ss.

N^o 10360

I, Linda Capps McQuire being first duly sworn upon
oath, depose and say that I am Quire Clerk of the TIMES-NEWS,
published daily, at Twin Falls, Idaho, and do solemnly swear that a copy of
the notice of advertisement, as per clipping attached, was published in the regular and
entire issue of said newspaper, and not in any supplement thereof, for Two
consecutive Weeks, commencing with the issue dated
July 9, 1981, and ending with the issue dated
July 16, 1981.

And I do further certify that said newspaper is a consolidation, effective February 16,
1942, of the Idaho Evening Times, published theretofore daily except Sunday, and the Twin
Falls News, published theretofore daily except Monday, both of which newspapers prior to
consolidation had been published under said names in said city and county continuously and
uninterruptedly during a period of more than twelve consecutive months, and said TIMES-
NEWS, since such consolidation, has been published as a daily newspaper except Saturday,
until July 31, 1978, at which time said newspaper began daily publication under said name
in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week
has been designated as the day on which legal notice by law or by order of any court of com-
petent jurisdiction within the state of Idaho, to be published weekly, will be published; and
that at the head of the editorial column of said combined newspapers, and in each issue there-
of, Thursday is announced as the day on which said legal notices will be published.

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF PERMIT

NO. 47-7745 IN THE NAME

OF FIRST CHURCH OF THE NAZARENE

CONTINUATION ORDER

This matter having come before the Idaho Department of Water Resources (IDWR) as a requirement of Section 42-203D, Idaho Code, the Department Finds, Concludes and Orders as follows:

FINDINGS OF FACT

1. Section 42-203D, Idaho Code, directs IDWR to review all permits issued prior to July 1, 1985, located within the Swan Falls Trust Water Area, to determine if water was beneficially used prior to said date.

2. If water was not beneficially used until after July 1, 1985, Section 42-203D further directs IDWR to review the permit under the provisions of Section 42-203C, Idaho Code.

3. Section 42-203C requires IDWR to determine whether diversion of water under a permit issued prior to July 1, 1985, causes a significant reduction of trust water available for power production and, if there is a significant reduction, to determine whether the reduction is in the public interest.

4. Permit No. 47-7745 (permit) was issued to First Church of the Nazarene (permit holder) authorizing the diversion of 0.7 cfs of groundwater for irrigation of 10 acres.

5. Information submitted by the permit holder shows that the irrigation of the 10 acres authorized under this permit did not begin prior to July 1, 1985.

SEP 26 1989

6. The development and use of water authorized under this permit does not cause a significant reduction of trust water.

CONCLUSIONS OF LAW

1. The water authorized for diversion under Permit No. 47-7745 is trust water.

2. The use of water under the permit satisfies the provisions of Sections 42-203C and 42-203D, Idaho Code.

3. An order continuing the permit shall be issued.

ORDER

IT IS HEREBY ORDERED that Permit No. 47-7745 is valid and may CONTINUE as provided in Section 42-203D, Idaho Code, subject to the following additional conditions and limitations:

1. Proof of construction of works and application of water to beneficial use shall be submitted to IDWR on or before August 1, 1992.

2. The use of trust water authorized by this right is subject to review 20 years after the date of this order to determine availability of trust water and to reevaluate the public interest.

3. The construction of diversion works must be commenced within one (1) year of the date of this order and shall proceed diligently and uninterruptedly to completion unless temporarily interrupted by circumstances over which the permit holder has no control.

4. Diversion and use of trust water under this right is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.

5. The Director retains jurisdiction of this right to change, add or remove any requirement as determined to be appropriate.

MICROFILMED

~~SEP 26 1992~~

6. The Department retains jurisdiction of the permit to require re-injection of the water if determined to be necessary.

7. Irrigation use is authorized only after the heat in the water has been beneficially used for a purpose other than irrigation.

8. All conditions of approval contained on the permit are incorporated into and made part of this order.

Dated this 18th day of September, 1989.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 47-7745, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before October 1, 19 86.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other:

An access port of other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

The issuance of this permit in no way grants any right-of way or easement across the land of another.

Return flow if discharged to a subsurface system must be authorized by a separate injection well permit, and return flow if discharged to a surface water system shall meet Idaho Water Quality Standards.

Witness my hand this 15th day of Sept, 1981.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 47-07745

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, which became affective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner. Failure to maintain current records with the department could result in the assessment of a monetary penalty.

If you have questions concerning the field examination, please contact the department's SOUTHERN Regional Office in Twin Falls, Idaho at (208)736-3033.

