RE: License No. 47-8077 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

RE: Water Right No. 47-08077

Gentlemen:

The Department is reviewing the above referenced permit prior to issuing a water right license. We find that this right has been partially decreed in the Snake River Basin Adjudication (SRBA), however, pursuant to Section 42-1421, Idaho Code, we must complete the statutory licensing procedure in accordance with Section 42-219, Idaho Code. We have included copies of the above referenced sections of Idaho Code for your convenience. Once the license has been issued the Department will reflect the completion of the licensing process in its water rights database. By issuing a license on this permit, the Department confirms that a water right has been established in compliance with the terms of the permit. The examiner who verified your water use reported that the points of diversion and places of use are in a location other than what was described on your permit. Therefore, before a license can be issued, your permit must be amended to depict this water right as it was actually developed.

The enclosed Application for Amendment form depicts the place of use and other information, as it will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented please sign the form and return it with the \$50.00 filing fee within 60 days.

Also, please note that some of the proposed conditions of approval and remarks may be modified upon further administrative review.

If you do not concur with the field examiner's findings, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208)327-7944.

KAY WALKER

RE: Water Right Permit Nos. 45-07517 and 47-08077

Dear Mr. Davis:

Our field examiner, Amanda Folsom, met with you, in your office, on June 30, 2000, to complete beneficial use field examinations of the above referenced permits. Prior to preparing licenses on these permits we find that we need additional information.

These water rights have been partially decreed in the Snake River Basin Adjudication (SRBA) at locations different than the locations that were permitted. Even though these rights have been partially decreed we are still required to complete the licensing procedure pursuant to Sections 42-1421 and 42-219, Idaho Code.

We want to ensure that the licenses we will be issuing are correct. We noticed on other exams completed by Amanda that you had compiled GPS locations of the systems after the partial decrees had been issued. We are wondering if you have GPS information in your records to substantiate the locations recommended for licensing under Permit Nos. 45-07517 (Silver Quarry Spring) and 47-08077 (Shoshone Meadows Riparian Reservoirs). If you have completed GPS work on these systems, could you please send us a copy for our files? The permits will have to be amended to identify the locations actually developed and we would like to be certain of the locations identified.

I have been asked to expedite the licensing of these permits and need the information as soon as possible. If I don't hear from you by August 23rd I will assume that you do not have GPS locations for these systems and request an on-site field exam be conducted. Please feel free to contact me about this if you have any questions. My telephone number is (208)327-7944.

Sincerely,

Kay Walker

E. NARRATIVE/REMARKS/COMMENTS

FILE: 47-08077

FROM: AMANDA FOLSOM

DATE: June 9, 2000

I performed this exam along with four others at the BLM office in Burley on June 9, 2000. Mr. Steve Davis along with his assistant met with me and gathered the information from files and documents there at the office.

The BLM constructed six ponds to be used for stockwater and wildlife consumption. The ponds are primarily located in sections 33 and 34 of Twn 15S, Rng 17E. One other pond is located in Sec 02, Twn 16S, Rng 17E. The ponds were constructed with explosives and excavation of the ground. All of the ponds are similar in form and construction, but not in size.

I was able to get copies of the photographs of the ponds in the files, and a copy of the quad maps with the exact location of each pond. Steve was a bit hesitant to give me a copy of the project reports, so I simply wrote down the points of diversion and confirmed the place of use.

Steve also confirmed that the same number of cattle and deer on the permit still use the ponds. The permit acknowledges 325 head of cattle and 10 deer. My recommendation is based on the figures that Steve gave me from the reports in the files and is as follows:

Stockwater Storage	2.00afa
Stockwater from Storage	2.00afa
Wildlife Storage	1.00afa
Wildlife from Storage	1.00afa
Total	2.03afa

During the review of the above field examinations, I noted that "as-built" construction records were not noted as being used for verification of development as required in Supplement to Permit Processing Memo No. 8 dated 11/7/95 (see attached).

I am returning these exams so that the stockwater use developed under each permit may be verified according to Permit Processing Memo No. 8.

PROOF DUE NOTICE

RE: PERMIT NO. 47-08077

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

Dear Gentlemen:

The Department of Water Resources acknowledges receipt of your water right applications for permit.

This office is currently in the process of advertising application #47-8077 in the Times News and applications #43-7290, 43-7289, and 45-7620 in the South Idaho Press on 2/4/88 and 2/11/88. The advertisements will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.
