Director

PUBLISH: Thursday,
October 8, and 15, 1981.

Affidavit of Publication

STATE OF IDAHO, }
COUNTY OF TWIN FALLS } ss.

Nº 10767

I, H. Inderslie being first duly sworn upon oath, depose and say that I am print clerk of the TIMES-NEWS published daily, at Twin Falls, Idaho, and do solemnly swear that a copy of the notice of advertisement, as per clipping attached, was published in the regular and entire issue of said newspaper, and not in any supplement thereof, for two consecutive weeks, commencing with the issue dated October 8, 1981, and ending with the issue dated October 15, 1981.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except Monday, both of which newspapers prior to consolidation had been published under said names in said city and county continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at which time said newspaper began daily publication under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho, to be published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each issue thereof, Thursday is announced as the day on which said legal notices will be published.

Subscribed and sworn to before me on this 16 day of

October, 1981

CAXTON PRINTERS, CALDWELL, IDAHO 83718

RECEIVED

OCT 22 1981

Department of Water Resources
Southern District Office

**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO**

**IN THE MATTER OF THE DIVERSION OF)
GROUNDWATER WITHOUT AN OPERABLE OR)
MAINTAINED MEASURING DEVICE AS REQUIRED)
UNDER WATER RIGHT PERMIT NO.S 47-7758 &)
47-7813)**

**ORDER TO
CEASE AND DESIST**

FINDINGS OF FACT

1. On June 22, 1982, application for permit to appropriate water no. 47-7758 was approved authorizing diversion of up to 10 cfs of groundwater for irrigation, fish propagation and heating from a well located in the NW1/4NW1/4 of Section 33, T9S., R17E., B.M. The permit was approved on condition that:

an access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

2. On June 21, 1982, application for permit to appropriate water no. 47-7813 was approved authorizing diversion of up to 15 cfs for hydro-power and fish propagation from the same well described under application for permit no. 47-7758. Permit No. 47-7813 was approved on condition that:

a measuring device of a type approved by the department shall be permanently installed and maintained at the point of diversion.

3. On July 22, 1987, the owner of permit nos. 47-7758 and 47-7813, J.D. McCollum, signed an agreement with the Idaho Department of Water Resources and certain water right holders who divert and beneficially use hot water from a common geothermal aquifer which underlies portions of Twin Falls and Jerome

Counties in the vicinity of the City of Twin Falls.

4. Under paragraph 4 of the agreement described under Finding of Fact No. 3, McCollum agreed to limit total diversions under both permit nos. 47-7758 and 47-7813 from the common geothermal aquifer to 8.1 cfs. Under paragraph 22 of the same agreement, all parties agreed to the installation of measuring devices which would provide for both the instantaneous rate of diversion and totalizing of the volume of water discharged.

5. On March 6, 1992, the department sent a notice of intent to issue a cease and desist order to J.D. and David McCollum because a measuring device had either not been installed or was inoperable for the diversion authorized by permit nos. 47-7758 and 47-7813. A field visit by department staff on February 28, 1992 confirmed that no operable measuring device was in place. Furthermore, a USGS report of water withdrawals from geothermal wells in the Twin Falls area in 1991 verified that no measuring device had been operable for the McCollum well during 1991. In addition, a USGS report of water withdrawals for 1993 also verified that there was no operable measuring device on the McCollum well

6. Department staff again visited the McCollum well on February 2, 1994 and again found no operable measuring device on the McCollum well.

CONCLUSIONS OF LAW

1. Section 42-351(1), Idaho Code, states, in part:

If the director of the department of water resources finds, on the basis of available information, that a person is... applying water not in conformance with the conditions of a valid water right, then the director of the department of water resources may file an action seeking injunctive

relief or may issue an order directing the person to cease and desist the activity or activities alleged to be in violation of any applicable law or any existing water right. A cease and desist order may direct compliance with applicable law and with any existing water right or may provide a time schedule to bring the person's action into compliance with applicable law and with any existing water right.

2. Section 42-351(5), Idaho Code further states in part:

If the person who is subject of the cease and desist order fails to comply with the order within the time limit set in the order the director may seek, by and through the attorney general, injunctive relief in the district court, pending the action of the department proceeding.

