MEMORANDUM

TO: FILE

FROM: TIM LUKE

RE: APP. NO. 47-7904

DATE: 12-10-91

The above application is a trust water filing which was held in the region and had not been reviewed in sequence with other filings. The filing was not reviewed earlier due to confusion as to whether the point of diversion was in a groundwaer management area.

The applicant has returned a trust water information questionnaire stating that development as represented by the application was completed prior to 1984. Since the application was also made prior to 1984, the filing is exempt from review and trust water processing requirements of Section 42-203C.

I recommend continued processing of the application. File to be returned to region for routine (i.e.; public water or non-trust) advertising.

RE: APPLICATION FOR PERMIT NO. 47-7904

Dear APPLICANT:

Due to the Swan Falls litigation, Department approval of the enclosed application may have been delayed. The Department is presently reviewing your application and may authorize the proposed development.

The purpose of this letter is to determine: (1) if you are still interested in developing the project, and (2) the extent of development, if any, that has already occurred under the application. Enclosed are two forms requesting information which will help the Department expedite the processing of the application.

1. If you have abandoned or have no interest in continuing with your plans for development of the project, please complete the enclosed withdrawal form and return it to the Department. If you request a withdrawal of the application and the application was not previously advertised, the department will refund your original filing fee.

2. If you wish to continue with your proposed development plans, or have completed all or a portion of the proposed development before October 1, 1984, then you must complete and return the enclosed questionnaire. You may use the questionnaire and enclosed application to make any comments &/or amendments concerning the application. Your completion of the questionnaire will expedite processing and help the department determine if the water diverted under the application is public water or trust water. Approved trust water applications may be subject to additional conditions.

Failure to return either of the above forms within thirty (30) days of the date of this letter is cause for the Department to void the application.

Please be further advised that if any undeveloped portion of your proposed project is greater than 200 acres, or if the application proposes diversion of more than 5.0 cfs, the department will issue a notice requesting additional information as required by Water Appropriation Rule 4,5. (copy enclosed). In particular, rules 4,5,3. through 4,5,3,5. apply to your project if it is more than 200 acres. If necessary, the rule 4,5. information notice will be sent to you after you return the questionnaire.
