WATER RIGHT LICENSE

License of Water Right No. 47-7463 Priority March 13, 1978 Amount 35.03 cfs

THIS IS TO CERTIFY, that Robert Snedigar
of Buhl, Idaho, has complied with the terms and conditions of Permit
No. 47-7463 issued pursuant to Application for Permit dated March 13, 1978,
and has submitted proof to the Department of Water Resources on February 11, 1983,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 35.03 cfs of water from an unnamed stream,
tributary to Mud Creek, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

CONDITIONS OF APPROVAL

- a. Modifications to or variance from this license must be made within the limits of Section 42-222, **Idaho Code**, or the applicable Idaho Law. This right may be forfeited by five years of non-use.
- b. The right to the use of the water hereby confirmed is restricted and appurtenant to lands or place of use herein described, and is subject to all prior water rights, as provided by the laws of Idaho.
- c. Any water right confirmed in this license for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this license and shall not give rise to any right or claim against any future rights to the use of water other than hydropower, within the State of Idaho initiated later in time than the priority of this license.

Facility Volume = 205,433 cubic feet.

Use of water under this right is subject to policies set forth in the State of Idaho Water Plan, including Policy No. 32F.

REQUIREMENT FOR PERMIT NOS. 47-7462 AND 47-7463) ORDER
IN THE NAME OF ROBERT SNEDIGAR)
_____)

WHEREAS, on April 26, 1978, the Department of Water Resources issued Permit Nos. 47-7462 and 47-7463 in the name of Robert Snedigar with the requirement that:

A measuring device of a type approved by this Department shall be permanently installed and maintained as part of the diverting works;

and,

WHEREAS, on January 11, 1984, the Department received a request from the permit holder to remove the measuring device requirement; and,

WHEREAS, the Department of Water Resources has determined that removal of the measuring device requirement is reasonable at this time;

NOW, THEREFORE, the condition of approval on said water rights requiring that a measuring device be installed and maintained is hereby REMOVED subject to the provision that the requirement may be added if found to be needed in the future.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 47-7463, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before August 1, 19 85.
- c. Other: (1) Measuring devices of a type approved by the Department shall be permanently installed and maintained at the point of diversion and the point of effluent discharge.
(2) The permit shall not be assigned or sold without first securing the written approval of the Department of Water Resources.
(3) Return water shall be treated to insure that the effluent meets Idaho Water Quality Standards.

Witness my hand this 27th day of August, 19 80.

Robert Snedigar

Dear Jim:

Enclosed is a copy of the financial statement for
Snedigar Farms.

I have asked Mr. Snedigar to have prepared detailed
plans for your review.

I have never known you to require information to
substantiate ownership of the place of use if the applicant
has indicated that he owns it. In any event, I will attempt
to secure for you the additional information.

Sincerely,

John A. Rosholt

Affidavit of Publication

STATE OF IDAHO,
COUNTY OF TWIN FALLS }

ss.

No 6918

I, Myrta Mabeuf being first duly sworn upon
oath, depose and say that I am Prime Clerk of the TIMES-NEWS,
published daily, except Saturday, at Twin Falls, Idaho, and do solemnly swear that a copy
of the notice of advertisement, as per clipping attached, was published in the regular and
entire issue of said newspaper, and not in any supplement thereof, for Two
consecutive Thursday, commencing with the issue dated
March 23, 1978, and ending with the issue dated
March 30, 1978.

And I do further certify that said newspaper is a consolidation, effective February 16,
1942, of the Idaho Evening Times, published theretofore daily except Sunday, and the
Twin Falls News, published theretofore daily except Monday, both of which newspapers
prior to consolidation had been published under said names in said city and county con-
tinuously and uninterruptedly during a period of more than twelve consecutive months, and
said TIMES-NEWS, since such consolidation, has been published as a daily newspaper
except Saturday, under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each
week has been designated as the day on which legal notice by law or by order of any
court of competent jurisdiction within the state of Idaho, to be published weekly, will be
published; and that at the head of the editorial column of said combined newspapers, and
in each issue thereof, Thursday is announced as the day on which said legal notices will
be published.

