Dear Rev. Glatz:

Thank you for your letter of inquiry dated July 11, 1989. As you are aware, the original permit for this right was approved for ten (10) acres of irrigation. However, a water right is established based upon the water which is actually placed to beneficial use. This is determined by our examiner at the time of the field examination.

The proof of beneficial use form that you submitted in 1985 listed three acres of irrigation and our examiner found four acres, hence, the use of four acres on the license.

Please contact this office if you have further questions.

Dear Mr. Johnson:

I noticed in our copy of the proposed water right license that we are being considered for 4 acres of irrigated land. We are presently irrigating 6 acres, and under the May 18, 1981 permit, before the Swans Falls litigation, we were approved for 10 acres. I have enclosed a copy of that application permit that was approved.

Please reconsider this present proposal. Thank you.

8" X 160' well with 7.5 hp submersible pump buried pipeline to two super 600 sprinklers and approx 20 hand lines with assorted rainbird sprinklers. pressure varies from 28 to 44 psi. Pump set to turn on @ 40 psi & off at 40 psi. Arnold Elsing who drilled well & installed pump stated that he believes p.w.l. is around 140'. His pump chart for that pump shows the capacity is 80 gpm @ 40 psi + 140' p.w.l. with sprinklers running at their min. design operating pressure of 25 psi. Capacity would be near 100 gpm.

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers or geologists certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing of certified water

right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department office.
