2. Benefits After Acquisition of Title

If an insured owner of the indebtedness secured by a mortgage described in Schedule B acquires said estate or interest, or any part thereof, by foreclosure, trustee's sale, or other legal manner in satisfaction of said indebtedness, or any part thereof, or if a federal agency or instrumentality acquires said estate or interest, or any part thereof, as a consequence of an insurance contract or guaranty insuring or guaranteeing the indebtedness secured by a mortgage covered by this policy, or any part thereof, this policy shall continue in force in favor of such Insured, agency or instrumentality, subject to all of the conditions and stipulations hereof.

3. Exclusions From the Coverage of This Policy

This policy does not insure against loss or damage by reason of the following:

- (a) Any law, ordinance or governmental regulation (including but not limited to building and zoning ordinances) restricting or regulating or prohibiting the occupancy, use or enjoyment of the land, or regulating the character, dimensions, or location of any improvement now or hereafter erected on said land, or prohibiting a separation in ownership or a reduction in the dimensions or area of any lot or parcel of land.

- (d) Defects, liens, encumbrances, adverse claims against the title as insured or other matters (1) created, suffered, assumed or agreed to by the Insured; or (2) known to the Insured either at the date of this policy or at the date such Insured acquired an estate or interest insured by this policy and not shown by the public records, unless disclosure thereof in writing by the Insured shall have been made to the Company prior to the date of this policy; or (3) resulting in no loss to the Insured; or (4) attaching or created subsequent to the date hereof; or (5) mechanics' or materialmen's liens not shown of record at the date hereof.
- (e) Claims against the estate or interest of an individual Insured based upon the homestead, community property, dower, curtesy or other statutory marital rights of the spouse of any such Insured.

- (g) Usury or claims of usury.
- (h) "Consumer credit protection," "truth in lending" or similar law.

4. Defense and Prosecution of Actions—Notice of Claim to be Given by the Insured

(a) The Company, at its own cost and without undue delay, shall provide (1) for the defense of the Insured in all litigation consisting of actions or proceedings commenced against the Insured, or defenses, restraining orders, or injunctions interposed against a foreclosure or sale of the indebtedness secured by a mortgage covered by this policy, or a sale of the estate or interest in said land; or (2) for such action as may be appropriate to establish the title of the estate or interest of the Insured or the lien of the mortgage as insured, which litigation or action in any of such events is founded upon an alleged defect, lien or encumbrance insured against by this policy, and may pursue any litigation to final determination in the court of last resort.

(b) In case any such action or proceeding shall be begun, or defense interposed, or in case knowledge shall come to the Insured of any claim of title or interest which is adverse to the title of the estate or interest or lien of the mortgage as insured, or which might cause loss or damage for which the Company shall or may be liable by virtue of this policy, or if the Insured shall in good faith contract to sell the indebtedness secured by a mortgage covered by this policy, or if the Insured in good faith contract to sell, lease or mortgage the same, or if the successful bidder at a foreclosure sale, under a mortgage covered by this policy refuses to purchase and in any such event the title to said estate or interest is reflected as unmarketable, the Insured shall not, the Company thereof in writing. If such notice shall not be given to the Company within ten days of the receipt of process or pleading, or if the Insured shall not, in writing, promptly notify the Company of any such defect, lien, or encumbrance insured against which shall come to the knowledge of the Insured, or if the Insured shall not, in writing, promptly notify the Company of any such defect, lien, or encumbrance insured against which shall come to the knowledge of the Insured, then all liability of the Company in regard to the subject matter of such action, proceeding or matter shall cease and terminate, provided, however, that failure to notify shall in no case prejudice the claim of any Insured unless the Company shall be actually prejudiced by such failure and then only to the extent of such prejudice.

(c) The Company shall have the right at its own cost to institute and prosecute any action or proceeding or do any other act which in its opinion may be necessary, or desirable to establish the title of the estate or interest, or the lien of the mortgage as insured, and the Company may take any appropriate action under the terms of this policy whether or not it shall be liable thereunder and shall not thereby concede liability or waive any provision of this policy.