SUBJECT 47-7462 & 47-7463 - Snedigar

Some additional thoughts on this one:

- a. We received the exams on the Snedigar permits. Although he shows many p/d's & places of use on the permits, he developed only 3 sets of ponds, as shown on the attached map.
- b. The proposed locations of the ponds for permits 47-7683 and 47-7684 are downstream, as shown on the map.
- c. Because there is no water district on Mud Creek, and due to the limited proposed development in the area, I can't justify a need to show negligible loss of water in the ponds.
- d. At this point, since the exams have been completed (rectangular weirs used), I would be willing to remove the measuring device requirement totally, explaining that the requirement can be added at some time in the future.

Your thought?

RE: 47-7462 and 47-7463 - Snedigar

The following water rights are diverted in the area of Snedigar's fish farms and are potentially affected:

47-2457 - Irrigation license on land owned by Snedigar ✓

47-7683) - Fish propagation rights from Mud Creek and Silo Creek owned by
47-7684) Collins Bros. ✓

The Collins Bros. permits show fish ponds in the same locations as some ponds at the lower end of Snedigar's permits. ✓

Proof is not due on the Collins permits until 1987 and they are under the same M. D. requirement.

I would recommend that Snedigar be offered the opportunity to show negligible loss of water in his facilities before we remove the 2 M.D. Requirements. ✓

Dear Mr. Saxton,

I need to request a waver of the requirement of a measuring device on both inlet and outlet of my fish farming facility. I feel that one measuring device is sufficient due to the fact there is no apparent water loss thru the facility and there are no competing uses between the diversion point and where the water re-enters the stream. Also there is more than adequate water supply.

Dear Mr. Snedigar:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.