3. Permit to appropriate water nos. 47-7758 and 47-7813 authorized certain development based on the condition that the holder of the permits provide for measurement of ground water withdrawals.

4. The holder of the permits has failed to comply with the condition of permit no. 47-7813 requiring a permanently installed and maintained measuring device.

ORDER

IT IS HEREBY ORDERED that the holder of permit nos. 47-7758 and 47-7813 is to install an operable measuring device to measure all withdrawals from the well located in the NW1/4 NW1/4 of Section 33, T9S., R17E., B.M., and that said device be installed on or before March 15, 1994.

IT IS FURTHER ORDERED that said measuring device be of a type that can record both instantaneous flow rate and total volume discharged.

IT IS FURTHER ORDERED that the holder of permit nos. 47-7758 and 47-7813 cease and desist from withdrawal of water from the point of diversion authorized under these permits if the

measuring device is not installed and operable by March 15, 1994, and at anytime thereafter that a measuring device is not in place and operating to provide accurate measurement of the diversion rate and volume diverted.

IT IS FURTHER ORDERED that the holder of permits 47-7758 and 47-7813 are hereby assessed a civil penalty of \$100 per day for each calendar day or part thereof that withdrawals occur in violation of this order.

Dated this 17TH day of February, 1994.

R. KEITH HIGGINSON, Director

CERTIFICATE OF MAILING

Date 3-31-87
Receipt # 44637

Department of Water Resources
To provide additional time in which to submit proof
of beneficial use for a water right permit

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of a water right under the provisions of Section 42-204, Idaho Code.

Permit No. 47-7758

Name(s) of Permit Holder: J. D. McCollum

Post Office Address: P. O. Box 112, Twin Falls, Idaho 83301

Telephone No. 208-733-4504

Date Proof is Due: June 1, 1987

Describe what work has been completed toward the development of this water right: Well drilled, Clubhouse
(This must be filled out! If no work has been completed, show "none".)

built, heating system installed for all buildings, fish pond constructed, pipeline completed
and irrigation system completed on nine holes of golf course

Costing \$ 500,000.00

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

The last nine holes of golf course because of a delay of the BLM on a land trade so that we
can finish the complete golf course

Permit holder(s) request an extension to June 1, 1991.
(1 yr. minimum)

J. D. McCollum
(Signature)*

FEE: \$15.00

*IF OTHER THAN PERMIT HOLDER,
POWER OF ATTORNEY MUST BE SUPPLIED.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above request for extension of time be APPROVED and the time within which to submit proof of beneficial use is extended to October 1, 1990.

Signed this 13th day of October, 1988.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 47-7758, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before June 1, 19 87.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other:
 - \ Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
 - \ An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.
 - \ The permit shall not be assigned or sold without first securing the written approval of the Department of Water Resources.
 - \ Water used under this permit if discharged into a natural channel shall meet Idaho Water Quality Standards.

Witness my hand this 22nd day of June, 1982.

RE: Cease and Desist Order - Permit Nos. 47-7758 & 47-7813

Dear Permit Holders:

Enclosed is a Cease and Desist Order regarding the use of water authorized under the above referenced permits.

If you disagree with the decision of the Director, you may request a hearing within fifteen (15) days of the date of this order pursuant to Idaho Code § 42-1701A.

I have reviewed your letter dated February 17, 1994 which you faxed to this office. The Department appreciates your willingness to make improvements on your meter. It is difficult for me to evaluate your meter problems based on our brief discussion yesterday. There are a number of good meters on the market today that should meet your needs and reduce the type of maintenance which you claim to have experienced. I do not believe there are any meters on the market however that are maintenance free. I understand that the meter on the new Pristine Springs well, which operates at pressures similar to yours, has worked rather well despite some occasional servicing. I also understand that Loren Holmes has in the past provided you with literature on closed conduit metering. Loren or I would be happy to visit you on site to discuss your situation.

The alternative measurement solution outlined in your letter is not a preferred alternative due to the reasons which you enumerated. The present location of the meter appears to be the most suitable location. Again, we can discuss this or other alternatives further if you wish.

