INTER-DEPARTMENT MEMO — 1

FROM Kay Walker

DATE August 2, 1985

TO File 47-7690

SUBJECT Priority Date of License Issued 11/30/1981

During review of this file, it was determined that the priority date on the license was in error. The application shows the date received as January 6, 1980; however, it was actually received on January 6, 1981. Evidence of the error in priority date is shown in the advertising dates (i.e. advertised on 1/28 and 2/5/1981). The advertisement also shows a January 6, 1981, priority date.

In view of this, I believe the original license should be amended to reflect the actual date of priority which is January 6, 1981.

Re: Permit No. 47-7690

Dear Mr. & Mrs. Day:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.