SUBJECT

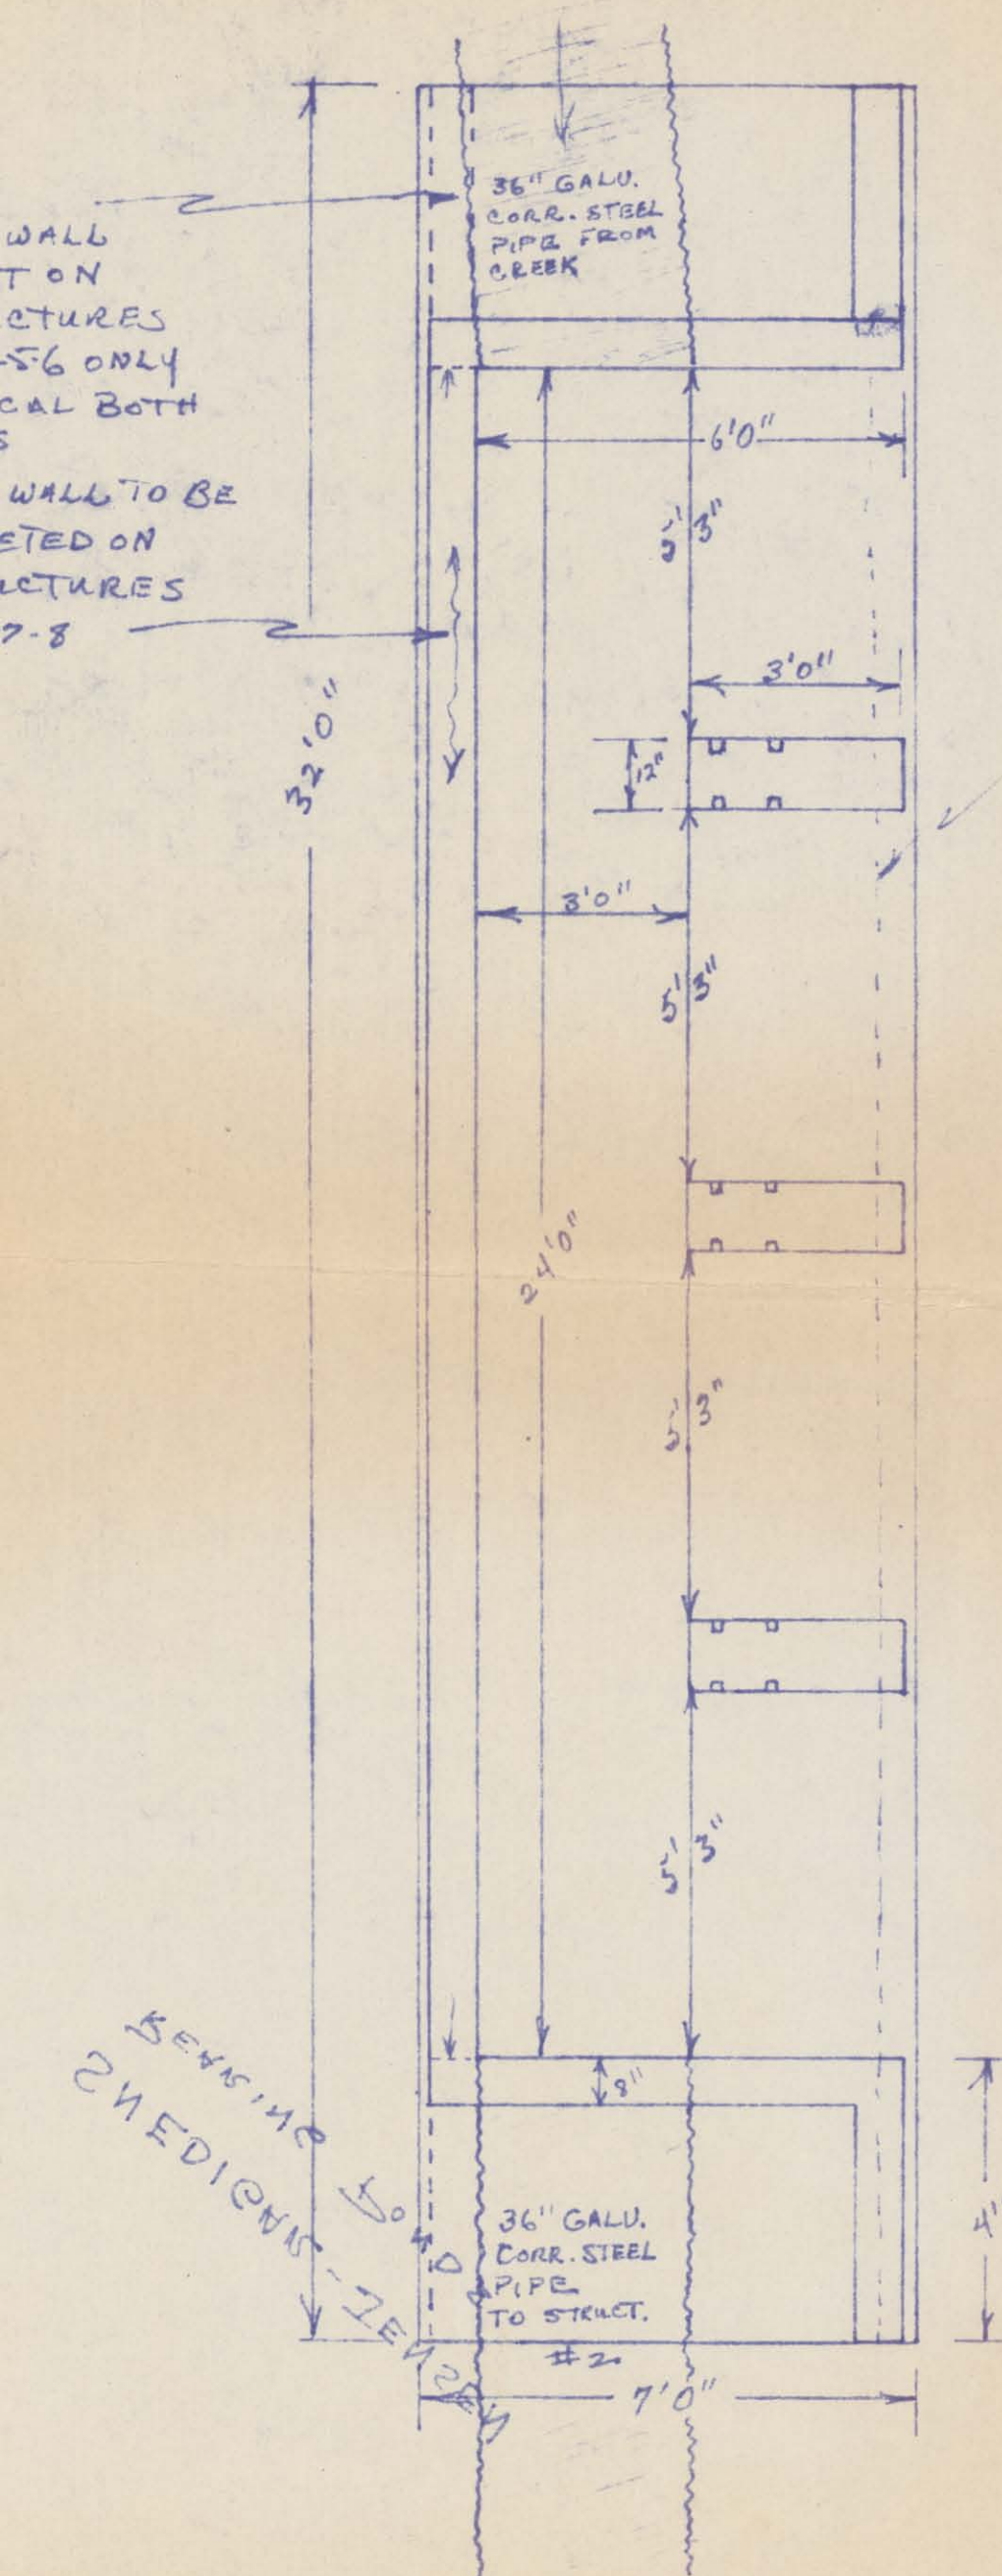

This application has been with us for a long time - most of it spent waiting for hatchery plans. Our field check and review of the plans indicates that the water supply and carrying capacity is highly over estimated in the application.

There are no other water rights except those of the applicant which could be affected by this project.

I would recommend the application be approved with the condition that it cannot be assigned without prior permission of the Department. This would allow development of the stream to its full potential but would allow the permit to be voided if it proves to be speculative.

Re: Application for Permit No. 47-7462 - Robert Snedigar

Dear Mr. Rosholt:

In answer to your letter of September 10, 1979, application 47-7462 in the name of Robert Snedigar has been approved and a copy of the approved permit is enclosed.

Application 47-7463 cannot be approved until Mr. Snedigar provides us with a detailed plan of his proposed facility; the arrangement and dimensions of the ponds should be shown. Although these plans may be changed as needed to facilitate construction of the hatchery, we do require some sort of plan as evidence that the application was not filed merely for speculative purposes.

Mr. Snedigar has had eighteen months to provide this information. If plans are not received in a reasonable length of time, the Department may have to assume that application 47-7463 was filed for speculation or delay, in which his application would be denied.

If you have any questions, please feel free to contact this office.

Re: Application for Permit No. 47-7463 - Robert Snedigar

Dear Mr. Rosholt:

Our Boise office has again returned Mr. Snedigar's application to divert 100 cfs of water for fish propagation. Under the authority granted to this Department by Section 42-202 of the Idaho Code, we require that applications for over 25 cfs include detailed plans of the proposed construction. The number, size, and