MEMORANDUM

TO: FILE/PERMIT 47-7837

FROM: TIM LUKE

RE: SWAN FALLS PROCESSING

DATE: 8-1-89

This permit has come up for review under Swan Falls processing. Inspection of the file shows that proof of beneficial use was filed in October of 1988. The proof statement claims that water under this permit was first diverted and beneficially used in June of 1984. The original application for permit states that a portion of the 58 permitted acres are irrigated with Twin Falls canal shares.

A review of 1984 NHAP aerial photogarpahy at the state SCS office in Boise shows that lands described under the permit were irrigated in that year. Some portions of the same described lands may have been dry farmed or fallow. A review of the departments 1986 remote sensing report shows that nearly all of the quarter-quarter sections were classified as irrigated in that year. A parcel in the SENW of section 14 which appears dry farmed in 1984 was classified as irrigated in 1986. A parcel of 5 acres or less in the NWSW of section 14 appears dry farmed in the 1984 photo. The remote sensing report classifies 34 acres as irrigated in 1986. It is ot certain whether the five acres not irrigated in 1984 were the same 5 acres not irrigated in 1986.

Since nearly all of the land under the permit appears irrigated in 1984, and since the permit is largely a supplemental filing where proof was filed timely with reference to development in 1987, I recommend that the department exempt this filing from the review requirements of Section 42-203D and remove it from the Swan Falls process list. The department should proceed with a field examination and licensing.

PROOF DUE NOTICE

RE: PERMIT NO. 47-07837

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

PROOF DUE NOTICE

RE: Permit No. 47-7837

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1987. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

Dear Mr. Bishop:

Re: Permit No. 47-7837

Enclosed is the Proof of Beneficial Use form submitted to this office on September 16, 1985.

I'm assuming that the proof form was submitted in response to our letter of September 1 advising that the department will review permits on which proof has not been submitted under the Water Appropriation Rules and Regulations, when they are adopted. Since your project proposes the irrigation of 58 acres and you are presently irrigating 18 acres, I'm assuming that you intend to put the remaining 40 acres into irrigation some time in the near future. If that is the case and you wish to complete the development under this permit, then you should not submit the proof form. (Proof is not due until October 1, 1987.)

If I accept proof now, you will need to submit a new application for permit, have it advertised and wait for approval before any development can be done on the 40 acres. (This application would also have to be reviewed under the Water Appropriation Rules and Regulations). Proof of beneficial use is a statement to the department that you have completed a project and you wish the department to inspect the extent of use to issue a license.

If I am wrong in my assumption, return the proof form for processing. Otherwise, the department will contact prior to October 1, 1987 and advise you that proof is due.

If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

DEAR PERMIT HOLDER:

ACCORDING TO OUR RECORDS, YOU ARE THE HOLDER OF A WATER PERMIT ON WHICH PROOF OF BENEFICIAL USE OF WATER WAS NOT SUBMITTED BEFORE JULY 1, 1985, WHICH INDICATES YOUR PROJECT IS NOT COMPLETE. THEREFORE, YOU NEED TO BE AWARE OF CHANGES IN IDAHO LAW, EFFECTIVE JULY 1, 1985, WHICH IMPACT ALL WATER PERMITS ISSUED BY THIS DEPARTMENT.

SPECIFICALLY, PURSUANT TO SECTION 42-203D, IDAHO CODE, THE DEPARTMENT MUST REVIEW ALL PERMITS FOR WHICH DEVELOPMENT OF WATER USE WAS NO COMPLETED ON OR BEFORE JULY 1, 1985, TO DETERMINE IF THEY MEET THE NEW REQUIREMENTS OF CHAPTER 2, TITLE 42, IDAHO CODE. RULES AND REGULATIONS GOVERNING THE RE-EVALUATION OF PERMITS ARE NOT YET FINALIZED. HOWEVER, IF YOU COMPLETED THE DEVELOPMENT UNDER YOUR PERMIT BEFORE JULY 1, 1985, YOU SHOULD SUBMIT A PROOF OF BENEFICIAL USE STATEMENT, STATING THAT THE PROJECT WAS COMPLETED BEFORE JULY 1, 1985 SO THAT YOUR PERMIT WILL NOT BE SUBJECT TO THE REVIEW REQUIREMENTS OF SECTION 42-203D, WHICH READS AS FOLLOWS:

42-203D. REVIEW OF PERMITS - OPPORTUNITY FOR HEARING. - (1)THE DEPARTMENT SHALL REVIEW ALL PERMITS ISSUED PRIOR TO THE EFFECTIVE DATE [JULY 1, 1985] OF THIS SECTION, EXCEPT TO THE EXTENT A PERMIT HAS BEEN PUT TO BENEFICIAL USE PRIOR TO JULY 1, 1985, TO DETERMINE WHETHER THEY COMPLY WITH THE PROVISIONS OF CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PROPOSED USE DOES NOT SATISFY THE CRITERIA OF CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL EITHER CANCEL THE PERMIT OR IMPOSE THE CONDITIONS REQUIRED TO BRING THE PERMIT INTO COMPLIANCE WITH CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PERMIT SATISFIES THE CRITERIA ESTABLISHED IN CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL ENTER AN ORDER CONTINUING THE PERMIT.

(2)THE DEPARTMENT SHALL PROVIDE AN OPPORTUNITY FOR HEARING IN ACCORDANCE WITH SECTION 42-1701A, IDAHO CODE, AND SECTIONS 67-5209 THROUGH 67-5215, IDAHO CODE, FOR EACH HOLDER OF A PERMIT THAT IS PROPOSED EITHER TO BE CANCELLED OR MADE SUBJECT TO NEW CONDITIONS.

YOU MAY OBTAIN PROOF OF BENEFICIAL USE FORMS FROM THE DEPARTMENT. IF YOU HAVE ANY QUESTIONS, PLEASE LET US KNOW.

RE: App. for Permit No. 47-7837
Name: Jack V. Bishop

Gentlemen:

The Twin Falls Canal Company after researching filed water right permit has concluded that water sought to be appropriated is waste water. However, we are advised that others may hold prior rights to this waste water and of course the holder has a right to cease wasting water.

The Canal Company will continue to make deliveries to their shareholders to the extent possible, but make no effort to put additional water in the ditches so as to insure that waste water would be available for permits such as this one.

The Twin Falls Canal Company has in the past used aquatic weed chemicals in the water system, and will continue to do so. It is understood that the water permittee shall not claim the Twin Falls Canal Company liable for any water quality standards during the use of these chemicals. It is further understood that the Twin Falls Canal Company does not, and will not, guarantee water quality to any waste waters being filed upon.

Respectfully Submitted,

C.W. Travis
General Manager