Loren advised me today that he is sending you some information under separate cover which should answer your questions about the accounting and cost sharing for the geothermal monitoring.

Respectfully,

Tim Luke

FAX/MEMO

TO: Tim Luke, IDWR
FAX #: (208) 327-7866
FROM: David McCollum
DATE: February 17, 1994
SUBJECT: Geothermal well flow monitoring

Tim-

To follow up on our conversation yesterday, I am including a copy of the letter I sent to L. Holmes 2/8/94. Also, I have contacted our flow meter supplier and arranged for an improved model (better protection from particle damage) to be installed in the next week. This will involve considerable expense on our part with no guarantees that the results will be better. I am aware of ultrasonic designs which fit around the exterior of the conduit pipe. These, however, are very expensive— 20 to 30 times the price of the kind we had ordered— and may be prohibitive for an operation of our size.

Another possible solution would be to install the flow meter in the by-pass system around the hydro generator. Doing this would mean that the meter would be "out of harms way" for a majority of the time. To measure flows on a spot check basis, the hydro could be shut down, the water run through the by-pass system, the flow measured, and the reading calculated by factoring in the decreased resistance (pressure readings) when the flow is diverted around the generator. The disadvantages of this technique are: the need to schedule a more complicated procedure; no totalizing flow data; minor lost revenues in hydro production and additional labor; and the fact that flow readings would not be continuously available. It is, however, a possible solution.

Incidentally, when I explained our conversation with our meter supplier, I did get an interesting comment. He said:

Gee, these guys (IDWR) should know better than anybody what the problem is. Fifteen years ago IDWR required that flow meters be installed on all deep wells in Idaho. The meters were all inoperative within weeks or months. You go around today and on every well you see the skeletons of old meters, meter mounts, or blown-out meters in scrap piles and bone yards.

Apparently, we are not the only one to experience this monitoring problem. Since you indicated you are relatively new to this area, a review of the historical record might provide some perspective to the situation.

Please call me if you have any questions.

DATE: JULY 31, 1992 139343

TO: WATER RIGHT HOLDERS AND APPLICANTS IN TWIN FALLS
LOW-TEMPERATURE GEOTHERMAL MORATORIUM AREA

FROM: NORM YOUNG

RE: EXTENSION OF MORATORIUM

Enclosed is a copy of an order extending the order designating the Twin Falls Low-Temperature Geothermal Moratorium Area. I appreciated the attendance of many of the users at the public information meeting on this matter held in Twin Falls last week. I understood those in attendance favored an extension of the moratorium, and some of the users were encouraging that the size of the area be increased and that additional actions be taken to protect artesian pressures. I indicated at the meeting that the moratorium would be extended without modification to keep its continuity and that IDWR will schedule as time and resources permit a review of the following matters:

- Expansion of the area.
- The need for repair or reconstruction of wells in and adjacent to the area.
- Evaluate the adequacy of the agreement to manage pumpage to prevent withdrawal in excess of the average rate of recharge or to maintain artesian pressures in the public interest.
- Review need for and adequacy of monitoring programs.

With respect to monitoring, the data recorded by the USGS from the well at the Nazarene Church is an important part of the information now being collected. The Church will soon be finished and will be using water from the well. Data from an unused well is more reliable for evaluating aquifer conditions. USGS and IDWR are evaluating alternatives for replacing this source of data. If you are aware of a well that is finished into the low-temperature geothermal aquifer and is not being used, please call Loren Holmes, IDWR Regional Manager at Twin Falls, a call at 736-3033.

PROOF DUE NOTICE
RE: PERMIT NO. 47-07758

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

Re: Water permits 47-7758, 47-7813, Measuring device requirement

Dear Mr. McCollum:

This letter is to serve as notice to you to install a measuring device or devices as agreed to in the "CSI Agreement" dated July 22, 1987.

As part of the agreement, the parties agree to install totallizing measuring devices (paragraph 22) and to pay the costs of monitoring up to \$1000.00 per year (paragraph 1).

The data collected is to be used to determine future management of the Twin Falls Geothermal Aquifer. The data will also be used as a basis to distribute costs to the waterusers. The department is currently contracting with the USGS for collection of the data on the wells.

