

11. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

MICROFILMED

J. M. Collier
(Applicant)

D-4 Times-News, Twin Falls.

LEGAL NOTICE

NOTICE OF APPLICATION FOR WATER RIGHT

Notice is hereby given that the following application(s) have been submitted for permit to appropriate the public waters of the State of Idaho:

47-7813

MC COLLUM, J.D.
BOX 112, TWIN FALLS,
ID 83301

Source:

GROUNDWATER

Date Filed: 04/22/1982

Amount: 15:00 CFS

Diversion Point: NWNW

Sec 33 T 09S R 17E, TWIN
FALLS Co.

Use: FISH PROP. (5.00
CFS) from 01/01 to 12/31
POWER (15.00 CFS) from
01/01 to 12/31

Place of Use: SESE SEC.
29 T 09S R 17E LOT 14
(SWSW) Sec 28 T 09S R
17E

Diversion Means:
ARTESIAN WELL

If issued, the permit(s) will be subject to all prior water rights. Protests against the granting of any permit must be filed with the Director of the Idaho Department of Water Resources, 1041 Blue Lakes Blvd. North, Twin Falls, Idaho 83301 and received on or before MAY 17, 1982.

A. KENNETH DUNN

Director

PUBLISH: Thursday,
April 29, and May 6, 1982.

Affidavit of Publication

STATE OF IDAHO,
COUNTY OF TWIN FALLS }

ss.

Nº 11501

H. Endersbee
doath, depose and say that I am *print clerk* being first duly sworn up
published daily, at Twin Falls, Idaho, and do solemnly swear that a copy of
the notice of advertisement, as per clipping attached, was published in the regular and
entire issue of said newspaper, and not in any supplement thereof, for *2*
consecutive *weeks*, commencing with the issue dated
April 29, 19 *82*, and ending with the issue dated
May 6, 19 *82*.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except Monday, both of which newspapers prior to consolidation had been published under said names in said city and county continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at which time said newspaper began daily publication under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho, to be published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each issue thereof, Thursday is announced as the day on which said legal notices will be published.

H. Endersbee
Subscribed and sworn to before me on this *7* day of
May, 19 *82*.

Carolee J. Jones
Notary Public in and for the County of Twin Falls,
State of Idaho, residing at Twin Falls, Idaho

**ORDER TO
CEASE AND DESIST**

FINDINGS OF FACT

1. On June 22, 1982, application for permit to appropriate water no. 47-7758 was approved authorizing diversion of up to 10 cfs of groundwater for irrigation, fish propagation and heating from a well located in the NW1/4NW1/4 of Section 33, T9S., R17E., B.M. The permit was approved on condition that:

an access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

2. On June 21, 1982, application for permit to appropriate water no. 47-7813 was approved authorizing diversion of up to 15 cfs for hydro-power and fish propagation from the same well described under application for permit no. 47-7758. Permit No. 47-7813 was approved on condition that:

a measuring device of a type approved by the department shall be permanently installed and maintained at the point of diversion.

3. On July 22, 1987, the owner of permit nos. 47-7758 and 47-7813, J.D. McCollum, signed an agreement with the Idaho Department of Water Resources and certain water right holders who divert and beneficially use hot water from a common geothermal aquifer which underlies portions of Twin Falls and Jerome

MICROFILMED
DEC 6 9 1997

Counties in the vicinity of the City of Twin Falls.

4. Under paragraph 4 of the agreement described under Finding of Fact No. 3, McCollum agreed to limit total diversions under both permit nos. 47-7758 and 47-7813 from the common geothermal aquifer to 8.1 cfs. Under paragraph 22 of the same agreement, all parties agreed to the installation of measuring devices which would provide for both the instantaneous rate of diversion and totalizing of the volume of water discharged.

