License of Water Right No. 47-7422 Priority August 4, 1977 Amount 9.0 cfs

THIS IS TO CERTIFY, that William I. S/or Margaret E. Watts

of Ogden, Utah, has complied with the terms and conditions of Permit No. 47-7422 issued pursuant to Application for Permit dated August 4, 1977.

and has submitted proof to the Department of Water Resources on November 19, 1982

that he has applied water to a beneficial use; an examination by the Department indicates that the works have a

capacity for the diversion of 9.53 cfs of water from I-Coulee

tributary to Snake River, and that the permit holder was applied to a beneficial use and

established a right to use water as follows:

Specific Use	Period of Use	Rate of Diversion	Annual Volume
1. <u>General</u>	<u>1960-1961</u>	<u>0.0</u>	<u>100</u>

Pro. station from January 1 to December 31 at 9.0 cfs and 1.4

from _____ to _____ at _____ cis and _____

from _____ to _____ at _____ cts and _____
Each date inclusive

(both dates inclusive)

Subject, however, to the condition that no more than 9.0 cfs of water be diverted at any one time, and

that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose

limited to the amount which can actually be beneficially used and shall not exceed \$100,000. (11/15/81)

RE: Permit to Appropriate Water No. 47-7511

Dear Permit Holder:

NOTICE OF PENDING ORDER VOIDING PERMIT

On April 30, 1979, the Department of Water Resources approved an application to appropriate water, numbered 47-7511, from a spring, for domestic purposes located in the NE1/4SE1/4, S9, T9S, R15E, Twin Falls County.

Based on a field inspection conducted by a representative of our Department it has come to our attention that you have not developed the system you intended under this permit but rather intend to use water for fish propagation purposes. Use of water for fish propagation is sufficiently covered under Water Right Permit Nos. 47-7422 and 47-7925, therefore, no beneficial use of Permit No. 47-7511 has been made.

The purpose of this letter is to request that you relinquish your permit or explain why the Department should not void the permit. Enclosed is a relinquishment form that should be signed and returned to this office, unless you have some explanation that would prevent the Department from voiding your permit.

If you fail to respond to this notice within thirty (30) days of the date of mailing of this letter, the Department will act to void your permit. The permit will be voided on the grounds that you failed to divert and beneficially use the water that you were permitted to develop.

If you have any questions in regard to this matter, please feel free to contact our office.

Respectfully,

GARY SPACKMAN, Manager
Water Right Permits Section

15 * * * * *

16 COMES NOW the Twin Falls Canal Company, by and through
17 their attorneys, Nelson, Rosholt, Robertson, Walker, Tolman &
18 Tucker, and respectfully allege:

19 1. That protestant Twin Falls Canal Company is a non-
20 profit, public irrigation corporation, which owns and operates a
21 complex system of canals and ditches so as to deliver water to
22 member shareholders who farm 202,000 acres in Twin Falls County,
23 Idaho.

24 2. That Application No. 47-7511 proposes to divert
25 0.08 c/f/s of alleged waste water which previously has been
26 returned to the Twin Falls Canal system, which water is picked
27 up in the Twin Falls canal system to supply waterusers below
28 this point in the system and is delivered to many stockholders
29 whose lands are entitled to water by the Twin Falls Canal
30 Company.

31 3. That protestant has a superior right to all waste
32 water except that which belongs to applicant individually which
he might elect not to waste.

1 NOW, THEREFORE, the Twin Falls Canal Company hereby
2 protests Application No. 47-7511 for the following reasons, to-
3 wit:

4 (1) That the use proposed in Application No. 47-7511
5 reduces the quantity of water available to protestant under
6 protestant's prior rights.

7 (2) Protestant has a superior right to all waste

RE: Volume

Volume for fish propagation is based upon changes per hour. This applies to all exams conducted after the adoption of the Beneficial Use Rules and Regulations in October, 1986. This exam was conducted prior to the adoption of the rules, therefore, the volume will be listed in remarks as facility volume only.