(d) In all cases where this policy permits or requires the Company to prosecute or provide for the defense of any action or proceeding, the Insured shall secure to it the right to so prosecute or provide defense in such action or proceeding, and all appeals therefrom, and permit it to use, at its expense, all the Insured for such purpose. Whenever requested by the Company, the Insured shall give the Company all assistance in any such action or proceeding, in effecting settlement, securing witnesses, or prosecuting or defending such action or proceeding, and the Company shall reimburse the Insured for any expense so incurred.

RE: Water Right No. 47-07635

Dear Water Right Holder(s):

On May 19, 1992, the department sent you a letter advising that you might be required to temporarily cease diverting water from the Snake River or its tributaries if the established minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second measured near Weiser is not satisfied or likely will not be satisfied.

The flow of the Snake River at Weiser is now less than 4,750 cfs. You are, therefore, directed to immediately cease diverting water under the above referenced water right and to not resume use until authorized by the department.

Past flow records show that the duration of seasonal low flow periods typically last several days to a week. Since your use of water is extremely important to you and since mail notification includes a delay associated with mail delivery time, feel free to call the toll-free telephone number 1-800-451-4129 to determine when you are again authorized to divert and use water under your water right. Please use this phone number only in connection with resumption of use.

You need to be aware that Section 42-351, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

RE: Water Right No. 47-07635

Dear Water Right Holder(s):

On June 8, 1992, the department sent you a letter which directed you to immediately cease diverting water under the above referenced water right, since the minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second (cfs) measured near Weiser was not being satisfied.

The flow of the Snake River at Weiser is now above 4,750 cfs. You are, therefore, authorized to again divert water under your water right. If the minimum stream flow is not met later this year, however, the department will again notify you to temporarily cease diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement purposes. This type of coordination could minimize the impact on

existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,
2112 Cleveland

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

Sincerely,

L. GLEN SAXTON

Dear Mr. Millard:

I have received your correspondence concerning the above referenced permits and offer the following in response.

Permit No. 47-7635 does not require an amendment. We simply sent a copy of the proposed license for your review. There were no changes in the legal descriptions or natures of use from what was originally filed, therefore, an amendment is not needed.

Permit No. 47-7636, however, requires an amendment. Enclosed is a copy of the original filing which I have highlighted to show the areas needing amendment. Also enclosed is another complete amendment form for your signature. This form needs to be returned to us within 30 days along with the \$20.00 filing fee.

As to your final concern regarding the advancement in the dates of priority on these rights, our files indicate that an examination fee notice was sent for each of the permits on August 12, 1986. The notice stated that you needed to submit within 60 days either a fee to cover the examinations by one of our departmental personnel or a statement from a certified examiner (such as Mr. Brockway) stating that he had been retained to complete the examinations. We have nothing in our files to indicate that you originally planned for Mr. Brockway to conduct the exams. Because the fees and the information sheets were not received within the 60-day period, lapse notices were subsequently sent on August 12, 1987. It was then on September 18, 1987 that the fees and information sheets were received by

our office. The permits were reinstated and the priority dates were adjusted to reflect this delay in submitting the fees.

Once the amendment is received along with its filing fee, licenses will be issued for both permits. If you have any further questions, please feel free to contact me.

RE: Permit Nos. 47-7635 & 47-7636

Crystal Springs Ranch

Gentlemen:

The Department has reviewed the above referenced files and some aerial photography available here at the state office. Based on this review, it appears that the lands under these permits which have been recommended for licensing were irrigated prior to July, 1985. As a result, the permits are not subject to the additional public interest review requirements of Section 42-203D, Idaho Code.

Due to this determination, you should disregard both the Department's cancellation notice dated May 23, 1989 and the April 6, 1989 trust water information letter and questionnaire. It is also not necessary for you to submit the \$20.00 re-advertisement fee which was requested in the April 6 letter.

The Department will proceed with review of the field examinations and work towards issuance of final licenses.

On behalf of the Department, I apologize for any inconvenience we may have caused.

