MEMORANDUM

TO: FILE/PERMIT NO. 47-7744

FROM: TIM LUKE

RE: SWAN FALLS PROCESSING

DATE: 6/7/89

The permit holder responded to the department's trust water information questionnaire by submitting a photocopy of a 1984 aerial photo from the ASCS. The photocopy is not particularly clear. However, Terry Blau of our Twin Falls office, conducted the field exam for this permit and used the same aerial photo for determining number and location of irrigated acres. Terry also assisted the permit holder in completing the trust water questionnaire. Terry has informed that the original photo shows the lands as irrigated in 1984. The file also shows that the permit holder submitted proof on September 11, 1985. It appears that the proof was filed in direct response to Glen Saxton's September 1, 1985 memo advising permittees to file proof if their projects were complete prior to July of 1985.

Permits for which development was complete prior to 7/1/85 are exempt from the review requirements of Section 42-203D, Idaho Code, i.e.; Swan Falls processing. This file is therefore exempt from Swan Falls review and should be removed from the Swan Falls process list.

The department should proceed with review of the field exam for licensing.

PLEASE COMPLETE AND RETURN THE ENCLOSED RELINQUISHMENT FORM.

INSTRUCTIONS: Please answer the following questions as
thoroughly as possible and submit the \$20.00 readvertisement
fee if applicable.

1. Did irrigation occur on the lands identified under your
permit prior to July 1, 1985? Yes ☒ No ☐

If yes, you are requested to submit clear evidence that shows the
number and location of acres irrigated.

Aerial photographs taken prior to July 1, 1985, located in area
ASCS offices, are best forms of evidence. Photos submitted to the
the Department must be accompanied by a signed statement from an
ASCS representative which verifies the photo date and that the
lands were irrigated prior to July 1, 1985. If ASCS does not have

provide the Department with a statement that photos are not avail-
able and then proceed to submit other forms of suitable evidence.

water rights which are used on the same land.

Use the reverse side of this form if you wish to add any comments.

I hereby assert that the responses provided above are true to the
best of my knowledge. I understand that any willful misrepresentations
may result in voiding of the application.

RE: PERMIT NO. 47-7744

Dear PERMIT HOLDER:

Due to the Swan Falls litigation, development proposed by the enclosed permit may have been delayed. The Department is presently reviewing the permit and may authorize completion of development proposed under the permit.

The purpose of this letter is to determine: (1) the extent of development under the permit, and (2) your continued interest in developing or completing development under the permit.

Enclosed are two forms which will help the Department expedite the reprocessing of the permit.

Please complete and return the enclosed questionnaire if you wish to continue with your plans of development or have completed all or a portion of your development before July 1, 1985.

Please complete the enclosed relinquishment form and return it to the Department if you have abandoned or have no interest in continuing with your plans for development of the project.

If the entire project was not completed prior to July 1, 1985, and you still wish to proceed with your plans of development, then you must submit a \$20.00 re-advertisement fee to the Department as required by Water Appropriation Rule 4,2,3. and Section 42-221F, Idaho Code.

Failure to return the questionnaire and pay any required re-advertisement fee within thirty (30) days of the date of this letter is cause for the Department to cancel the permit.

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers or geologists certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing of certified water

right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department office.
