CONDITIONS OF APPROVAL

6. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/31 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date of this approval.
7. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 4.0 afa per acre for irrigation of the lands above.
8. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
9. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

RE: Transfer No.: 69781 - Water Right 47-8106 - Transfer Approval Notice

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7940.

Sincerely,

Jeff Peppersack, Manager
Water Rights Permits Section

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED
JUN 11 2002

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

TO: Transfer File No. T69781

In the name of: Effie Roberts Family Farm Trust

Water Right(s): 47-8106

SUBJECT: Review and Recommendation

This transfer proposes to create a PPU for a right currently used to irrigate 3 acres around a home. The PPU will encompass an 80 acre farmstead. The purpose of the change to a PPU will allow the development of a tree windbreak on a portion of the farm away from the house. A new well is proposed to be drilled near the windbreak. Canal shares will be utilized for irrigation of a portion of the acres near the home.

The transfer was processed without protest.

Recommendation

I recommend that this transfer be approved subject to the following conditions:

WATER RIGHT NO. 47 8106

046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

041 Irrigation use under this right is authorized only in connection with a domestic use.

W27 This right is limited to the irrigation of 3 acres within the place of use described above in a single irrigation season.

T17 Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.

WB4 The total instantaneous diversion of water from all points of diversion under Rights 47-8106 shall not exceed 0.07 cfs, nor total combined annual volume of 12 af.

R51 This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 4.0 afa per acre for irrigation of the lands above.

T07 The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.

NA T09 Approval of this transfer does not preclude the opportunity for review of the validity of this water right in the ongoing Snake River Basin Adjudication.

Re: Transfer Review

Date: 04-05-02

Transfer is proposing to create an 80-acre PPU for three acres of irrigation. Essentially there is right 47-8106 for three acres of irrigation in the NENW of S24, T10S, R16E. Applicant is planting about 2.2 acres in trees for a windrow in the SENW of S24. Applicant wants to continue to irrigate 0.8 acres in the NENW, drill a new well in the SENW and connect it with the existing well in the NENW. The reasoning behind the 80-acre PPU is that once the trees mature, the irrigation could be moved back to its original 3 acres without a subsequent transfer.

TFCC shares are used on the historical PU and will also be used for the trees when available. The trees need the G.W. mostly in the spring and fall when canal water is unavailable.

There are three D&S rights in the NENW: 47-10136, 47-10137, and 47-10374. The remarks on these rights seem to differ from the current practices. John Roberts has submitted a statement to clarify the existing wells and the uses they supply.

Comment on 47-10374 states: "two older wells supply water to main house for sprinkler system on lawn. Main house uses separate well also for domestic and stockwater purposes". Mr. Roberts said the 1903 well (47-10374) was believed to have been a cistern which supplied the "main house" the cistern and home no longer exist.

Comment on 47-10136 states: "both farm wells supply water to main house for lawn sprinkler system. Main house uses separate well,

MICROFILMED

JUN 11 2002

A47-10137 also." Mr. Roberts said that the 1913 (47-10136) well still exists and supplies water to the small farmhouse and sprinklers. This is the well included in the transfer.

Right 47-10137 states: "house has swimming pool which is filled approx. once every three years. House also uses two old farm wells for lawn sprinkler system." Mr. Roberts said Dr. R.G. Roberts has a separate domestic well for his separate lot, this is right 47-10137.

So from all of that, and with talking with Mr. Roberts, it is my understanding that currently the use and one well (cistern) under 47-10374 no longer exists. There is one well that supplies water for 47-10136 (has one home) and 47-8106 (the right involved in this transfer). Apparently 47-10137 was once connected with the other wells but is currently on it's own system with one well and one home.

It should also be noted that on 47-8106 there is a comment, which states that use under this right is authorized only in connection with domestic use. I would think that since the intent is to connect the existing well (which supplies domestic use under 47-10136) along with the new well to be drilled in the SENW, that this criteria is met. Also 0.8 acres of irrigation is still intended to be used at the home under right 47-10136.

1903 well is believed to have been a cistern - no electricity was on the farm at this time. The "main house" at the time has been removed.

1913 Still exists and supplies water to the small farm house & sprinklers. *

Dr. R G Roberts has a separate domestic well for his separate lot.

* This is the well included in transfer.

Permit No. 47-08106

Dear Applicant,

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.

Very truly yours,

Lloyd R. Payne
Clerk