Sincerely,

RE: SWAN FALLS PROCESSING
PERMIT NO. 47-7635 & 47-7636

DATE: 6-5-89

=====

The above referenced permits have recently come up for review under Section 42-203D, Idaho Code. In response to the department's trust water questionnaire, the permit holder called me directly and stated that the lands were irrigated prior to July of 1985.

The files do contain evidence indicating that the lands described under the permits were developed prior to July of 1985. Proof of beneficial use for both permits were filed on September 3, 1985. The proof due date for both permits was September 1, 1985. The permit holder may have submitted proof in direct response to Glen Saxton's letter of September 1, 1985. This letter directed permit holders to file proof if their permits were developed before July of 1985. Field examinations have since been conducted for both permits. The field report recommends that licenses be issued for considerably less acreage than what was originally identified on the permits.

In addition to the above file review, I have also looked at 1983 aerial photography which covers these lands and is available here at the department. Since the proposed irrigated lands lie along the Snake River and are intermixed with riparian lands, it was difficult to clearly identify whether certain lands were riparian or irrigated. The field reports provide an indication that the irrigated lands consisted of pasture or grass. The lands are apparently flood irrigated with ditches. This type of irrigation system often does not show up well on aerials as irrigated ground and can often be interpreted as riparian or bare ground coverage. Bill Kramber, a remote sensing specialist with the department, has studied the 1983 photo and has stated that portions of the lands can indeed be classified as irrigated.

MICROFILMED

DEC 11 1991

Based on the above reviews, there appears to be sufficient evidence on file with the department indicating that the lands recommended for licensing were irrigated prior to July of 1985. Permits 47-7635 and 47-7636 should be exempt from any further review or process requirements of Section 42-203D and be removed from the Swan Falls process list. The department can proceed with reviewing the field exams for licensing.

Re: Permit No. 47-7635

Dear Permit Holder(s):

NOTICE OF PENDING ORDER CANCELLING PERMIT

On September 5, 1980, the Department of Water Resources (Department) issued Permit No. 47-7635 which authorized the diversion of 2.48 of water from Twin Falls Canal #39 wasteway tributary to Snake River for the irrigation of 124 acres.

The Department mailed a letter and questionnaire to you on April 6, 1989 in connection with the permit. The letter provided notice that the Department was reviewing the permit in connection with development which was not complete prior to July 1, 1985.

This letter also requested that you return the Department's questionnaire concerning any prior development under the permit and/or your plans for pursuing completion of the proposed project. The correspondence further requested that you submit with the questionnaire either a re-advertisement fee in the amount of twenty dollars (\$20) and/or evidence showing that development under the permit was complete prior to July 1, 1985. Finally, the letter notified you that failure to submit the required fee or information within thirty (30) days of the date of the letter was cause for the Department to cancel the permit.

The purpose of this letter is to provide a second and final opportunity for you to submit the requested information. If you fail to respond to this inquiry within fifteen (15) days of the date of this letter, the Department will issue an order cancelling the permit pursuant to Water Appropriation Rule 4,2,3,4.

If no development has been completed as authorized by the permit, and you are no longer interested in pursuing the development, please complete and return the enclosed relinquishment form.

Please feel free to contact me if you have any questions concerning this matter.

Sincerely,

TIM LUKE

RE: PERMIT NO. 47-7635

Dear PERMIT HOLDER:

Due to the Swan Falls litigation, development proposed by the enclosed permit may have been delayed. The Department is presently reviewing the permit and may authorize completion of development proposed under the permit.

The purpose of this letter is to determine: (1) the extent of development under the permit, and (2) your continued interest in developing or completing development under the permit.

Enclosed are two forms which will help the Department expedite the reprocessing of the permit.

Please complete and return the enclosed questionnaire if you wish to continue with your plans of development or have completed all or a portion of your development before July 1, 1985.

Please complete the enclosed relinquishment form and return it to the Department if you have abandoned or have no interest in continuing with your plans for development of the project.

If the entire project was not completed prior to July 1, 1985, and you still wish to proceed with your plans of development, then you must submit a \$20.00 re-advertisement fee to the Department as required by Water Appropriation Rule 4,2,3. and Section 42-221F, Idaho Code.

