RE: PERMIT NO. 47-08025

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of

The Department of Water Resources has completed advertising of the above referenced application for permit.

Since no protests were received against the application, regional processing will continue. We anticipate the file will be forwarded to our State Office in the near future.

State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Due to a clerical oversight, the correspondence informing you of the publication dates was sent to an old address.

If you have any questions or if this office can be of further assistance, please feel free to contact us.

Very truly yours,

Mary Baldwin
Secretary/Office Coordinator

Re: Application for Permit No. 47-8025

Dear Mr. & Mrs. Lewis:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Times News on 5/4 & 5/11/89. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Somehow the application was misfiled and should have been processed some time ago. We apologize for any inconvenience this delay may have caused you.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Terry Blau
Sr. Water Resource Agent