5. On March 6, 1992, the department sent a notice of intent to issue a cease and desist order to J.D. and David McCollum because a measuring device had either not been installed or was inoperable for the diversion authorized by permit nos. 47-7758 and 47-7813. A field visit by department staff on February 28, 1992 confirmed that no operable measuring device was in place. Furthermore, a USGS report of water withdrawals from geothermal wells in the Twin Falls area in 1991 verified that no measuring device had been operable for the McCollum well during 1991. In addition, a USGS report of water withdrawals for 1993 also verified that there was no operable measuring device on the McCollum well

6. Department staff again visited the McCollum well on February 2, 1994 and again found no operable measuring device on the McCollum well.

CONCLUSIONS OF LAW

1. Section 42-351(1), Idaho Code, states, in part:

If the director of the department of water resources finds, on the basis of available information, that a person is... applying water not in conformance with the conditions of a valid water right, then the director of the department of water resources may file an action seeking injunctive

MICROFILMED

relief or may issue an order directing the person to cease and desist the activity or activities alleged to be in violation of any applicable law or any existing water right. A cease and desist order may direct compliance with applicable law and with any existing water right or may provide a time schedule to bring the person's action into compliance with applicable law and with any existing water right.

2. Section 42-351(5), Idaho Code further states in part:

If the person who is subject of the cease and desist order fails to comply with the order within the time limit set in the order the director may seek, by and through the attorney general, injunctive relief in the district court, pending the action of the department proceeding.

3. Permit to appropriate water nos. 47-7758 and 47-7813 authorized certain development based on the condition that the holder of the permits provide for measurement of ground water withdrawals.

4. The holder of the permits has failed to comply with the condition of permit no. 47-7813 requiring a permanently installed and maintained measuring device.

ORDER

IT IS HEREBY ORDERED that the holder of permit nos. 47-7758 and 47-7813 is to install an operable measuring device to measure all withdrawals from the well located in the NW1/4 NW1/4 of Section 33, T9S., R17E., B.M., and that said device be installed on or before March 15, 1994.

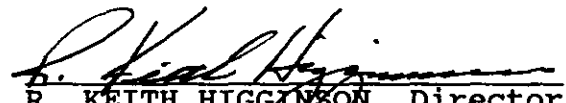

IT IS FURTHER ORDERED that said measuring device be of a type that can record both instantaneous flow rate and total volume discharged.

IT IS FURTHER ORDERED that the holder of permit nos. 47-7758 and 47-7813 cease and desist from withdrawal of water from the point of diversion authorized under these permits if the

measuring device is not installed and operable by March 15, 1994, and at anytime thereafter that a measuring device is not in place and operating to provide accurate measurement of the diversion rate and volume diverted.

IT IS FURTHER ORDERED that the holder of permits 47-7758 and 47-7813 are hereby assessed a civil penalty of \$100 per day for each calendar day or part thereof that withdrawals occur in violation of this order.

Dated this 17th day of February, 1994.

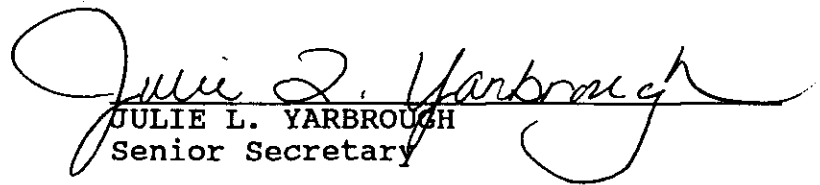

R. KEITH HIGGINSON, Director

To appropriate the public waters of the State of Idaho

1. Name of applicant J. D. McCollum Phone 733-4504 733-2162

Post office address Box 112 Twin Falls, Idaho 83301

2. Source of water supply groundwater which is a tributary of _____

3. Location of point of diversion is NW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 33 Township 9S

Range 17E B.M. Twin Falls County, additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount 5 for fish prop purposes from 1-1 to 12-31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount 15 for power purposes from 1-1 to 12-31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. 15 cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. _____

artesian well

b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is 8 inches; proposed depth of well is 750 feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 5 years (minimum 1 year — maximum 5 years).

8. Description of proposed uses:

a. If water is not for irrigation:

(1) Give the place of use of water: _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$ of Section _____ Township _____

Range _____ B.M.