Failure to return the questionnaire and pay any required re-advertisement fee within thirty (30) days of the date of this letter is cause for the Department to cancel the permit.

LAPSE NOTICE License Examination Fee

You are hereby notified that under the provisions of Section 42-217 and 42-218a, Idaho Code, the above referenced permit will lapse and be of no further force nor effect on October 12, 1987, for failure of the permit holder to submit either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

The Department notified you of the required submittal on August 12, 1986.

The lapsed permit can be reinstated upon a showing of reasonable cause for late submittal of proof of beneficial use, if you submit to the Department on or before December 11, 1987, either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers or geologists certified by the department to conduct water right examinations. The procedure for certifying examiners, results from the recently enacted HB 671 and is being developed at this time. A listing of certified water

right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department office.

7. Payment of Loss

(a) The liability of the Company under this policy shall in no case exceed, in all, the actual loss of the Insured and costs and attorneys' fees which the Company may be obligated hereunder to pay.

(b) The Company will pay, in addition to any loss insured against by this policy, all costs imposed upon the Insured in litigation carried on by the Company for the Insured, and all costs and attorneys' fees in litigation carried on by the Insured with the written authorization of the Company.

(c) No claim for damages shall arise or be maintainable under this policy (1) if the Company, after having received notice of an alleged defect, lien or encumbrance not excepted or excluded herein removes such defect, lien or encumbrance within a reasonable time after receipt of such notice, or (2) for liability voluntarily assumed by the Insured in settling any claim or suit without written consent of the Company, or (3) in the event the title is rejected as unmarketable because of a defect, lien or encumbrance not excepted or excluded in this policy, until there has been a final determination by a court of competent jurisdiction sustaining such rejection.

(d) All payments under this policy, except payments made for costs, attorneys' fees and expenses, shall reduce the amount of the insurance pro tanto and no payment shall be made without producing this policy for endorsement of such payment unless the policy be lost or destroyed, in which case proof of such loss or destruction shall be furnished to the satisfaction of the Company; provided, however, if the owner of the indebtedness secured by a mortgage shown in Schedule B is an Insured herein then such payments shall not reduce pro tanto the amount of the insurance afforded hereunder as to such Insured, except to the extent that such payments reduce the amount of the indebtedness secured by such mortgage. Loss payable to the Insured under this policy shall be payable, first, to any insured owner of indebtedness secured by mortgage shown in Schedule B in the order of priority, ratably as their respective interests may appear if such ownership vests in more than one, and thereafter, or if there be no such insured owner of indebtedness, to the other Insured, ratably as their respective interests may appear. Payment in full by any person or voluntary satisfaction or release by the Insured of a mortgage covered by this policy shall terminate all liability of the Company to the insured owner of the indebtedness secured by such mortgage, except as provided in paragraph 2 hereof.

(e) When liability has been definitely fixed in accordance with the conditions of this policy the loss or damage shall be payable within thirty days thereafter.

8. Liability Noncumulative

It is expressly understood that the amount of this policy is reduced by any amount the Company may pay under any policy insuring the validity or priority of any mortgage shown or referred to in Schedule B hereof or any mortgage hereafter executed by the Insured which is a charge or lien on the estate or interest described or referred to in Schedule A and the amount so paid shall be deemed a payment to the Insured under this policy. The provisions of this paragraph numbered 8, shall not apply to an insured owner of an indebtedness secured by a mortgage shown in Schedule B unless such Insured acquires title to said estate or interest in satisfaction of said indebtedness or any part thereof.

9. Apportionment

If the land described or referred to in Schedule A is described as separate and non-contiguous parcels, or if contiguous and such parcels are not used as one single site, and a loss is established affecting one or more of said parcels but not all, the loss shall be computed and settled on a pro rata basis as if the face amount of the policy was divided pro rata as to the value on the date of this policy of each separate independent parcel to the whole, exclusive of any improvements made subsequent to the date of this policy, unless a liability or value has otherwise been agreed upon as to each such parcel by the Company and the Insured at the time of the issuance of this policy and shown by an express statement herein or by an endorsement attached hereto.

