Dear Mr. & Mrs. Eggleston:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.

SUBJECT File No. 47-7432, Surface Water Application

On September 6, 1977, I made a field trip to the point of diversion and place of use for surface water Application No. 47-7432.

The spring identified in the application originates upon applicant's property and runs into a revine where it is comingled with waste water and other springs. The comingled water is used for irrigation by other appropriators downstream. According to the applicant, ~~the~~ the spring dries up after the irrigation season is over. There was sufficient amount of water for applicant's proposed use at the time of the surface water exam.

I recommend this application be approved.