(2) Amount of power to be generated: 85 horsepower under 50 feet of head.

(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be supplied with domestic water _____.

(5) If water is to be used for other purposes describe: _____

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 47-7813, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before June 1, 1987.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Measuring devices of a type approved by the Department shall be permanently installed and maintained at the point of diversion and the point of effluent discharge.

This permit is subject to the provisions of Sections 42-205 through 42-210, Idaho Code, restricting the sale, transfer, assignment, or mortgage of this permit. Failure to comply with these provisions is cause for immediate cancellation of this permit.

Return flow if discharged to a subsurface system must be authorized by a separate injection well permit, and return flow if discharged to a surface water system shall meet Idaho Water Quality Standards.

This permit does not constitute Idaho Public Utilities Commission or Federal Energy Regulatory Commission approval that may be required.

This project shall be operated in a manner that will not conflict or interfere with the future diversion of water for irrigation or other beneficial consumption.

Witness my hand this 21st day of June, 1982.

Affidavit of Publication

STATE OF IDAHO,
COUNTY OF TWIN FALLS }

ss.

Nº 11501

H. Endersbee being first duly sworn upy
doath, depose and say that I am *print clerk* of the TIMES-NEWS,
published daily, at Twin Falls, Idaho, and do solemnly swear that a copy of
the notice of advertisement, as per clipping attached, was published in the regular and
entire issue of said newspaper, and not in any supplement thereof, for *2*
consecutive *weeks*, commencing with the issue dated
April 29, 19 *82*, and ending with the issue dated
May 6, 19 *82*.

And I do further certify that said newspaper is a consolidation, effective February 16,
1942, of the Idaho Evening Times, published theretofore daily except Sunday, and the Twin
Falls News, published theretofore daily except Monday, both of which newspapers prior to
consolidation had been published under said names in said city and county continuously and
uninterruptedly during a period of more than twelve consecutive months, and said TIMES-
NEWS, since such consolidation, has been published as a daily newspaper except Saturday,
until July 31, 1978, at which time said newspaper began daily publication under said name
in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week
has been designated as the day on which legal notice by law or by order of any court of com-
petent jurisdiction within the state of Idaho, to be published weekly, will be published; and
that at the head of the editorial column of said combined newspapers, and in each issue there-
of, Thursday is announced as the day on which said legal notices will be published.

RE: Cease and Desist Order - Permit Nos. 47-7758 & 47-7813

Dear Permit Holders:

Enclosed is a Cease and Desist Order regarding the use of water authorized under the above referenced permits.

If you disagree with the decision of the Director, you may request a hearing within fifteen (15) days of the date of this order pursuant to Idaho Code § 42-1701A.

I have reviewed your letter dated February 17, 1994 which you faxed to this office. The Department appreciates your willingness to make improvements on your meter. It is difficult for me to evaluate your meter problems based on our brief discussion yesterday. There are a number of good meters on the market today that should meet your needs and reduce the type of maintenance which you claim to have experienced. I do not believe there are any meters on the market however that are maintenance free. I understand that the meter on the new Pristine Springs well, which operates at pressures similar to yours, has worked rather well despite some occasional servicing. I also understand that Loren Holmes has in the past provided you with literature on closed conduit metering. Loren or I would be happy to visit you on site to discuss your situation.

The alternative measurement solution outlined in your letter is not a preferred alternative due to the reasons which you enumerated. The present location of the meter appears to be the most suitable location. Again, we can discuss this or other alternatives further if you wish.

Loren advised me today that he is sending you some information under separate cover which should answer your questions about the accounting and cost sharing for the geothermal monitoring.

Respectfully,

Tim Luke

FAX/MEMO

TO: Tim Luke, IDWR
FAX #: (208) 327-7866
FROM: David McCollum
DATE: February 17, 1994
SUBJECT: Geothermal well flow monitoring

Tim--

To follow up on our conversation yesterday, I am including a copy of the letter I sent to L. Holmes 2/8/94. Also, I have contacted our flow meter supplier and arranged for an improved model (better protection from particle damage) to be installed in the next week. This will involve considerable expense on our part with no guarantees that the results will be better. I am aware of ultrasonic designs which fit around the exterior of the conduit pipe. These, however, are very expensive-- 20 to 30 times the price of the kind we had ordered-- and may be prohibitive for an operation of our size.