10. Subrogation Upon Payment or Settlement

Whenever the Company shall have settled a claim under this policy, all right of subrogation shall vest in the Company unaffected by any act of the Insured, and it shall be subrogated to and be entitled to all rights and remedies which the Insured would have had against any person or property in respect to such claim had this policy not been issued. If the payment does not cover the loss of the Insured, the Company shall be subrogated to such rights and remedies in the proportion which said payment bears to the amount of said loss. If loss should result from any act of the Insured, such act shall not void this policy, but the Company, in that event, shall be required to pay only that part of any losses insured against hereunder which shall exceed the amount, if any, lost to the Company by reason of the impairment of the right of subrogation. The Insured, if requested by the Company, shall transfer to the Company all rights and remedies against any person or property necessary in order to perfect such right of subrogation, and shall permit the Company to use the name of the Insured in any transaction or litigation involving such rights or remedies.

If the Insured is the owner of the indebtedness secured by a mortgage covered by this policy, such Insured may release or substitute the personal liability of any debtor or guarantor, or extend or otherwise modify the terms of payment, or release a portion of the estate or interest from the lien of the mortgage, or release any collateral security for the indebtedness, provided such act does not result in any loss of priority of the lien of the mortgage.

11. Policy Entire Contract

Any action or actions or rights of action that the Insured may have or may bring against the Company arising out of the status of the lien of the mortgage covered by this policy or the title of the estate or interest insured herein must be based on the provisions of this policy.

No provision or condition of this policy can be waived or changed except by writing endorsed hereon or attached hereto signed by the President, a Vice President, the Secretary, an Assistant Secretary or other validating officer of the Company.

12. Notices, Where Sent

All notices required to be given the Company and any statement in writing required to be furnished the Company shall be addressed to its home office, 3800 Cutshaw Avenue, Richmond, Virginia.

Dear Mr. Rosholt:

This office has completed processing of Applications for Permit No. 47-7635 and 47-7636, filed on behalf of Crystal Springs Ranch, Inc. However, the following items must be submitted for inclusion with your application before it can be forwarded for final action by the Director:

Re: Applications No. 47-7635 and 47-7636

Dear Loren:

The Twin Falls Canal Company Board of Directors has two concerns about the above applications as filed by Crystal Springs Ranch, Inc., near Cedar Draw.

While the Company has no objection to the use of the water for irrigation, fish propagation or power in the canyon, the purpose of this is to advise that wasteways 39 and 39A are mossed with chemical on an ongoing basis for operation and maintenance purposes. While such chemical is generally applied a substantial distance away, under certain conditions, traces of the chemical may find their way into the Snake River Canyon. The applicant has been made aware of this procedure which the Canal Company has employed for an excess of 20 years for demossing their system.

In addition, we would anticipate that the last use of this water will be made by Crystal Springs Ranch, Inc. To the extent that the water quality is degraded, I am sure that applicant is aware of his water quality problem. We would anticipate that if the Canal Company is ever sued for alleged water quality violations concerning these waters, that they will look to this user for indemnification.

Please do not consider this an official protest to the permit, but we request that the letter be included in the file for both permits. I have previously discussed this Company policy with Mr. Bylund.

Respectfully submitted,

John A. Rosholt

Re: Application for Permits in the name of Crystal Springs Ranch, Inc.

Dear John:

Please find enclosed the two original applications in the name of Crystal Springs Ranch, Inc. and the two corrected applications I re-typed as per our phone conversation dated 2/25/1980.

Please review the corrected applications noting the changes made regarding irrigated lands, ect. If the corrected applications appear correct, attach the maps from the original applications and have Mr. Bylund sign the corrected applications. Then re-submit the application and our office will proceed to process the applications.

Please also find enclosed an affidavit of residence which must accompany the applications involving power generation and a rough draft letter which requests additional information with regard to fish propagation applications. Please inform Mr. Bylund that he must submit this additional information as soon as possible because our office cannot recommend action on the applications without having this additional information included in the files.

If you have any questions please don't hesitate to contact me.
