WATER RIGHT LICENSE

WATER RIGHT NO. 47-07903

Priority: June 15, 1983

Maximum Diversion Rate:

0.06 CFS

Maximum Diversion Volume:¹

8.0 AF

This is to certify, that J. B. WILLIS
RT. 3 BOX 6620

TWIN FALLS, ID 83301 has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated June 15, 1983; and has submitted Proof of Beneficial Use on July 13, 1989. An examination indicates that the works have a diversion capacity of .140 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.06 CFS	8.0 AF

LOCATION OF POINT(S) OF DIVERSION:

NWSE , Sec. 2, Township 10S, Range 17E
TWIN FALLS County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
10S	17E	2	NWSE	2		2

Total number of acres irrigated: 2

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of applicant J. B. Willis Phone 733-2382

Post office address Route #3 Box 6620, Twin Falls, ID 83301

2. Source of water supply Groundwater which is a tributary of _____

3. Location of point of diversion is NW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 2 Township 10S

Range 17E B.M. Twin Falls County, additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount 0.06 cfs for Irrigation purposes from Mar 15 to Nov 15 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. 0.06 cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. Well & pump

b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is 8 inches; proposed depth of well is 80 feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial

use is 5 years (minimum 1 year — maximum 5 years).

8. Description of proposed uses:

a. If water is not for irrigation:

(1) Give the place of use of water: _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$ of Section _____ Township _____

Range _____ B.M.

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be supplied with domestic water _____

(5) If water is to be used for other purposes describe: _____

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

TWP	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
10S	17E	2														2			2

Total number of acres to be irrigated 2

c. Describe any other water rights used for the same purposes as described above. _____

none

9. a. Who owns the property at the point of diversion Applicant

b. Who owns the land to be irrigated or place of use "

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing _____

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 47-7903, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before April 1, 19 91.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
Irrigation use under this permit is authorized only in connection with a domestic use.

Witness my hand this 27th day of March, 1989.

J. Glen Saxton

**NOTICE OF
APPLICATION FOR
WATER PERMIT**

Affidavit of Publication

STATE OF IDAHO.

COUNTY OF TWIN FALLS

ss.

No 18238

I, Sunda Capps McGuire being first duly sworn upon oath, depose and say that I am Print Clerk of the TIMES-NEWS, published daily, at Twin Falls, Idaho, and do solemnly swear that a copy of the notice of advertisement, as per clipping attached, was published in the regular and entire issue of said newspaper, and not in any supplement thereof, for Two consecutive weeks, commencing with the issue dated

January 28, 1988, and ending with the issue dated January 28, 1988.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except Monday, both of which newspapers prior to consolidation had been published under said names in said city and county continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at which time said newspaper began daily publication under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho, to be published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each issue thereof, Thursday is announced as the day on which said legal notices will be published.

Sunda Capps McGuire
Subscribed and sworn to before me on this 29 day of

January, 1988.

D. FLOW MEASUREMENTS

☐ Additional Data Sheets Attached

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date

2. Measurements:

Outside hose fills .6 cu.ft bucket in 23.0 sec. with all other outlets off.

E. FLOW CALCULATIONS

☐ Additional Computation Sheets Attached

1. Measured Method:

$$\frac{.6 \text{ ft}^3}{23 \text{ sec}} = .03 \text{ cfs}$$

2. Alternate Method for Checking Purposes:

$$\text{Theoretical } Q = \frac{2(8.8)(.7)}{18 + 2.3(30)} = .14 \text{ cfs}$$

F. PUMP EFFICIENCY DATA (Optional)

Discharge Pressure: _____ psi x 2.31 = _____ ft (1); Dynamic pumping level: _____ ft (2)

Total Head: (1) + (2) = _____ (3); Flow rate: _____ cfs (4)

Water HP: (3) x (4) ÷ 8.8 = _____ (5)

Meter Input KW: 3.6 x _____ KH x _____ CTR or _____ MULT x _____ PTR x _____ N/ _____ T = _____ (6)

Meter Input HP: (6) x 1.34 = _____ (7)

Panel Input KW: _____ Ave PF x _____ Ave Volts x _____ Ave Amps x .001732 = _____ (6)

Panel Input HP: (6) x 1.34 = _____ (7) Efficiency: (5)/(7) x 100 = _____ %

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 2.0(4) = 8.0$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .06(246)(1.9835) = 29.3$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 8.0 \text{ ac-inches}$$

2. Volume Calculations for Other Uses:

[Handwritten signature]

MICROFILMED

OCT 19 1980

H. REMARKS AND OVERLAP REVIEW ANALYSIS

2.27 acres total; minus house, shed, drives = 2.0 acres
bucket measurement is inaccurate—one spigot through small
nose; theoretical is more accurate
water level not avail., but 3 wells less than 1/4 mi. away
have levels of 18 ft, which was used in the theoretical
calculation. 30 psi assumed.

I. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
Irrigation	Mar. 15	Nov. 15	.06	8.0
Totals:			.06	8.0

2. Recommended Amendments

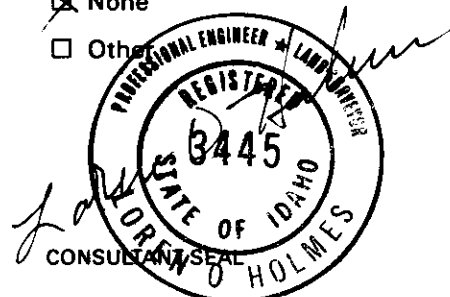

- ☐ Change P.D. as reflected above ☐ Add P.D. as reflected above
☐ Change P.U. as reflected above ☐ Add P.U. as reflected above

☒ None

☐ Other

Permit No. 47-07903

Dear Applicants,

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.

Very truly yours,

Lloyd R. Payne
Clerk

Re: Application for permit number 47-7903

Dear Mr. Saxton:

This letter is to follow up our discussions regarding documentation of well drilling dates and use of that well.

When I made the application at the Department of Water Resources in June, 1983, I confirmed which of those dots was mine. This house was built in 1971 by builder Bob Brehm for John and Nona Martizia. Bob Brehm hired Pete Austin to drill the well, which was logged 9-3-71. Log indicates water at 16', well 80' deep and pump set at 60'. This is recorded in T10S R17E Sec 2 SE. As of December, 1988, there is still no home to the east of the dot that is indicated as ours. It has to be our house.

I have included items that confirm the sale of this house to us, James B. and Doris E. Willis in May, 1973. Also included is the invoice for the sprinkler system we installed in June, 1978. We believe these items will provide you with the confirmation necessary to process our application.

If you need additional documentation, please advise. Thank you for your assistance.

Very truly yours,

James B. Willis

MEMORANDUM

TO: TIM

FROM: JIM JOHNSON

RE: PROCESSING APPLICATION

DATE: 8-MAR-1989

Tim, is there any reason why this cannot be processed thru normal channels?

If it can be, I suggest we let Kay start the review and use the permit cover letter provide the acknowledgement Glen suggested. Let me know.

EAG,

As per Jims Directive, please review this App. for approval to permit. This App. does not need to be held for Swan Falls Processing.

Tim

RE: PERMIT NO. 47-07903

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of

MICROFILMED

JUL 17 1989

Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor

Mr. Gary Spackman, Supervisor
Water Rights Permits Section
Department of Water Resources
Statehouse
Boise, ID 83720

Dear Mr. Spackman

Re: Permit #47-07903

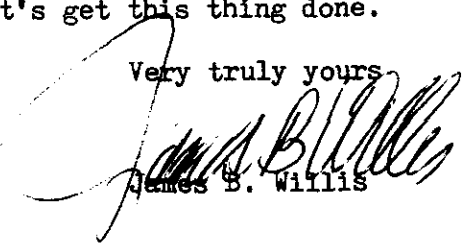

We appreciate that our application for a permit has been approved. The well that is described on the section map was drilled in September of 1971 and has been in constant use since that time. We do not require a second well so the permit you have approved must be considered as applicable to the existing well. We do not know how to prove that the well exists other than to note that city water is not available here and no household can exist in this area without water from a well.

This letter should be considered "proof" by definition that the well is a fact. The well is recorded as dug by Pete Austin 9-3-71 and noted on the application for permit that you sent us. It is further delineated on the map of wells that you sent us. The dot inside the hand-drawn box is ours.

We wrote L. Glenn Saxton on December 1 enclosing complete documentation of the property and well history. It should be adequate to meet your requirements. It should be noted that the number 47-07903 is the number that was assigned to us in 1983 when we attempted to follow the recommendation of the Dept. of Water Resources. A document included in your letter to us refers to that situation and is dated 6-15-83.

It is our hope that someone will recognize that we are going around in circles here. Let's get this thing done.

Very truly yours,

James B. Willis

RE: Permit to appropriate water 47-07903

Dear Mr. Willis:

Thank you for your letter dated May 12, 1989.

I recognize that the process for perfecting a water right may be confusing and frustrating. Nevertheless, an approved water right is required for irrigation of two acres as proposed by your application, unless the use began prior to 1963. Your letter states that the water was not diverted until 1971.

The information you submitted earlier regarding development of the well is in the file. The statutes require, however, that you submit a completed proof of beneficial use with the appropriate examination fee. Submittal of the proof form and the fee will prompt a field examination for final licensing. I have enclosed another proof of beneficial use form, instruction sheet, and fee schedule.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section

RE: Application for Permit No. 47-7903

J. B. Willis
Rt. 3, Box 6620
Twin Falls, ID 83301

Dear Applicant(s):

This Department has recently completed the preliminary processing of the above-referenced Application for Permit to appropriate the public waters of the state of Idaho.

Although there were no protests received by the Department against the approval of said application, the Department is presently delaying further action (approval of the application) because the groundwater source identified on the application is located in the Twin Falls Groundwater Management Area.

The Department will hold your application without approval pending evidence that there is water available for your use.

It is possible for you to drill a well and to use the water for single family domestic purposes without a water right permit, although you would have to obtain a separate "drilling permit". If water is used from a well in compliance with the definition of domestic use, a water right permit is not required. Water used for heating on one home is included in the definition of domestic use.

If you have questions, please contact either this office or our office in Twin Falls.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau

Re: 47-7903

Dear Mr. Willis:

The Department of Water Resources has authorization to process Applications for Permit for irrigation of 3 acres or less which were previously held due to pending litigation regarding Swan Falls.

This office will be advertising the above referenced application in the Times News on 1/21 & 1/28. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.