Another possible solution would be to install the flow meter in the by-pass system around the hydro generator. Doing this would mean that the meter would be "out of harms way" for a majority of the time. To measure flows on a spot check basis, the hydro could be shut down, the water run through the by-pass system, the flow measured, and the reading calculated by factoring in the decreased resistance (pressure readings) when the flow is diverted around the generator. The disadvantages of this technique are: the need to schedule a more complicated procedure; no totalizing flow data; minor lost revenues in hydro production and additional labor; and the fact that flow readings would not be continuously available. It is, however, a possible solution.

Incidentally, when I explained our conversation with our meter supplier, I did get an interesting comment. He said:

Gee, these guys (IDWR) should know better than anybody what the problem is. Fifteen years ago IDWR required that flow meters be installed on all deep wells in Idaho. The meters were all inoperative within weeks or months. You go around today and on every well you see the skeletons of old meters, meter mounts, or blown-out meters in scrap piles and bone yards.

Apparently, we are not the only one to experience this monitoring problem. Since you indicated you are relatively new to this area, a review of the historical record might provide some perspective to the situation.

Please call me if you have any questions.

LOW-TEMPERATURE GEOTHERMAL MORATORIUM AREA

FROM: NORM YOUNG

RE: EXTENSION OF MORATORIUM

139344

Enclosed is a copy of an order extending the order designating the Twin Falls Low-Temperature Geothermal Moratorium Area. I appreciated the attendance of many of the users at the public information meeting on this matter held in Twin Falls last week. I understood those in attendance favored an extension of the moratorium, and some of the users were encouraging that the size of the area be increased and that additional actions be taken to protect artesian pressures. I indicated at the meeting that the moratorium would be extended without modification to keep its continuity and that IDWR will schedule as time and resources permit a review of the following matters:

- Expansion of the area.
- The need for repair or reconstruction of wells in and adjacent to the area.
- Evaluate the adequacy of the agreement to manage pumpage to prevent withdrawal in excess of the average rate of recharge or to maintain artesian pressures in the public interest.
- Review need for and adequacy of monitoring programs.

With respect to monitoring, the data recorded by the USGS from the well at the Nazarene Church is an important part of the information now being collected. The Church will soon be finished and will be using water from the well. Data from an unused well is more reliable for evaluating aquifer conditions. USGS and IDWR are evaluating alternatives for replacing this source of data. If you are aware of a well that is finished into the low-temperature geothermal aquifer and is not being used, please call Loren Holmes, IDWR Regional Manager at Twin Falls, a call at 736-3033.

Re: Water rights 47-7758 & 47-7813

NOTICE OF INTENT TO ISSUE AN ORDER TO CEASE AND DESIST

Gentlemen:

During a visit to the well under water rights 47-7758 & 47-7813 on February 28, 1992, I found no measuring device in place. The USGS report of water withdrawals in 1991 verifies that no measuring device has been operable during 1991.

Diversion of water under the above referenced water rights is subject to a condition requiring that a measuring device be maintained in working order on the diversion works.

Section 42-351 of the Idaho Code provides the director of the Department of Water Resources with authority to order compliance with conditions of a valid water right and/or seek injunctive relief.

Please be advised that another inspection of the well will be made thirty (30) days from the date of this letter. If, at that time, it is determined that the diversion is not in compliance with the conditions of the water right, this office will seek an order to cease the diversion of water until the works are in compliance.

If you have any questions regarding this matter, please contact me.

Very Truly yours,

Loren O. Holmes, P. E.
Southern Region Manager

Re: Water permits 47-7758, 47-7813, Measuring device requirement

Dear Mr. McCollum:

This letter is to serve as notice to you to install a measuring device or devices as agreed to in the "CSI Agreement" dated July 22, 1987.

