COUNTY OF TWIN FALLS }

NOTICE OF APPLICATION
FOR WATER PERMIT

Notice is hereby given that Ed Yragui, P. O. Box 975, Twin Falls, ID has on Dec. 22, 1972, submitted Application No. 47-7170 for a permit to appropriate 6.4 cubic feet per second of water from a groundwater source by means of well and pump within the NW $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 34 T. 14S, R. 15E, B.M., Twin Falls County to be used from Jan. 1 to Dec. 31 for stockwater purposes and from April 1 to Nov. 1 for the irrigation of 320 acres within the SE $\frac{1}{4}$, Sec. 27; NE $\frac{1}{4}$, Sec. 34, T. 14S, R. 15E, B.M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Administration, 1041 Blue Lakes Boulevard North, Twin Falls, Idaho, 83301 on or before Jan. 22, 1973.

BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF EVALUATING	)	
WHETHER DEVELOPMENT OF 20,000 ACRES	)	
OF IRRIGATED LAND WOULD	)	MEMORANDUM DECISION
CAUSE A SIGNIFICANT REDUCTION	)	& ORDER
IN TRUST WATER AVAILABLE FOR	)	
POWER PRODUCTION	)	

This matter having come before the Director of the Idaho Department of Water Resources (IDWR) as a result of the Swan Falls water right settlement, the Director finds, concludes and orders as follows:

FINDINGS OF FACT

1. "Trust water" is that portion of an unsubordinated water right used for hydropower generation purposes which is in excess of a minimum stream flow established by state action.

2. Section 42-203C(1), Idaho Code, provides as follows:

If an applicant intends to appropriate water which is held in trust by the state of Idaho pursuant to subsection (5) of Section 42-203B, Idaho Code, the director shall consider, prior to approving the application, the criteria established in Section 42-203A, Idaho Code, and whether the proposed use, individually or cumulatively with other existing uses, or uses reasonably likely to exist within twelve (12) months of the proposed use, would significantly reduce the amount of trust water available to the holder of the water right used for power production that is defined by agreement pursuant to subsection (5) of Section 42-203B, Idaho Code, and, if so, whether the proposed reduction is in the public interest. (emphasis added).

3. The IDWR conducted a study to estimate the reduction in hydropower generation which would result from the development of the first 20,000 acres of newly irrigated land (new development) authorized under the Swan Falls settlement. The study included several steps as follows:

- a) Identify the location of the potential new development and the related water sources;
- b) Estimate the net depletion resulting from new irrigation development of these lands;

RECEIVED
JUN 20 1990

c) Route the reduced flows through the aquifer and surface flow systems to the affected power plants;

d) Compute the loss in potential generation at each plant resulting from the reduced flows.

4. Step a) in Finding of Fact No. 3. was accomplished by plotting land location as shown by the water right applications and permits being considered. The 20,000 acres are generally located as follows:

Acreage	General Location	Water Source
9,885	Snake River Plain	Snake Plain Aquifer
5,315	Valleys adjacent to the Plain	GW trib. to Snake Plain Modeled area
4,800	Scattered areas	GW and surface water from areas not trib. to Snake Plain Modeled area

20,000 acres

5. Step b) in Finding of Fact No. 3. was accomplished using simulation models which have previously established the "base" flows conditions.

6. Step c) in Finding of Fact No. 3. involved a groundwater component and a surface water component. Withdrawals from the Snake Plain aquifer and from the tributary valleys affect the water in storage in the aquifer. Storage changes alter the gradients which eventually reduce aquifer discharges. If a new withdrawal is continued long enough, the aquifer outflows will be reduced by an amount approaching the magnitude of the withdrawal and resulting depletion.

7. The IDWR digital model of the Snake Plain aquifer (groundwater model) was used to simulate this process and predict the outflow reductions after 15, 30, 45 and 60 years of annual withdrawals by new irrigation development at the assumed locations. The results of the groundwater model run indicate that aquifer outflows would be reduced by the following percentages of the annual depletion:

Year	Outflow Reduction (Acre Feet)	Percent of Annual depletion (%)
15	4,600	23
30	9,000	45
45	14,700	73
60	15,200	76

8. Significant reduction should be determined by evaluating the depletion when its effect on the river is fully felt. Incremental change in the percent of annual depletion is very small sixty (60) years after the first

RECORDED

JUN 20 1990

depletion. The percent of annual depletion in the 60th year adequately represents the long-term effect of aquifer depletions on Snake River flows.

9. The groundwater model predicts that approximately eighty percent (80%) of the reduction in river flow would occur in the Milner to King Hill reach with the remainder (20%) occurring between Blackfoot and Minidoka Dam.

10. The IDWR routed the reduced flows through the aquifer and river system using a digital model of the Snake River system (river model). This model and its computed base conditions are described in "Stream Flows in the Snake River Basin, 1985 Conditions of Use and Management" Open-File Report, September 1986. The groundwater depletion was input to the river model assuming uniform depletions each month.

11. The river model computes flows at numerous points in the Snake Plain Basin including sites at, or near to, the power plants. These computed flows were used to compute power generation and were compared to similarly computed generation for base flow conditions.

12. The annual reduction in hydropower generation 60 years after the development of 20,000 new acres is estimated to be approximately 2.8 million KWH in power facilities upstream from the Murphy gage on the Snake River.

