Dear Mr. Quigley:

One of the conditions of approval of your water Permit No. 47-7180 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

RE: Application for Permit No. 47-7180 - Wade Quigley

Idaho Department of Water Administration
1041 Blue Lakes Boulevard North
Twin Falls, ID 83301

Gentlemen:

In regard to Permit No. 47-7180, I request that a measuring device be installed both at the point of diversion and the point where the affluent is drained back into the natural channel.

I am concerned about this application because I have prior rights for irrigation below Mr. Quigley's ponds.

Very truly yours,

Darrell Lyon

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

Dear Sirs:

At the time I filed on water for fish propagation, I had an agreement to purchase the land on which the seepage stream began and flowed through.

After I filed on the water the owner backed out on the agreement, so I will not be able to develop the fish ponds for the 16.0 c.f.s. of water and cannot put the water to beneficial use.

I, therefore, would like to amend my filing downward to 4.0 c.f.s. in the hopes that a refund will be franted for the 16.0 c.f.s. of water.

Sincerely,

Wade Quigley

Dear Mr. Quigley:

In order to further consider your application for permit, we will require additional information not included with the above referenced application as follows:

1. A letter from a financial institution showing that you are financially able to complete the project as described in the application. (See Section 42-203 of the Idaho Code)
2. A preliminary design of the hatchery facilities, indicating the size of raceways, general layout, the size of pipelines or other diversion works and such other information as will fully describe the method and means of diversion and verify the need for the quantity of water requested.
3. A justification, based upon the preliminary design and the estimated production of the hatchery, for the amount of water requested.
4. An estimated schedule of construction, giving dates for the start of construction, the finish of construction, and the date that full operation of the hatchery is anticipated.

You should be aware that all applications, if approved, will require the installation and maintenance of adequate measuring devices both at the point of diversion and the point of return of the water. These devices must be of a type approved by the Department; they can be of any generally recognized standard measuring device type. You should include the installation of these devices in your preliminary plans for construction.

We would appreciate receiving this information on or before March 3, 1973. Thank you for your cooperation in this matter.

Very truly yours,

Bob Haynes
Southern District Engineer