As part of the agreement, the parties agree to install totallizing measuring devices (paragraph 22) and to pay the costs of monitoring up to \$1000.00 per year (paragraph 1).

The data collected is to be used to determine future management of the Twin Falls Geothermal Aquifer. The data will also be used as a basis to distribute costs to the waterusers. The department is currently contracting with the USGS for collection of the data on the wells.

Please, as soon as possible, install a meter or meters of a type which will give an instantaneous reading of flow as well as a total volume diverted from your well.

Your prompt cooperation in this matter will be appreciated. Please let me know if you have any questions.

Very Truly yours,

Loren O. Holmes

Dear Mr. McCollum:

Re: Permit No. 47-7813

LAPSE NOTICE

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, the above referenced permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper forms in our proof due notice to you dated March 31, 1987.

Your permit cannot be reinstated unless you submit the proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal including the examination fee or a completed field examination report or the extension request form together with the \$15 fee must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which brings title to the water in question.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 47-7813

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF THE ABOVE REFERENCED WATER PERMIT WAS THAT PROOF OF THE EXTENT OF YOUR BENEFICIAL USE MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE JUNE 1, 1987. (SEE LAST PAGE OF YOUR APPROVED PERMIT OR YOUR LAST APPROVED EXTENSION REQUEST.) ENCLOSED IS A FORM WHICH WHEN ACCOMPANIED BY THE LICENSE EXAMINATION FEE OR A COMPLETED FIELD EXAMINATION REPORT PREPARED BY A CERTIFIED WATER RIGHT EXAMINER MAY BE USED TO SUBMIT THE REQUIRED PROOF.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU OR A PREVIOUS OWNER OF THIS PERMIT HAVE NOT RECEIVED A PRIOR EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME IF THE DELAY IS FOR REASONABLE CAUSE AS PROVIDED IN SECTION 42-204, IDAHO CODE. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION WHICH MIGHT BRING TITLE TO THE WATER IN QUESTION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. AN EXTENSION OF TIME REQUEST FORM IS ENCLOSED FOR YOUR CONVENIENCE.

EITHER AN ACCEPTABLE PROOF OF BENEFICIAL USE SUBMITTAL OR AN ACCEPTABLE REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE DESCRIBED PROOF DUE DATE. IF NEITHER IS RECEIVED, THE DEPARTMENT WILL SEND YOU A LAPSE NOTICE. WITHIN SIXTY (60) DAYS OF THE MAILING OF THE LAPSE NOTICE, THE PERMIT WILL NO LONGER BE OF ANY FORCE NOR EFFECT.

SINCERELY,

RITA FLECK
SECRETARY/RECORDS MANAGER

DEPARTMENT OF WATER RESOURCES

STATE OFFICE, 450 W. State Street, Boise, Idaho

JOHN V. EVANS
Governor

A. KENNETH DUNN
Director

Mailing address:
Statehouse
Boise, Idaho 83720
(208) 334-4440

SEPTEMBER 1, 1985

DEAR PERMIT HOLDER:

ACCORDING TO OUR RECORDS, YOU ARE THE HOLDER OF A WATER PERMIT ON WHICH PROOF OF BENEFICIAL USE OF WATER WAS NOT SUBMITTED BEFORE JULY 1, 1985, WHICH INDICATES YOUR PROJECT IS NOT COMPLETE. THEREFORE, YOU NEED TO BE AWARE OF CHANGES IN IDAHO LAW, EFFECTIVE JULY 1, 1985, WHICH IMPACT ALL WATER PERMITS ISSUED BY THIS DEPARTMENT.