Sincerely,

L. GLEN SAXTON, Chief

NOTE: BEFORE ANY DRY PIPE VALVE IS TRIP TESTED, THE WATER SUPPLY LINE TO IT SHOULD BE THOROUGHLY FLUSHED. THE TWO INCH DRAIN BELOW THE VALVE SHOULD BE OPENED WIDE, AND WATER AT FULL PRESSURE SHOULD BE DISCHARGED LONG ENOUGH TO CLEAR THE PIPE OF ANY ACCUMULATION OF SCALE OR FOREIGN MATERIAL. IF THERE IS A HYDRANT ON THE SUPPLY LINE, THIS HYDRANT SHOULD BE FLUSHED BEFORE THE TWO INCH DRAIN IS OPENED. THE DRIP VALVE ON THE DRY PIPE VALVE SHOULD BE CHECKED BEFORE TRIPPING THE DRY PIPE VALVE, TO SEE THAT IT IS IN OPERATING CONDITION.

PROOF DUE NOTICE

RE: PERMIT NO. 47-07745

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1997.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

Re: Permit No. 47-07745

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to October 1, 1994. Please note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional requests.

If you have any questions or if I can be of any further assistance, please feel free to contact this office.

FROM: NORM YOUNG

RE: EXTENSION OF MORATORIUM

Enclosed is a copy of an order extending the order designating the Twin Falls Low-Temperature Geothermal Moratorium Area. I appreciated the attendance of many of the users at the public information meeting on this matter held in Twin Falls last week. I understood those in attendance favored an extension of the moratorium, and some of the users were encouraging that the size of the area be increased and that additional actions be taken to protect artesian pressures. I indicated at the meeting that the moratorium would be extended without modification to keep its continuity and that IDWR will schedule as time and resources permit a review of the following matters:

- Expansion of the area.
- The need for repair or reconstruction of wells in and adjacent to the area.
- Evaluate the adequacy of the agreement to manage pumpage to prevent withdrawal in excess of the average rate of recharge or to maintain artesian pressures in the public interest.
- Review need for and adequacy of monitoring programs.

With respect to monitoring, the data recorded by the USGS from the well at the Nazarene Church is an important part of the information now being collected. The Church will soon be finished and will be using water from the well. Data from an unused well is more reliable for evaluating aquifer conditions. USGS and IDWR are evaluating alternatives for replacing this source of data. If you are aware of a well that is finished into the low-temperature geothermal aquifer and is not being used, please call Loren Holmes, IDWR Regional Manager at Twin Falls, a call at 736-3033.

Dear Permit Holder:

The Department is in receipt of the Request for Extension of Time you submitted in connection with the above referenced permit.

As I'm sure you are aware, this permit is included in a five (5) year moratorium issued by the Director of the Department of Water Resources. That moratorium expires this month. Therefore, the I will hold your extension without action until the Department takes action to extend or rescind the moratorium.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

MEMORANDUM

To: Karen
From: Glen *WJH*
RE: EXTENSION REQUEST - 47-7745
Date: July 21, 1992

The litigation involving this permit and some other users of the low temperature geothermal water resource was resolved in an agreement which we refer to as the College of Southern Idaho (CSI) agreement signed in about July 1987. While the Swan Falls matter could have affected development, the litigation here really was the CSI controversy.

To summarize the story, a number of competing users for the warm water resource agreed to limit their uses to less than the amount individually permitted. The Director then issued a 5-year moratorium in which the department would monitor the temperature, pressure and discharge from some of the wells.

The 5-yr moratorium is now about over (July 1992) and the department is considering extending the moratorium since the aquifer has not improved in discharge, pressure or temperature. George Austiguy has been reviewing monitored data.

As permits involved in the agreement have come up, the department has acknowledged receipt of the extension requests but has declined to take action on the requests until the status of continuing or rescinding the moratorium has been determined.

In this case, I suggest we do the same thing. i.e. acknowledge receipt of the extension request but advise the permit holder the department will not take action on the request or any similar requests for other permits affected by the CSI agreement until the department takes action to extend or rescind the 5 year moratorium which expires this July.

First Church of the Nazarene in Twin Falls has a two phased plan in place for the purpose of completing a church complex that will include both a fellowship hall and Sunday School rooms and sanctuary. We are in the process of building the fellowship hall, with expected completion in early Fall of 1992. This fellowship hall will be heated with the geothermal well in place, and it is our desire to also heat the other facility when it is completed. It is our desire to begin building the second phase of the plan within two years, and thus be able to provide proof of beneficial use. We therefore desire a 5 year extension of time to October 1, 1997. The approximate total expenditure to date for this project is the \$66,000.00 outlined on the previous extension, \$50,000.00 for road completion and architect, and a proposed cost of \$350,000.00 for the fellowship hall for a total of \$466,000.00.

