RE: WATER RIGHT LICENSE 47-07926

Mr. Hamilton,

Enclosed is the water right license issued to your mother. It was returned to the Department through the mail as "forwarding order expired". The field examiner stated that you are a co-owner of the property off of 3225 East Rd. Possibly you could forward this to your mother (Darlene Hamilton Hartwell) or if the property has been sold, to the new owners.

When a license is issued it becomes appurtenant to the land, so whoever owns the land also owns the water right.

Your help is appreciated. If you have any questions, I can be contacted at (208) 327-7941.

Sincerely,

TO: File No. 47-07926
FROM: Cindy Zimmerman
SUBJECT: Review of Beneficial Use Field Report

=====

The following adjustments¹ were made on the field report to reflect developed permitted uses as recorded in the photographs:

1. Rate of diversion.

- a. capacity, theoretical HP = $\frac{8.8 \times 0.7 \times 1.5}{28 + (2.31 \times 40)}$
= $\frac{9.24}{120.4}$
= $0.077 \approx 0.08$ cfs.
- b. **Irrigation** = acres x cfs/acre
= 0.5×0.03
= **0.02** cfs.
- c. Domestic, 3 homes, in-house use = **0.08** cfs.
- d. Maximum rate of diversion = a + b
= $0.02 + 0.08$
= 0.08 cfs, limited by capacity.

2. Annual Volume.

- a. **Irrigation** = acres x AF/acres
= 0.5×4.0
= **2.0** AF.
- b. Domestic = hms x AF/hm
= 3×0.6
= **1.8** AF.
- c. Maximum annual volume = a + b
= $2.0 + 1.8$
= **3.8** AF.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

According to Mr. Hamilton, one of the resident co-owners, no irrigation is planned or has been developed, so no recommendation has been made for the irrigation purpose listed on the permit. No cattle are being watered, and no livestock are expected to be kept on the property at the present time, so no recommendation has been made for the stock water purpose as listed.

No overlaps were found.

MEMORANDUM

DATE: JULY 31, 1992

TO: WATER RIGHT HOLDERS AND APPLICANTS IN TWIN FALLS
LOW-TEMPERATURE GEOTHERMAL MORATORIUM AREA

FROM: NORM YOUNG

RE: EXTENSION OF MORATORIUM

Enclosed is a copy of an order extending the order designating the Twin Falls Low-Temperature Geothermal Moratorium Area. I appreciated the attendance of many of the users at the public information meeting on this matter held in Twin Falls last week. I understood those in attendance favored an extension of the moratorium, and some of the users were encouraging that the size of the area be increased and that additional actions be taken to protect artesian pressures. I indicated at the meeting that the moratorium would be extended without modification to keep its continuity and that IDWR will schedule as time and resources permit a review of the following matters:

- Expansion of the area.
- The need for repair or reconstruction of wells in and adjacent to the area.
- Evaluate the adequacy of the agreement to manage pumpage to prevent withdrawal in excess of the average rate of recharge or to maintain artesian pressures in the public interest.
- Review need for and adequacy of monitoring programs.

With respect to monitoring, the data recorded by the USGS from the well at the Nazarene Church is an important part of the information now being collected. The Church will soon be finished and will be using water from the well. Data from an unused well is more reliable for evaluating aquifer conditions. USGS and IDWR are evaluating alternatives for replacing this source of data. If you are aware of a well that is finished into the low-temperature geothermal aquifer and is not being used, please call Loren Holmes, IDWR Regional Manager at Twin Falls, a call at 736-3033.

As of August 31, 1988. we had a 1 H.P. pump installed in the well that produces 20 gallons per. minute at 50 lbs of pressure, I was told via a phone conversation with Dave Austin Well Drilling that equals approximately 1" water, the 1 H.P. pump was installed by him - his phone number is 208-733-2442. John Hamilton has the receipt.

At the present time John Hamilton is the only one of us living at the permit location. He works at Longview Fibre Co. 7:00-3:30 # 208-733-2100 Monday through Friday. His home phone is 208-734-7856, But at this time, his phone isn't ringing, As best to try and reach him through his work number

PROOF DUE NOTICE
RE: PERMIT NO. 47-07926

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

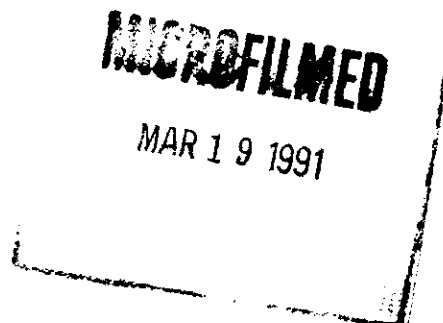

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