Please, as soon as possible, install a meter or meters of a type which will give an instantaneous reading of flow as well as a total volume diverted from your well.

Your prompt cooperation in this matter will be appreciated. Please let me know if you have any questions.

Very Truly yours,

Loren O. Holmes

DEC 07 1988

MEMORANDUM

TO: Glen Saxton
FROM: Phil Rassier *PJR*
RE: CSI Agreement - Action on Permits
DATE: October 3, 1988

On July 13, 1988, Judge Hurlbutt approved the order of dismissal in the case of CSI v. IDWR, et al (Twin Falls County Case No. 37298) involving the ground water users within the Twin Falls geothermal aquifer. The order of dismissal is based upon a settlement agreement dated May 19, 1988 between the College of Southern Idaho (CSI) and Professional Investors Life Insurance Company; and upon an agreement dated July 22, 1987 among CSI, the Department and five other defendants in the lawsuit.

1. Complete copies of the documents should be placed in the water right files for Professional Investors (License No. 36-7130) and CSI (Permit No. 47-7606). Two sets of the documents are attached for this purpose. *done jst*

2. A notice should be placed in the other water right files affected by the agreements: 36-8094, 47-7478, 47-7758, 47-7813, 47-7964, 47-7492, 47-7714, 47-7745, 47-7872, 47-7875, 47-7966, 47-7969, and 36-8137. The notice should caution: BEFORE TAKING ACTION ON THIS FILE PLEASE REFER TO THE "MORATORIUM AGREEMENT" DATED JULY 22, 1987, COPIES OF WHICH HAVE BEEN PLACED IN WATER RIGHT FILES 36-7130, AND 47-7606.

3. License No. 36-7130 in the name of Professional Investors. -- Pursuant to Judge Hurlbutt's July 13, 1988 order approving the May 19, 1988 stipulation between CSI and Professional Investors, the Department should take action to reflect in its records the permanent reduction in the authorized rate of diversion for License No. 36-7130 from 6.0 cfs to 4.5 cfs.

4. Permit No. 47-7758 in the name of J.D. McCollum. -- On March 31, 1987, the permit holder requested an extension of time from June 1, 1987 until June 1, 1991 in which to complete putting the water to beneficial use by completing a second nine holes of golf course. Action may now be taken by the Department on the request for extension of time. Under ¶ 4 of the July 22, 1987 moratorium agreement the permit holder agrees to limit the amount and use of water diverted under this permit. Under ¶ 14 of the agreement the parties agree that the pendency of the CSI v. IDWR

DEC 07 1988

MEMORANDUM

October 3, 1988

Page 2

lawsuit shall be considered as an adequate reason for granting equivalent extensions of time for development of the reduced amounts of water in paragraphs 2 through 12 of the agreement. The CSI lawsuit was filed on March 8, 1985 and dismissed on July 13, 1988, a period of 3 years and 4 months. The request for extension may, therefore, be approved in part due to the pending litigation.

5. Permit No. 47-7969 in the name of City of Twin Falls. -- On September 2, 1986, the Department issued an order to the permit holder to show cause why the permit should not be canceled for failure to begin construction within one year from the date of issuance of the permit as required by I.C. § 42-204. The permit holder filed a response to the order to show cause on October 21, 1986. The Department has not taken further action to cancel the permit.

On March 9, 1988, the permit holder filed an application for amendment of permit No. 47-7969 to add an alternative point of diversion. The requested alternative point of diversion is the point of diversion for permit No. 47-7964 in the name of Twin Falls School District No. 411. The proposed amendment is consistent with a lease agreement dated January 19, 1988 between the city and the school district. The amendment is also consistent with ¶ 24 of the July 22, 1987 moratorium agreement. It is appropriate for the Department to take action on the application for amendment providing the permit is determined to still be valid. In addition to the reason provided by the city in its response to the order to show cause the Department may consider the pendency of the CSI lawsuit as possibly providing the city with good cause for not starting construction within one year of the issuance of the permit.

Proof of beneficial use under the permit is due December 1, 1988. The Department should send out its normal proof due notice.

