License of Water Right No. 47-7273 Priority August 5, 1974 Amount .47 cfs

THIS IS TO CERTIFY, that CITY OF FILER
of Filer, Idaho, has complied with the terms and conditions of Permit
No. 47-7273 issued pursuant to Application for Permit dated August 5, 1974,
and has submitted proof to the Department of Water Resources on July 20, 1977,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of .56 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Domestic</u> from <u>January 1</u> to <u>December 31</u> at <u>.47</u> cfs and <u>27.6</u> acre feet (46 units)			
_____ from _____ at _____ cfs and _____			
_____ from _____ at _____ cfs and _____			

(both dates inclusive)

Subject, however, to the condition that no more than .47 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
27.6 acre feet per year, said waters to be diverted within the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 7, Twp. 10S,

MEMO

TO: File 47-7273

Mr. & Mrs. Smith visited the office regarding Robyn's letter of January 31, 1983.

The City of Filer recently completed a new well and is currently supplying water to the trailer park from it.

The existing well has caved in and is being re-built by Smith. When the well under 47-7273 is serviceable, Smith will assume responsibility for water supply to the trailer park from it. This is the reason for the assignment. The trailer park is not within the city limits.

Dear Mr. and Mrs. Smith:

Our office acknowledges receipt of Assignment of Permit for the above referenced water right. However, in reviewing the file I find that the Permit has been licensed.

In Idaho, a licensed water right is considered real property and is acquired when the property to which it is appurtenant to is purchased. Proof to owning the property is proof of owning the water right license.

Therefore, I have put the Assignment of Permit into the file for future reference only and no other action will be taken. I have also enclosed a copy of the license for your records.

If you have any questions please feel free to contact our office.

It appears that .47 cfs is produced by the system in the normal pressure situation, and .56 is produced when the pressure is reduced by opening the hydrant. We should license for dom. use based on the normal pressure situation, so use .47.

For AF on Trailer homes lets use .6 AF each, rather than the 2 hour flow, as a standard method.

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions regarding the field examination, please contact our Regional Office in Twin Falls.

NOTICE OF CONFERENCE AND/OR HEARING

On August 5, 1974, Ralph L. Smith filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On August 29, 1974, the Department received a protest against approval of said application from Mr. Harley Williams.

The Department has set the matter of protest for conference and/or hearing for Thursday, September 4, 1975, at 11:00 a.m., in the Twin Falls County Courthouse, Twin Falls, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party desiring the taking of stenographic notes by a qualified court reporter must request such in writing at least five (5) days before the date set for hearing and must submit to the director the name of a qualified reporter who is available on the date set for hearing. The party requesting the reporter shall bear the expense of the reporter's attendance fees. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestant may allow the Department without prejudice to dismiss the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this twelfth day of August 1975.

Mr. Harley Williams
Route #1
Filer, Idaho 83328

Dear Mr. Williams:

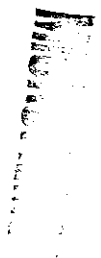

I am returning the protest which you brought in to our office on October 11, 1974. I have retained a copy of this protest in the file. However, since the last date for filing protests was September 2, 1974, the other people who have signed this will not have any standing at a conference or hearing. Since the concern of all who signed this appears to be the same, I would think you would be in a position to adequately represent their point of view.

Very truly yours,

Bob Haynes
Southern District Engineer

To Whom it may concern:

We the undersigned are in protest to permit
no. 47-7273 for water well calling for 2.8 cubic
ft per second.

1. We deem that this is more water than is
required for any development on this parcel
of land.

2

2. Wells in this area have been redrilled as
the water table has been dropping for several
years.

3 We feel that a well of this amount would
further deplete our water supply in the future.

4. We further recommend that this permit be mode-
fied not to exceed .5 cubic ft. per second.

NOTICE OF APPLICATION
FOR WATER PERMIT

Notice is hereby given that Ralph
L. Smith Rt. 1, Filer, Id. has on 8-5-
74 submitted Application No. 47-7273
for a permit to appropriate 2.8 cubic
feet per second of water from
groundwater by means of deep
well, pump and motor within the
SE 1/4 NE 1/4, Sec. 7, T 10S, R 16E, B.
M. Twin Falls Co. to be used from
Jan. 1 to Dec. 31 for multi-domestic
purposes within the SE 1/4 NE 1/4, Sec.
7, T 10S, R 16E, B. M.

If issued, this permit will be
subject to all prior water rights.
Protests against the granting of the
permit must be filed with the Idaho
Department of Water Resources,
1041 Blue Lakes Blvd., North, Twin
Falls, Idaho, 83301 on or before 9-2-
74.

RE: Application for Permit No. 47-7273

Mr. Ralph L. Smith
Rt. 1
Filer, Idaho 83328

Dear Mr. Smith:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 47-7273. You should be aware that the following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If ~~we~~ may be of any assistance, please contact us.

Very truly yours,

Bob Haynes

Dear Mr. Williams:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Very truly yours,

Bob Haynes

To Whom it may Concern

This request for a conference concerning water fishing by Ralph Smith to drill a water well to produce 2.8 cubic ft of water.

Myself and neighbors are concerned about water table:

1. if such a well would effect the flow from existing wells.
2. if such well is drilled and used and does drain existing wells what recourse do we have.
- 3 We also question the ability to use 2.8 ~~cubic~~ C.F.S. ^{water} on amount of existing land even if said owner develops mobile home court as he now proposes
