Re: Permit No. 47-7651

Gentlemen:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.

Dear Mr. Mays:

Re: Permit Nos. 71-7056 and 71-7651 (47-7651)

Pursuant to your letter, I have done some research on Permit Nos. 71-7056 and 71-7651.

Permit No. 71-7056 had no record of your request to cancel it. Consequently no action had been taken to eliminate it from our records. Upon receipt of this letter, consider the permit cancelled and of no further force or effect.

For Permit No. 71-7651, the statement of beneficial use was received but our records showed no water right with that number. Upon further research, I found a file which matched the description, however, the number is 47-7651. The statement of beneficial use has been placed with the file and our processing has continued.

I'm sorry for any inconveniences you may have incurred and if I can be of further assistance, please feel free to contact me.