6. Permit No. 47-7478 in the name of the College of Southern Idaho. -- The permit holder has submitted proof of beneficial use. The Department has performed a field exam and should now issue a license.

7. Installation of measuring devices. -- The parties agree in ¶ 22 of the moratorium agreement to the installation of measuring devices approved by IDWR which will provide an instantaneous readout and totalizing head so that the systems can be readily monitored and integrated volumetric measurements of pump out obtained over the period of the order. The Department should issue an order requiring installation of the described measuring devices.

DEC 07 1988

MEMORANDUM

October 3, 1988

Page 3

8. Error in ¶ 14 of moratorium agreement. -- The example of how the amount of "Stage Two" development under ¶ 14, page 6, of the moratorium agreement is calculated contains an error. The example shows that Hydrotube and Stone, respectively, would be entitled to develop an additional .0667 cfs and .9333 cfs. The corrected amount for Hydrotube is .0625 cfs ($0.1 \text{ cfs} / 1.6 \text{ cfs} = .0625 \times 1 \text{ cfs} = .0625 \text{ cfs}$). The corrected amount for Stone is .9375 ($1.5 \text{ cfs} / 1.6 \text{ cfs} = .9375 \times 1 \text{ cfs} = .9375 \text{ cfs}$).

Also attached for your convenience is a set of notes you compiled on September 17, 1987 indicating the recommended action to be taken on each of the water rights affected by the moratorium agreement.

DEC 07 1988

AGREEMENT

This Agreement, made and entered into this ____ day of _____, 1987, by and among THE IDAHO DEPARTMENT OF WATER RESOURCES, an executive agency of the State of Idaho (hereinafter "IDWR"); COLLEGE OF SOUTHERN IDAHO, a junior college district (hereinafter "CSI"); PROFESSIONAL INVESTORS LIFE INSURANCE COMPANY, a corporation with principal offices in Tulsa, Oklahoma (hereinafter "Professional"); J.D. McCOLLUM and JEAN McCOLLUM, husband and wife, of Twin Falls County, Idaho (hereinafter "McCollum"); SCHOOL DISTRICT 411, an instrumentality of the State of Idaho (hereinafter "411"); MICHAEL KESTLER, an individual of Twin Falls County, Idaho (hereinafter "Kestler"); GARY STONE, an individual of Twin Falls County, Idaho (hereinafter "Stone"); FIRST CHURCH OF THE NAZARENE (hereinafter "Nazarene"); HYDROTUBE OF IDAHO (hereinafter "Hydrotube"); ARNOLD ELSING and RONALD ELSING, individuals of Twin Falls County, Idaho (hereinafter "Elsing"); MAGIC GARDENS (hereinafter "M.G."); and the CITY OF TWIN FALLS, IDAHO (hereinafter "City");

Whereas, the Director of the Department of Water Resources will consider this Agreement as limiting for the purpose of implementing Idaho Code 42-1805(7) which authorizes the Director to suspend further development of existing water rights; and

Whereas, the parties hereto (except IDWR) are the holders of valid water permits and licenses issued by IDWR, or have filed applications which IDWR has not yet approved for the purpose of diverting and beneficially using hot water from a common hot water aquifer that underlies portions of Twin Falls and Jerome Counties in the vicinity of the City of Twin Falls, Idaho; and

Whereas, the parties hereto are desirous of entering into an agreement amongst themselves and IDWR setting forth their respective rights and obligations as to the hot water, for the purpose of resolving the interfaces between the parties, and securing the dismissal of the pending lawsuit; and

Whereas, the parties are concerned that the hot water be used for the heat resource and not as a substitute where cold water is adequate for a particular beneficial use and the parties are concerned about their rights to use the hot water in the future, and are agreeable to limit the rates **PAID**

DEC 07 1988

2. Professional is the holder of License No. 36-7130 for the diversion of 6 cfs of hot water from a well located in the NW 1/4 of the NW 1/4 of Section 29, Township 9 South, Range 17 East Boise Meridian, Jerome County, Idaho. Professional agrees that hereafter, during the continuance of this Agreement, they will divert no more than 4.5 cfs of water pursuant to said license and that the primary use of said water shall be for beneficial uses which utilize the heat resource of the water. Professional also agrees that diversions under Application No. 36-8094 for non-consumptive use for power generation (if Application No. 36-8094 be issued) shall be an additional use of the same 4.5 cfs, so that during the continuance of this Agreement, Professional shall divert no more than a total of 4.5 cfs under license.