RE: PERMIT NO. 47-07745

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

RE: INQUIRY RELATIVE TO AN EXTENSION REQUEST
Date: Janaury 24, 1992

Loren Holmes called today in response to an inquiry from the permit holder wanting to know if the department can grant another extension of time for this permit. I reviewed the file and determined that some development has occurred and that the permit has been involved in litigation. Since the department has granted only one extension of time for one of the authorized reasons, the department can grant another extension for the other reason.

Loren has been asked by the permit holder to respond to the question in writing. Loren will do so.

Development to date on the property includes drilling of a 1300 ft well, testing and development of flow. Total cost of the well was \$40,000. An agreement with the City of Twin Falls for disposal of the geothermal effluent has been negotiated. The well is being used cooperatively with the U.S. Geological Survey as a continuous observation well for the geothermal equifer. Litigation on the geothermal aquifer has imparted the church's ability to pursue building plans due to the uncertainty of the geothermal heat source.

Dear PERMIT HOLDER:

Due to the Swan Falls litigation, development proposed by the enclosed permit may have been delayed. The Department is presently reviewing the permit and may authorize completion of development proposed under the permit.

The purpose of this letter is to determine: (1) the extent of development under the permit, and (2) your continued interest in developing or completing development under the permit.

Enclosed are two forms which will help the Department expedite the reprocessing of the permit.

Please complete and return the enclosed questionnaire if you wish to continue with your plans of development or have completed all or a portion of your development before July 1, 1985.

Please complete the enclosed relinquishment form and return it to the Department if you have abandoned or have no interest in continuing with your plans for development of the project.

If the entire project was not completed prior to July 1, 1985, and you still wish to proceed with your plans of development, then you must submit a \$20.00 re-advertisement fee to the Department as required by Water Appropriation Rule 4,2,3. and Section 42-221F, Idaho Code.

Failure to return the questionnaire and pay any required re-advertisement fee within thirty (30) days of the date of this letter is cause for the Department to cancel the permit.

Re: Order Establishing a Five Year Moratorium for a Portion
of the Twin Falls Ground Water Management Area

Dear Water Right Holder:

Enclosed is a copy of the order of the Department of Water Resources establishing a five year moratorium for a portion of the Twin Falls Ground Water Management Area which I issued July 24, 1987. The order generally limits the approval of new applications and further development under existing permits to appropriate thermal water within the affected area except in accordance with the Agreement of July 22, 1987, which I executed on behalf of the Department and which has been or will be executed by some or all of the parties to Twin Falls County Civil Case No. 37298 entitle College of Southern Idaho v. The Idaho Department of Water Resources, et al.

Paragraph 20 of the agreement provides:

20. The parties hereto agree that the amounts of the diversions as set out in paragraphs 2 through 12 are reasonable and each agrees not to protest, seek abandonment or forfeiture, or otherwise contest the amount of the agreed diversions of the other parties hereto during the term of this moratorium or any extension thereof, so long as the water is beneficially applied to use.

The Department hereby agrees to recognize the provisions of paragraph 20 as to all potential parties to the agreement through August 21, 1987 in order to allow adequate time for all potential parties to review and execute the agreement. Thereafter, the rights of potential parties that have not executed the agreement will be subject to the types of action described in paragraph 20.

I believe that the agreement and the moratorium address the problems within the thermal ground water area in a fair and reasonable manner and urge all parties to execute the agreement.

Gentlemen:

Re: Permit No. 47-7745

The department has reviewed the request for extension of time submitted in connection with the above referenced permit. The department will hold the request without action until the permit is reprocessed in compliance with the provisions of Sec. 42-230D, Idaho Code. Upon completion of reprocessing, an appropriate development period will be granted if the permit is to be continued.

Please feel free to contact this office if you have any questions.

