RE: Case No. 81375, Idaho Power vs. Idaho Department of Water Resources
FROM: Margaret E. Ralphs, aka Margaret E. Humphrey (Water Permit # 47-7788)

THE FOLLOWING is my answer to your Summons delivered to me April 16, 1984.

In the year 1970, a 40 acre farm was purchased by some individuals and divided into approximately five-acre plots, one of which I still own today. This land had been continuously farmed using water from the Twin Falls Canal Company since early in the settlement of the Twin Falls area. As more and more houses were built and subdivisions developed, our canal water was piped underground and it became more difficult, if not impossible to obtain adequate flow to siphon irrigate. In 1981 I therefore sold my Twin Falls Canal Company water shares and began to sprinkle using my domestic well. As required by law in 1982, I applied for and was granted Permit # 47-7788. In addition to my five acres, I applied for a water permit to sprinkle an additional five-acre plot belonging to an elderly neighbor.

I contend that continuing to irrigate and keeping these acres in production will not harm Idaho Power Company by reducing its available stream flow. I also contend that since this land has been continuously farmed since approximately 1905, no new water requirements were requested by my permit # 47-7788, but only a continuation of those long established.

Respectfully submitted,

Margaret E. Ralphs

Re: Permit 47-7788

Dear Mrs. Ralphs:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.