RE: Permit to Appropriate Water No. 47-7511: Notice of Pending Order Voiding Permit

I spoke to Terry Blau and to William Watts about the Notice of Pending Order Voiding Permit which we mailed on August 30, 1990. Both Terry and Mr. Watts represent to me that the source of water is not I Coulee but is a spring which contributes fresh, clear water to the hatchery. It is a different source of water altogether, and is much more valuable than the more polluted waters of the Coulee. Mr. Watts does not want to lose a right to divert the water from the spring. The field examination was prepared to change the nature of use of the permit. I suggest that we prepare the permit for licensing.

Mr. Watts did not pay an examination fee. Ordinarily, the flow rate would be limited to .04 cfs. Mr. Watts stated that he will pay \$50 to have the license issued for 0.08 cfs. No penalty is necessary since we have not yet notified him of the deficiency. Upon receipt of an amended examination fee information sheet indicating that an examination fee has been paid, we should prepare the necessary documents.

RE: Permit to Appropriate Water No. 47-7511

Dear Permit Holder:

NOTICE OF PENDING ORDER VOIDING PERMIT

On April 30, 1979, the Department of Water Resources approved an application to appropriate water, numbered 47-7511, from a spring, for domestic purposes located in the NE1/4SE1/4, S9, T9S, R15E, Twin Falls County.

Based on a field inspection conducted by a representative of our Department it has come to our attention that you have not developed the system you intended under this permit but rather intend to use water for fish propagation purposes. Use of water for fish propagation is sufficiently covered under Water Right Permit Nos. 47-7422 and 47-7925, therefore, no beneficial use of Permit No. 47-7511 has been made.

The purpose of this letter is to request that you relinquish your permit or explain why the Department should not void the permit. Enclosed is a relinquishment form that should be signed and returned to this office, unless you have some explanation that would prevent the Department from voiding your permit.

If you fail to respond to this notice within thirty (30) days of the date of mailing of this letter, the Department will act to void your permit. The permit will be voided on the grounds that you failed to divert and beneficially use the water that you were permitted to develop.

If you have any questions in regard to this matter, please feel free to contact our office.

Respectfully,

GARY SPACKMAN, Manager
Water Right Permits Section

Spring is located 1720ft N. and 550' W. of the S.E. Cor. of Sec. 9. Twp. 9 S. R. 15 E.

Applicant wishes to change nature of use from multiple domestic to fish production.

Analysis:

Season of Use - Same

Consumptive Use - Loss

Diversion Rate - Same

This use would appear to put a lesser burden on the water than previous proposal.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

APR 08 1992

Certified water right examiners are licensed engineers or geologists certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing of certified water

right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department office.

Gentlemen:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

The exercise of this permit may also be affected by the court's determination of water rights in the case of Idaho Power Company v. State of Idaho, et al., Civil No. 62237, currently pending before the District Court of Ada County.

Idaho Power officials tell us that because of Case No. U-1006-124 filed before the Idaho Public Utilities Commission, Idaho Power Company is asking the District Court of Ada County to determine whether the Power Company's water rights on the Snake River are protected against subsequent upstream appropriations in the waters of the Snake River and surface and subterranean tributaries between Milner Dam and Hells Canyon.

Since the use of water under your permit may affect the flows in this reach of the Snake River, the final decision in Idaho Power Company v. State of Idaho, et al. (Ada County Civil No. 62237) may determine to what extent the exercise of your permit may be subject to the water rights of Idaho Power.

While the Ada County court is examining this question, Idaho Power Company has not filed a specific protest to your permit. However, the Department of Water Resources has been advised that the Power Company is not waiving any of its rights to contest or limit the exercise of your permit or a subsequent license or water right.

If you have any questions, please let us know.

Sincerely,

David R. Tuthill Jr.
