Dear Mr. Krepcik:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.

Sincerely,

Gary L. Funderburg

On January 14, 1977, I made a field trip for the surface water application #47-7362 proposed point of diversion and place of use.

Applicant proposes to build a check dam to store the water where a pump will be used to convey the water to its place of use.

During the irrigation season months, there could be enough water from irrigation run off for the proposed uses. There are other users above the proposed point of diversion. This run off water is from fields irrigated by Twin Falls Canal Co. water.