arrangement of the proposed fish ponds should be shown, as should their location in relation to section boundaries. The applicant should also furnish this office with a detailed financial statement, which will be reviewed and returned to him immediately. A memo from the reviewing officer will be included in the file in lieu of placing this personal information in the file. We will also need proof that the applicant owns the place of use; sale contracts, deeds, or tax notices would suffice.

Please secure the needed information from Mr. Snedigar at your earliest convenience, as the application cannot be approved until these requirements are satisfied.

If you have any further questions, please feel free to contact our office.

Applicant(s) Interviewed Gail Grier, Ranch Manager

Upstream Users Interviewed None

&/or Upstream Diversions Inspected _____

Downstream Users Interviewed None

&/or Downstream Diversions Inspected _____

Legal Description Verified By Map (or give proper description) Yes

Water Flow: Visual Estimate 10 cfs Channel Width 10' Average Depth 1'

Water Velocity about 1 fps Channel Slope _____

Do Additional Inflows Enter Downstream From This Diversion? Yes - Mud Creek

Does This Water Enter Canal-Company Waterways? No Canal Co. Approval? N/A

Source Of Waste Water: Legal Description N/A

Proportion Of Water Flow Arising On Applicant's Land _____

Does There Appear To Be Sufficient Water To Fulfill This Application Without Harming

Downstream Users? Yes _____ No _____ See Notes

Do Other Aspects Of The Application Appear To Be As Stated? Yes _____ No No

Notes I estimated 10 cfs of flow, while Mr. Grier estimated 20 cfs. Mr. Grier stated that flow does not increase very much during the summer, so it appears that this application constitutes a gross over-filing. Applicant owns all land to where water source enters Mud Creek, so this filing should have little affect on downstream users (if any). Terrain along Mud Creek is not suitable for irrigation use.
