Dear Mr. Higginson:

We have received your Order voiding Applications 47-7946, 7947, 7948, and 7952. On July 31, 1986, we notified you that the water had been put to beneficial use. We also offered to provide whatever evidence was necessary to confirm the use including a field inspection. We are unsure why a question remains about beneficial use.

We request a hearing before the Director to present evidence proving the water developments have been completed and the water applied to beneficial use. We will present evidence that the water developments are in and are being used.

We would be more than happy to meet with your representative prior to the hearing to resolve questions concerning these water developments.

We are available for questions.

SUBJECT Reinstatement

After further review of the above referenced files pursuant to the USFS letter of 3/22, it appears these permits were voided in error. Completed field exams are located in each of the files; however, the confusion arose when reading memo of 10/21/85 from Jim Stanton - the message "no developed use, will seek relinquishment" apparently applied only to Permit Nos. 47-7939 & 47-7953. It was misinterpreted to include the permits listed in the line above also. Therefore, the permits should be reinstated with no advance in priority (due to Department error) and the files should be reviewed for license issuance.