3. CSI is the owner of Permit Nos. 47-7478 and 47-7606. CSI has submitted proof on 1.21 cfs under Permit No. 47-7478. Permit No. 47-7606 was granted an extension until 1/1/1990 for 7.76 cfs. The total potential diversion under the two permits is 8.97 cfs. CSI agrees that it will limit its development to a total of 6 cfs under both permits in consideration of reaching this agreement, and that the primary use of said water shall be for beneficial uses which utilize the heat resource of the water.

4. McCollum is the owner of Permit Nos. ~~47-7758~~ and 47-7813 providing for the development of up to 25 cfs of water from the common hot water aquifer. McCollum currently diverts 6.6 cfs and herein agrees to limit total diversions under both permits from the common hot water aquifer to 8.1 cfs. McCollum agrees that the primary use of all current and future diversions shall be for beneficial uses which utilize the heat resource of the water in an efficient and reasonable manner, except for .5 cfs currently used for irrigation only, which use all parties agree may continue. If McCollum diverts more than 6.6 cfs from the common hot water aquifer, he agrees to reduce his use of hot water by the amount exceeding 6.6 cfs upon 90 days written notice if the other parties to this agreement can insure delivery in accordance with state law of high quality cold water in exchange therefor at no additional cost to McCollum.

5. 411 is the holder of Permit No. 47-7964 providing for the development of 1.11 cfs and has presently developed .5 cfs for heating purposes. In consideration for this Agreement, 411 agrees that their diversions from the common hot water aquifer shall be limited to .75 cfs for beneficial uses which utilize the heat resource of the water.

Re: CSI Agreement

Dear Don:

I have reviewed the changes to paragraph 4 of the draft agreement forwarded with your July 9 letter. As we discussed in our telephone conversation of July 6, the Director is determined not to authorize further development of ground water in this area which would not utilize the heat resource of the water.

The 1.5 cfs of additional development authorized for McCollum under the proposed agreement would occur under permit No. 47-7758. This permit was issued June 22, 1982. On March 31, 1987 McCollum requested an extension of time from June 1, 1987 until June 1, 1991 in which to complete putting the water under the permit to beneficial use.

In addition, McCollum holds permit No. 47-7605 which authorizes the diversion of water from Perrine Coulee for irrigation of the same lands identified for irrigation under permit No. 47-7758. McCollum has until December 1, 1990 to put water under permit No. 47-7605 to beneficial use.

The Director does not intend to approve the request for extension of time under permit No. 47-7758 to allow further development of ground water within the Twin Falls Ground Water Management Area in a manner which will not beneficially use the thermal resource. Because the Director may exercise his authority not to extend the time for putting permit No. 47-7758 to beneficial use, McCollum would not in my view be giving up significant legal rights by agreeing to utilize the heat resource of the water before using any of the additional 1.5 cfs of future development for irrigation purposes.

DEC 07 1988

Don A. Olowinski

Page 2

July 17, 1987

I, therefore, suggest that the language in paragraph four of John Rosholt's July 13, 1987 draft agreement be modified to read as follows:

4. McCollum is the owner of Permit Nos. 47-7758 and 47-7813 providing for the development of up to 25 cfs of water from the common hot water aquifer. McCollum currently diverts 6.6 cfs and herein agrees to limit total diversions under both permits from the common hot water aquifer to 8.1 cfs. McCollum agrees that the primary use of all current and future diversions shall be for beneficial uses which utilize the heat resource of the water in an efficient and reasonable manner, except for .5 cfs currently used for irrigation only, which use all parties agree may continue. If McCollum diverts more than 6.6 cfs from the common hot water aquifer, he agrees to reduce his use of hot water by the amount exceeding 6.6 cfs upon 90 days written notice if the other parties to this agreement can insure delivery in accordance with state law of high quality cold water in exchange therefor at no additional cost to McCollum.