Sincerely,

L. GLEN SAXTON

PROOF DUE NOTICE

RE: PERMIT NO. 47-7745

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF THE ABOVE REFERENCED WATER PERMIT WAS THAT PROOF OF THE EXTENT OF YOUR BENEFICIAL USE MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE OCTOBER 1, 1986. (SEE LAST PAGE OF YOUR APPROVED PERMIT OR YOUR LAST APPROVED EXTENSION REQUEST.) ENCLOSED IS A FORM WHICH WHEN ACCOMPANIED BY THE LICENSE EXAMINATION FEE OR A COMPLETED FIELD EXAMINATION REPORT PREPARED BY A CERTIFIED WATER RIGHT EXAMINER MAY BE USED TO SUBMIT THE REQUIRED PROOF.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU OR A PREVIOUS OWNER OF THIS PERMIT HAVE NOT RECEIVED A PRIOR EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME IF THE DELAY IS FOR REASONABLE CAUSE AS PROVIDED IN SECTION 42-204, IDAHO CODE. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION WHICH MIGHT BRING TITLE TO THE WATER IN QUESTION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. AN EXTENSION OF TIME REQUEST FORM IS ENCLOSED FOR YOUR CONVENIENCE.

EITHER AN ACCEPTABLE PROOF OF BENEFICIAL USE SUBMITTAL OR AN ACCEPTABLE REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE DESCRIBED PROOF DUE DATE. IF NEITHER IS RECEIVED, THE DEPARTMENT WILL SEND YOU A LAPSE NOTICE. WITHIN SIXTY (60) DAYS OF THE MAILING OF THE LAPSE NOTICE, THE PERMIT WILL NO LONGER BE OF ANY FORCE NOR EFFECT.

SINCERELY,

RITA FLECK

DEAR PERMIT HOLDER:

ACCORDING TO OUR RECORDS, YOU ARE THE HOLDER OF A WATER PERMIT ON WHICH PROOF OF BENEFICIAL USE OF WATER WAS NOT SUBMITTED BEFORE JULY 1, 1985, WHICH INDICATES YOUR PROJECT IS NOT COMPLETE. THEREFORE, YOU NEED TO BE AWARE OF CHANGES IN IDAHO LAW, EFFECTIVE JULY 1, 1985, WHICH IMPACT ALL WATER PERMITS ISSUED BY THIS DEPARTMENT.

SPECIFICALLY, PURSUANT TO SECTION 42-203D, IDAHO CODE, THE DEPARTMENT MUST REVIEW ALL PERMITS FOR WHICH DEVELOPMENT OF WATER USE WAS NO COMPLETED ON OR BEFORE JULY 1, 1985, TO DETERMINE IF THEY MEET THE NEW REQUIREMENTS OF CHAPTER 2, TITLE 42, IDAHO CODE. RULES AND REGULATIONS GOVERNING THE RE-EVALUATION OF PERMITS ARE NOT YET FINALIZED. HOWEVER, IF YOU COMPLETED THE DEVELOPMENT UNDER YOUR PERMIT BEFORE JULY 1, 1985, YOU SHOULD SUBMIT A PROOF OF BENEFICIAL USE STATEMENT, STATING THAT THE PROJECT WAS COMPLETED BEFORE JULY 1, 1985 SO THAT YOUR PERMIT WILL NOT BE SUBJECT TO THE REVIEW REQUIREMENTS OF SECTION 42-203D, WHICH READS AS FOLLOWS:

42-203D. REVIEW OF PERMITS - OPPORTUNITY FOR HEARING. - (1)THE DEPARTMENT SHALL REVIEW ALL PERMITS ISSUED PRIOR TO THE EFFECTIVE DATE [JULY 1, 1985] OF THIS SECTION, EXCEPT TO THE EXTENT A PERMIT HAS BEEN PUT TO BENEFICIAL USE PRIOR TO JULY 1, 1985, TO DETERMINE WHETHER THEY COMPLY WITH THE PROVISIONS OF CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PROPOSED USE DOES NOT SATISFY THE CRITERIA OF CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL EITHER CANCEL THE PERMIT OR IMPOSE THE CONDITIONS REQUIRED TO BRING THE PERMIT INTO COMPLIANCE WITH CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PERMIT SATISFIES THE CRITERIA ESTABLISHED IN CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL ENTER AN ORDER CONTINUING THE PERMIT.

(2)THE DEPARTMENT SHALL PROVIDE AN OPPORTUNITY FOR HEARING IN ACCORDANCE WITH SECTION 42-1701A, IDAHO CODE, AND SECTIONS 67-5209 THROUGH 67-5215, IDAHO CODE, FOR EACH HOLDER OF A PERMIT THAT IS PROPOSED EITHER TO BE CANCELLED OR MADE SUBJECT TO NEW CONDITIONS.

YOU MAY OBTAIN PROOF OF BENEFICIAL USE FORMS FROM THE DEPARTMENT. IF YOU HAVE ANY QUESTIONS, PLEASE LET US KNOW.
