WATER RIGHT LICENSE

License of Water Right No. 47-7538 Priority January 3, 1975 Amount 0.71 cfs

THIS IS TO CERTIFY, that Ronald K. & Carol S. Waller
of Redmond, Washington, has complied with the terms and conditions of Permit
No. 47-7538 issued pursuant to Application for Permit dated January 3, 1975,
and has submitted proof to the Department of Water Resources on April 4, 1980,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.71 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>March 15</u> to <u>November 15</u> at	<u>0.71</u> cfs and	<u>252.0</u> acre feet
Stockwater	from <u>January 1</u> to <u>December 1</u> at	<u>0.05</u> cfs and	<u>2.7</u> acre feet
	from _____ to _____ at _____ cfs and _____		

(both dates inclusive)

Subject, however, to the condition that no more than 0.71 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
254.7 acre feet per year, said waters to be diverted within the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 35, Twp.
11S, Rge. 18E in the County of Twin Falls

MEMORANDUM DECISION
AND ORDER

On January 3, 1975, Peter Link filed Application for Permit No. 45-7215 to appropriate 2.0 cubic feet per second of groundwater from a well to be drilled in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 35, Twp. 11 S, Rge. 18 E, B.M., Twin Falls County, to be used for the irrigation of 160 acres and stockwater purposes. Notice of this proposed appropriation was published in the Times News, Twin Falls, Idaho on January 16 and January 23, 1975.

On January 21, 1975, the Department received a protest from Mr. Champ Gray of Hansen, Idaho, based upon a possible injury to his existing water rights. A hearing concerning this matter was held at Twin Falls, Idaho, on March 7, 1975 at which the protestant and applicant were present.

Based upon the information contained in the records of the Department, the statements made at the hearing, and the Department's understanding of the law, the Director makes the following Findings of Fact, Conclusions of Law and Order:

Findings of Fact

- (1) The protestant has a water right based upon the diversion and beneficial use of water for stockwater and domestic purposes.
- (2) The applicant has the financial resources with which to complete the proposed project.
- (3) The water level in the protestants well is about 25 to 30 feet below land surface which is above the reasonable pumping lifts for this area.

Conclusions of Law

- (1) The Director of the Department of Water Resources is charged with the protection of reasonable groundwater pumping levels according to the doctrine of "first in time is first in right". However, this doctrine must be reasonably exercised so that the full economic development of the underground water resources will not be hindered.
- (2) This office concludes that the proposed development would not cause interference with other established water rights.

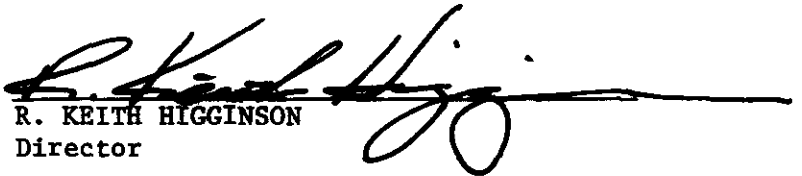

Order

IT IS, THEREFORE, ORDERED and Application for Permit No. 45-7215 is hereby APPROVED subject to the following conditions:

RECEIVED
FILMED

1. That the permit be and is subject to all prior existing water rights.
2. That proof of construction of works and application of water to beneficial use shall be submitted to the Department on or before May 1, 1980.
3. That a measuring device of a type approved by this Department shall be permanently installed and maintained as part of the diverting works.

Dear Mr. Link:

On the afternoon of 3/28/84, the secretary from our Southern Regional Office contacted me regarding the above referenced water right. She stated that you wished to have this right licensed as soon as possible.

In reviewing the file, I find that our Department has already licensed this right, but it is now in the name of Ronald K. & Carol S. Waller. In May of 1981, you assigned the right to Mr. and Mrs. Waller, therefore you no longer have any possessory interest in this water right.

If our office can be of any further assistance, please feel free to contact us.

Dear Mr. and Mrs. Waller:

A representative of this Department made an examination of the works covered by your Permit No. 47-7538 and has found the following:

Amount of water that can be recognized as beneficially used under Idaho law: 0.71 cfs Source: groundwater

The maximum quantity diverted shall not exceed 254.7 acre feet per year.

Point of diversion: SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 35, Twp. 11S, Rge. 18E, Twin Falls, County

Beneficial use: Irrigation of 63 acres and stockwater use within the NW $\frac{1}{4}$, SE $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 35, Twp. 11S, Rge. 18E

Priority date established: January 3, 1975

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

Re: Application for Permit No. 45-7215

Dear Mr. Link:

This letter acknowledges receipt of proof of beneficial use on the above referenced permit on March 28, 1980.

A field examination of the system was completed on June 20, 1980, with the following results:

Maximum system capacity:	0.71 cfs
Total acreage irrigated	63 acres
Livestock watered	200 cattle

The examination indicates that some land not originally described in the permit is irrigated. An amendment reflecting this change will be prepared and sent to you for filing prior to issuance of a license.

Very truly yours,

LOREN O. HOLMES

DEVICE REQUIREMENT FOR PERMIT NO. 47-7538

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

Referring to your letter post marked May 14, 1957 concerning the application of Peter Link, I know you have made a mistake or have received erroneous information about the well I am trying to protect.

You stated in your letter that my well is for domestic and stock purposes, that the water level is 25 to 30 feet below land level in ~~this area~~.

THE TRUE FACTS

My well is an irrigation well, license and certificate of water right is No. G-26298-Priority- April 17, 1956; I am pumping the water from a depth of well over 200 feet.

The water level has dropped 13 feet from the original water level of 13 feet.

This well is the only well in this particular area and I protested in an effort to keep what water I have.

My protest was immediately overruled at the Twin Falls Office for reasons unknown to me.

Keith sent these Memorandum Decisions & Orders back as not being complete enough in themselves.

I do not have some of the necessary information, especially that concerning the nature of the protestant's water rights, and the water levels presently in the protestants wells.

Also, on all memorandum decisions the issues that are raised at the conference or hearing should be included prior to the statement of Findings of Fact. Please give me what information you can and return the memorandums to me and we will try again.

SUBJECT Application No. 45-7125 - Peter Link

The protestant in this case owns a small well in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 34, Township 11S, Range 18E. The well is somewhere in the neighborhood of 1,000 feet deep, and is used for stockwater and domestic purposes. It is also a warm or hot water well. Water in the well comes up to about 25 to 30 feet below land surface. As far as I know, there are no permits or licenses on the well, but a use right probably exists because the well apparently predates the mandatory permit.

..... }

On January 3, 1975, Peter Link filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On January 21, 1975, the Department received a protest against approval of said application from Mr. Champ Gray.

The Department has set the matter of protest for conference and/or hearing for Friday, March 7, 1975, at 8:00 a.m., at the Department of Water Resources, 1041 Blue Lakes Blvd. North, Twin Falls, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party desiring the taking of stenographic notes by a qualified court reporter must request such in writing at least five (5) days before the date set for hearing and must submit to the director the name of a qualified reporter who is available on the date set for hearing. The party requesting the reporter shall bear the expense of the reporter's attendance fees. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestant may allow the Department without prejudice to dismiss the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

RE: Application For Permit No. 45-7215 - Peter Link

Mr. Peter Link
Route #1, Box 31
Hansen, Idaho 83334

Dear Mr. Link:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 45-7215. You should be aware that the following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of .02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required. (Section 42-202, Idaho Code)

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

Very truly yours,

Bob Haynes

Mr. Champ Gray

Dear Mr. Gray:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.