Please let me know at your earliest convenience whether this suggested language is satisfactory to your client in light of the current status of permit No. 47-7758. As you know, we have approximately one week to resolve this matter prior to the Director's departure.

Sincerely,

PHILLIP J. RASSIER

Re: College of Southern Idaho vs. McCollum

Dear John & Phil:

After consultation with my client, I would like to request that the following language be substituted for paragraph four in John's latest agreement. As I believe I informed both of you, McCollum intends to use the additional 1.5 cfs for fish propagation first and then reuse it for irrigation purposes. However, I am still concerned that McCollum is giving up rights that the legislature has reaffirmed without receiving anything in return.

Sincerely,

HAWLEY TROXELL ENNIS & HAWLEY

Don A. Olowinski
Don A. Olowinski

DAO/mmb

xc: Joe McCollum, Sr.
Bruce Belzer, Esq.
(w/enc.)

DEC 07 1988

4. McCollum is the owner of Permit Nos. 47-7758 and 47-7813 providing for the development of up to 25 cfs of water from the common hot water aquifer. McCollum currently diverts 6.6 cfs. McCollum herein agrees to limit total diversions under both permits from the common hot water aquifer to 8.1 cfs.

McCollum agrees that the primary use of this water shall be for beneficial uses which utilize the heat resource of the water except for .5 cfs currently used for irrigation only (and for the 1.5 cfs that may be developed for future use hereunder.)

All parties agree that McCollum may continue to use the .5 cfs currently used for irrigation. All parties except IDWR agree that this additional 1.5 cfs need not be used for beneficial purposes which utilize the heat resource of the water. As to this 1.5 cfs, McCollum will attempt to use it for beneficial purposes which utilize the heat resource of the water. In signing this agreement, McCollum reserves all rights under Idaho law to the use of this latter 1.5 cfs, including but not limited to those rights under Idaho Code §42-233.

If this 1.5 cfs is developed, McCollum agrees to reduce his use of hot water by 1.5 cfs upon 90 days notice if the other parties to this agreement can insure delivery of 1.5 cfs of high quality cold water acceptable to McCollum at no additional cost to him.

SEPTEMBER 1, 1985

DEAR PERMIT HOLDER:

ACCORDING TO OUR RECORDS, YOU ARE THE HOLDER OF A WATER PERMIT ON WHICH PROOF OF BENEFICIAL USE OF WATER WAS NOT SUBMITTED BEFORE JULY 1, 1985, WHICH INDICATES YOUR PROJECT IS NOT COMPLETE. THEREFORE, YOU NEED TO BE AWARE OF CHANGES IN IDAHO LAW, EFFECTIVE JULY 1, 1985, WHICH IMPACT ALL WATER PERMITS ISSUED BY THIS DEPARTMENT.

SPECIFICALLY, PURSUANT TO SECTION 42-203D, IDAHO CODE, THE DEPARTMENT MUST REVIEW ALL PERMITS FOR WHICH DEVELOPMENT OF WATER USE WAS NO COMPLETED ON OR BEFORE JULY 1, 1985, TO DETERMINE IF THEY MEET THE NEW REQUIREMENTS OF CHAPTER 2, TITLE 42, IDAHO CODE. RULES AND REGULATIONS GOVERNING THE RE-EVALUATION OF PERMITS ARE NOT YET FINALIZED. HOWEVER, IF YOU COMPLETED THE DEVELOPMENT UNDER YOUR PERMIT BEFORE JULY 1, 1985, YOU SHOULD SUBMIT A PROOF OF BENEFICIAL USE STATEMENT, STATING THAT THE PROJECT WAS COMPLETED BEFORE JULY 1, 1985 SO THAT YOUR PERMIT WILL NOT BE SUBJECT TO THE REVIEW REQUIREMENTS OF SECTION 42-203D, WHICH READS AS FOLLOWS:

