 3 shifts, 2 people per shift
6(50 gal/day)365 days=109,500/325,850=0.3 afa
2 bathrooms each bathroom w/ sink and toilet
kitchen area w/ 1 large sink and 1 small sink

CAMPGROUND: Open 5/98

Season: May-November
50 Spaces for trailers/each w/ faucet hook-up:
2 persons/trailer=100
Laundry: 2 washers/1 sink Shower Facilities: 8 showers

12 Overnight Cabins: 2 persons/cabin=24
bathroom facilities only

10 TeePee(s)/Tent(s)=2 persons/TeePee=20
no facilities

High Season: June-August=90 days
144 people(100 gal/day)90 days=1,296,000/325,850=4.0 afa

May, September-November=120 days Used 50% of High Season
72 people(50 gal/day)120 days=432,000/325,850=1.3 afa

I recommend the commercial and irrigation uses. The license 47-08122 covers the museum and the irrigation around the building. The commercial use for 47-08123 will be for the store, the campground, the laundry and shower facilities. The irrigation will be drip irrigation for shade trees in and around the campground. The length and width of a common tree area is
400'x5' (5 areas)=0.2 acre.

I disagree with the field examiner's (examination for 47-08122 completed in 1990) findings regarding the location of the wells. Brockway states the wells are in the NWSW $\frac{1}{4}$ and SWSW $\frac{1}{4}$ of Section 10. I verified that both wells are in the NWSW $\frac{1}{4}$, however, the well near the museum (3 HP) is in the SWNWSW $\frac{1}{4}$ and the well for the store and campground (5 HP) is in the NWNWSW $\frac{1}{4}$.

Have conditions of permit approval been met? ☒ yes ☐ no

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 47-08123

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, which became effective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner. Failure to maintain current records with the department could result in the assessment of a monetary penalty.

If you have questions concerning the field examination, contact the **SOUTHERN** Regional Office in Twin Falls, at (208)736-3033.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 47-08123

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 1, 1997.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

RE: Permit No. 47-08123

Dear Permit Holder:

Enclosed is a copy of your approved Request for Extension of Time submitted in connection with the above referenced permit. The time within which to submit proof of beneficial use is extended to April 1, 1997.

Please note that the department has granted this extension based upon governmental agency delay. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional extension requests.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

RE: Permit No. 47-08123

Dear Permit Holder:

The Department is receipt of the Request for Extension of Time you submitted in connection with the above referenced permit. However, before the Department can proceed with the analysis, further information is necessary.

You indicate that you only recently received the necessary building permits to develop the area. If there was any litigation involved in obtaining the permits, please provide the Department with some supporting evidence of such litigation. If no litigation was involved, please provide us with documentation of when you applied for the building permits, and when the permits were approved. Please note that in order to grant another extension in connection with this permit, the delay must have been caused by litigation or a delay by a government agency. The Department is not authorized to grant an additional extension based on due diligence.

Please return the requested information on or before the proof due date of April 1, 1994. Once the Department has received this requested information, we will be able to proceed with the analysis of your request for extension of time.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 47-08123

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 1, 1994.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

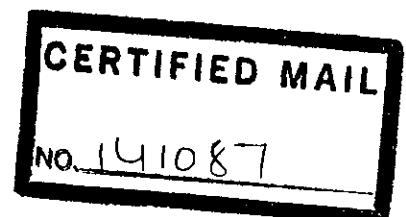

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

Dear Mr. Young:

Re: Permit No. 47-8123

Enclosed is a copy of the approved request for extension of time.
The time within which to submit proof of beneficial use is extended to
April 1, 1991

The department has granted this extension based on due diligence.
It is important that you work diligently toward the completion of this
project during the construction period allowed. The department may not
be able to grant additional requests.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

ACTION OF IDWR

☒ Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

RE: PERMIT NO. 47-08123

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Also enclosed is a copy of the approved drilling permit submitted in connection with this water right.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of

MICROFILMED
MAR 31 1989

Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section

Re: Applications for Permit Nos. 47-08122, 47-08123

Dear Mr. Young:

The Department of Water Resources acknowledges receipt of your water right applications for permit. The applications have been assigned the above referenced identification numbers. Please refer to these numbers in all further correspondence.

This office will be advertising the applications in the Times News on 1/5 & 1/12/88. A period of ten days following the second publication will be allowed for the submittal of protests.

If the applications are protested you will be sent a copy of the protest. The protest must be resolved before the applications are approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the applications are not protested, they will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the applications and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Loren O. Holmes, P.E.
Southern Region Manager

Re: Applications for Permit Nos. 47-08122, 47-08123

Gentlemen:

Enclosed you will find 2 legal notices which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notices on the proposed dates, please contact us immediately.

In order to receive payment, an affidavit of publication must be submitted to the Department along with the publication bill.

Very truly yours,

Mary Baldwin
Secretary/Office Coordinator
