LOW-TEMPERATURE GEOTHERMAL MORATORIUM AREA

FROM: NORM YOUNG

RE: EXTENSION OF MORATORIUM

Enclosed is a copy of an order extending the order designating the Twin Falls Low-Temperature Geothermal Moratorium Area. I appreciated the attendance of many of the users at the public information meeting on this matter held in Twin Falls last week. I understood those in attendance favored an extension of the moratorium, and some of the users were encouraging that the size of the area be increased and that additional actions be taken to protect artesian pressures. I indicated at the meeting that the moratorium would be extended without modification to keep its continuity and that IDWR will schedule as time and resources permit a review of the following matters:

- Expansion of the area.
- The need for repair or reconstruction of wells in and adjacent to the area.
- Evaluate the adequacy of the agreement to manage pumpage to prevent withdrawal in excess of the average rate of recharge or to maintain artesian pressures in the public interest.
- Review need for and adequacy of monitoring programs.

With respect to monitoring, the data recorded by the USGS from the well at the Nazarene Church is an important part of the information now being collected. The Church will soon be finished and will be using water from the well. Data from an unused well is more reliable for evaluating aquifer conditions. USGS and IDWR are evaluating alternatives for replacing this source of data. If you are aware of a well that is finished into the low-temperature geothermal aquifer and is not being used, please call Loren Holmes, IDWR Regional Manager at Twin Falls, a call at 736-3033.

RE: Permit No. 47-8091

Dear Mr. Story:

The department has received your proof of beneficial use form submitted to this office on August 16, 1988, requesting water use at a rate of 1.020 cfs.

Please note the enclosed copy of your permit, the maximum amount of water use approved is 0.40 cfs. In compliance with the statutes, a water right license could not be issued for a rate greater than the permit approval.

Your proof of beneficial use form has been amended by showing 0.40 cfs as the maximum rate of diversion for the permit. The enclosed instruction sheet lists the examination fee for 0.40 cfs as \$100. Therefore, since we received a fee in the amount of \$125, \$25 is refunded, i.e. \$125 minus \$100.

The department will continue processing the proof by notifying the regional office that a field inspection is needed.

If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

RITA I. FLECK
Secretary/Records Manager
