Re: Permit No. 47-7755

Gentlemen:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.

Sincerely,

INTER-DEPARTMENT MEMO — 1

FROM Allen Merritt

DATE 12/2/81

TO File 47-7755 & Trans. of 47-7221

SUBJECT Inspection of dams.

Today I met with Lawrence Heil, Sr.; we examined the diversion systems used under 47-7755 and 47-7221 Trans. The diversion dam in Sec. 22 T.9S. R.12E. located on Devil Creek was measured to be 9.9 ft. hydraulically with 4.5' of freeboard and it is estimated it empounds 10 acre feet of water. The pond located on the diversion ditch which is called Horse Res. has a dam with a hydraulic height of about 5 feet and it empounds approx. two acre-feet. The next dam in the system is D47-7221 which is on the inventory.
