Dear Sir,

We have been unable to complete development on our water project Permit No. 47-7394 & request an extension of time to do so.

We have the pipe in place & planned on installing diversion box late last winter or early spring. We were prevented from doing so by flood conditions from canal breaks, & then a break in the Chevron pipeline inundated the site with diesel.

We will not be able to resume construction of the box before fall due to the pressure of farm work, plus the diesel smell has not cleared up.

The amount of water flow is very small at this time & may never be quite adequate to irrigate the 1.5 acres involved, so we will supplement it with well water.

Thank you for any consideration you can give the matter of extension.

Sincerely,

Fred Kambrich

Dear Mr. Kambrich:

One of the conditions of approval of your water Permit No. 47-7394 was that evidence of the extent of development must be submitted to this office on or before August 1, 1979. (See last page of your approved permit). Enclosed is a post card which may be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use post card or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect within 60 days.

DATE May 23, 1977

TO File No. 47-7394-Fred Kambrich

SUBJECT Surface Water Exam

On May 19, 1977, I made a field trip to the Applicant's proposed point of diversion and place of use. From this field trip I find the spring is located on Richard Caster's property as indicated under Item 9 of the Application. There appears to be sufficient amount of water from the spring to support the Applicant's filing. This ground is also being irrigated from a well belonging to the Applicant. The spring appears to be being used by Richard Caster.