42-203D. REVIEW OF PERMITS - OPPORTUNITY FOR HEARING. - (1)THE DEPARTMENT SHALL REVIEW ALL PERMITS ISSUED PRIOR TO THE EFFECTIVE DATE [JULY 1, 1985] OF THIS SECTION, EXCEPT TO THE EXTENT A PERMIT HAS BEEN PUT TO BENEFICIAL USE PRIOR TO JULY 1, 1985, TO DETERMINE WHETHER THEY COMPLY WITH THE PROVISIONS OF CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PROPOSED USE DOES NOT SATISFY THE CRITERIA OF CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL EITHER CANCEL THE PERMIT OR IMPOSE THE CONDITIONS REQUIRED TO BRING THE PERMIT INTO COMPLIANCE WITH CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PERMIT SATISFIES THE CRITERIA ESTABLISHED IN CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL ENTER AN ORDER CONTINUING THE PERMIT.

(2)THE DEPARTMENT SHALL PROVIDE AN OPPORTUNITY FOR HEARING IN ACCORDANCE WITH SECTION 42-1701A, IDAHO CODE, AND SECTIONS 67-5209 THROUGH 67-5215, IDAHO CODE, FOR EACH HOLDER OF A PERMIT THAT IS PROPOSED EITHER TO BE CANCELLED OR MADE SUBJECT TO NEW CONDITIONS.

YOU MAY OBTAIN PROOF OF BENEFICIAL USE FORMS FROM THE DEPARTMENT. IF YOU HAVE ANY QUESTIONS, PLEASE LET US KNOW.

SINCERELY,

L. GLEN SAXTON

Dear Loren:

With reference to your letter of October 6th, regarding our application for permit No. 47-7758, we respectfully submit the following information which you requested:

1. A sketch of the locations of the well and fish runs to be served.
2. Proof of ownership of area involved.
3. Estimate of construction cost of well and fish runs -- \$75,000.00
4. Letter from Twin Falls Bank and Trust Company on the ability to pay for such development.

I trust this is the information you require to accompany our application. If you require additional information, please don't hesitate to contact me.

Sincerely yours,

J. D. McCollum

RE: Your letter of October 6, 1981,
regarding Application for Permit No. 47-7758,
J.D. McCollum.

Dear Mr. Holmes:

With reference to paragraph four of your letter of October 6, 1981,
the following is herewith submitted:

We have in our file, Mr. McCollum's financial statement of current
date, showing a net worth in a middle low seven figure amount, with no debt.

Mr. McCollum has briefed us of the circumstances which causes him
to request the above referred to water permit. We believe Mr. McCollum has
the resources with which to cover the cost of the project, should he desire to
use them. On the other hand, should he choose to do so, this is to advise
you that this bank would consider affirmatively any application which he
might wish to make for funds to finance the cost of said well.

Sincerely,

A handwritten signature in dark ink, appearing to read "Ivan B. Skinner", is written over the typed name and title.

Re: Application for Permit No. 47-7758

Dear Mr. McCollum:

This office is currently processing your Application for Permit No. 47-7758 filed on September 25, 1981.

Since you plan to use the water for fish propagation purposes, the following items must be submitted for inclusion with your application before it can be forwarded for final action by the Director:

- 1) A plan of the proposed facility. This must be a scale drawing showing the proposed layout of the ponds on the property and giving length, width and depth dimensions of all ponds.
- OK 2) Proof of possessory interest in the land upon which the water is to be used. This may be in the form of a copy of a warranty deed, title report, sale or lease agreement, or tax notice, giving ownership and legal description of the property.
- OK 3) A detailed estimate of construction costs. This must include estimated costs of each major component of the construction plan.
- OK 4) A statement of the financial resources of the corporation, association, firm, or person making the application and the means by which the funds necessary to construct the facility are to be provided. This information will be reviewed in confidence and returned to you.

Advertising and regional office review of the application should be completed by October 26, 1981. If requested information is received by that date, no additional delay in processing will be incurred.

If you have any questions regarding these requirements, please contact me.

Very truly yours,

Loren O. Holmes
Southern Region Supervisor

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. We have allowed ample time for you to submit a galley proof to this office for review before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before OCTOBER 26, 1981.

Yours truly,

Mary A. Hill
Secretary

Encl.
