SUBJECT Field Exam for #47-7262

I meet with Echert's son to re-do the exam Gary completed on 10-7-76. It appears that Mr. Echert expected to have all uses that existed out at the farm described on the exam for #47-7262. I persuaded Echert's son to file a claim for the other uses. (Please find attached copy of claim) It appears that what Gary found is correct in part; however, Echert's son says that the entire system is connected together, and that the claim reflects how the water is being used.

If you have any questions please call me.

Dear Mr. Eckert:

One of the conditions of approval of your water Permit No. 47-7262 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before JUNE 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