SPECIFICALLY, PURSUANT TO SECTION 42-203D, IDAHO CODE, THE DEPARTMENT MUST REVIEW ALL PERMITS FOR WHICH DEVELOPMENT OF WATER USE WAS NOT COMPLETED ON OR BEFORE JULY 1, 1985, TO DETERMINE IF THEY MEET THE NEW REQUIREMENTS OF CHAPTER 2, TITLE 42, IDAHO CODE. RULES AND REGULATIONS GOVERNING THE RE-EVALUATION OF PERMITS ARE NOT YET FINALIZED. HOWEVER, IF YOU COMPLETED THE DEVELOPMENT UNDER YOUR PERMIT BEFORE JULY 1, 1985, YOU SHOULD SUBMIT A PROOF OF BENEFICIAL USE STATEMENT, STATING THAT THE PROJECT WAS COMPLETED BEFORE JULY 1, 1985 SO THAT YOUR PERMIT WILL NOT BE SUBJECT TO THE REVIEW REQUIREMENTS OF SECTION 42-203D, WHICH READS AS FOLLOWS:

42-203D. REVIEW OF PERMITS - OPPORTUNITY FOR HEARING. - (1) THE DEPARTMENT SHALL REVIEW ALL PERMITS ISSUED PRIOR TO THE EFFECTIVE DATE [JULY 1, 1985] OF THIS SECTION, EXCEPT TO THE EXTENT A PERMIT HAS BEEN PUT TO BENEFICIAL USE PRIOR TO JULY 1, 1985, TO DETERMINE WHETHER THEY COMPLY WITH THE PROVISIONS OF CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PROPOSED USE DOES NOT SATISFY THE CRITERIA OF CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL EITHER CANCEL THE PERMIT OR IMPOSE THE CONDITIONS REQUIRED TO BRING THE PERMIT INTO COMPLIANCE WITH CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PERMIT SATISFIES THE CRITERIA ESTABLISHED IN CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL ENTER AN ORDER CONTINUING THE PERMIT.

(2) THE DEPARTMENT SHALL PROVIDE AN OPPORTUNITY FOR HEARING IN ACCORDANCE WITH SECTION 42-1701A, IDAHO CODE, AND SECTIONS 67-5209 THROUGH 67-5215, IDAHO CODE, FOR EACH HOLDER OF A PERMIT THAT IS PROPOSED EITHER TO BE CANCELLED OR MADE SUBJECT TO NEW CONDITIONS.

YOU MAY OBTAIN PROOF OF BENEFICIAL USE FORMS FROM THE DEPARTMENT. IF YOU HAVE ANY QUESTIONS, PLEASE LET US KNOW.

SINCERELY,

L. GLEN SAXTON

RE: Permit No. 47-7813

J. D. McCollum
Box 112
Twin Falls, ID 83301

Dear Mr. McCollum:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the fourth page.

The 1982 Idaho Legislature added a requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

Please be advised that your plans for fish propagation may be subject to regulations of the Idaho Department of Fish and Game. We suggest that you check with them before starting construction.

Be sure to note the special condition requiring you to install and maintain a measuring device at your point of diversion. We have enclosed a description of the different types of measuring devices accepted by this office.

We have enclosed a form entitled "Making Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Supervisor, Water Allocation Section

Re: Application for Permit No. 47-7813

Dear Mr. McCollum:

Our office is currently processing your Application for Permit No. 47-7813 filed on April 22, 1982 for power and fish propagation purposes.

Pursuant to Administrative Memorandums regarding power and fish propagation uses, the following additional information will be required for inclusion with your application:

- 1) Pursuant to Section 42-206 of the IDAHO CODE an affidavit of residence must be completed when filing for power purposes. Please complete and return the enclosed affidavit form.
- 2) A construction plan of your proposed fish facility must be submitted. This must be a scale drawing showing the proposed layout of the ponds on the property and giving length, width and depth dimensions of all ponds.
- 3) Proof of possessory interest in the land upon which the water is to be used. This may be in the form of a copy of a warranty deed, title report, sale or lease agreement, or tax notice, giving ownership and legal description of the property.

I estimate that advertising and regional review of your application should be completed by May 28, 1982. If the above requested information is received by that date, no additional delay in processing in this office will be incurred before we forward your application to the IDWR - State Office for final review.

If you have questions regarding these requirements, please feel free to contact our office.

Sincerely,

ALLEN D. MERRITT
Sr. Water Resource Analyst