13. In cooperation with staff of the Idaho Public Utilities Commission (IPUC), IDWR determined the rate impact of lost hydropower generation caused by the new development in the trust water area of the Snake River basin assuming that new thermal generation capacity is obtained to replace the lost hydropower generation.

14. The cost impact to the rate base of replacing the lost hydropower generation with thermal generation capacity must be considered in the evaluation of any significant reduction in hydropower generation, but the statutes and Water Appropriation rules do not require consideration of impacts to the rate base resulting from other aspects of the new development such as new pumping loads.

15. Step d) of Finding of Fact No. 3. was determined using an IPUC power supply model (power model) associated with the rate making process. Data from the 1966-1985 period was used to establish a base flow. The depletions were then input to the power model and the difference in ability to meet firm load requirements and to make economic spot market sales and purchases was determined. A comparison of the output of the power model run to base conditions produced increased total IPCO power supply costs due to Snake River depletions.

16. The power model shows that the impact of reduced hydropower generation at IPCO's facilities on the Snake River above the Hell's Canyon complex as a result of the development of 20,000 new acres will result in an average increase in IPCO's power costs of \$159,553 per year which is approximately five one hundredths of one percent (0.05%).

17. During certain periods of each year there generally is unappropriated water in the Snake River. During these periods a

MICROFILMED

JUN 20 1990

appropriation of water has no effect upon IPCO's water rights or ability to generate hydropower.

CONCLUSIONS OF LAW

1. The development of 20,000 new acres which results in an average increase in power rates of five one hundredths of one percent (0.05%) will not cumulatively cause a significant reduction in IPCO's hydropower generation capability at hydropower generation facilities upstream from the Hells Canyon complex on the Snake River.
2. The hydropower generating facilities of IPCO which are affected by reductions in river flow represent approximately 25% of IPCO's hydropower generating capacity as compared to the Hells Canyon complex facilities which represent approximately 75% of IPCO's hydropower generating capacity. The Hell's Canyon facilities are subordinated to later in time consumptive uses and are not properly included as a part of the evaluation of significant reduction. (Water Appropriation Rule 5,3,1,4.).
3. The reduction in IPCO's hydropower generation capability caused by new development is such that the timing of the reduction, either on an annual basis or a long term basis, need not be considered by IDWR. The computer model studies show that it would take approximately 15 years for aquifer outflow to the Snake River to be reduced 23% of net new withdrawal. By the 60th year outflow would be reduced by 76% of the new depletion. Other factors present in a dynamic system as large as the Snake Plain aquifer will have more effect on the discharge of the Snake River than decreases caused by this amount of new development.
4. Staff of the IPUC advises that the effect of reduced hydropower production on "unit cost" is not a proper factor to consider when analyzing the effect of reduced flows to hydropower generating facilities. IPUC generally considers hydropower facilities to have zero unit or production costs. Thermal facilities on the other hand do have associated unit costs such as the cost of fuel.
5. The IDWR is unaware of any contract or regulatory permits including FERC licenses which require IPCO to produce or to maintain capability to produce hydropower at specific levels.
6. Approval of applications for permit or permits which propose the development of the first 20,000 acres of newly irrigated land with water from the Snake Plain aquifer will not either individually or cumulatively cause a significant reduction in the water supply available to the holder of a water right used for power production purposes.
7. The development proposed by Permit No. 47-7170 will not either individually or cumulatively cause a significant reduction in the water supply available to the holder of a water right used for power production purposes.
8. Permit No. 47-7170 should be continued without special conditions related to Section 42-203C(2), Idaho Code.

MICROFILMED

JUN 20 1990

ORDER

It is, therefore, hereby ORDERED that Permit No. 47-7170 is hereby continued subject to the following conditions:

1. Proof of construction of works and application of water to beneficial use shall be submitted to IDWR on or before November 1, 1992.
2. The use of trust water authorized by this right is subject to review 20 years after the date of this order to determine availability of trust water and to reevaluate the public interest.
3. The construction of diversion works must be commenced within one (1) year of the date of this order and shall proceed diligently and uninterruptedly to completion unless temporarily interrupted by circumstances over which the permit holder has no control.
4. Diversion and use of trust water under this right is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.
5. The Director retains jurisdiction of this right to change, add or remove any requirement as determined to be appropriate.
6. All conditions of approval contained in Permit No. 47-7170 are incorporated into and made part of this order.

Dated this 28TH day of May, 1990.

REQUEST FOR EXTENSION OF TIME

To provide additional time in which to submit proof
of beneficial use for a water right permit

Department of Water Resources

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of a water right under the provisions of Section 42-204, Idaho Code.

Permit No. 47-07170

Name(s) of Permit Holder: Ed Yragui

Post Office Address: P. O. Box 975, Twin Falls, ID 83303-0975

Telephone No. 733-3988

Date Proof is Due: November 1, 1989

Describe what work has been completed toward the development of this water right: _____
(This must be filled out! If no work has been completed, show "none".)

No work has been done.

Costing \$ 0

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Due to moratorium on power hookups, it has not been possible to get electric power to this
ground. It was not feasible to spend money on a project that might never have power. I have
recently been informed by Idaho Power Co. that power is finally available.

Permit holder(s) request an extension to November 1, 19 94.
(1 yr. minimum)

Ed Yragui
(Signature)*

FEE: \$15.00

*IF OTHER THAN PERMIT HOLDER,
POWER OF ATTORNEY MUST BE SUPPLIED.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

JUN 20 1990

IT IS HEREBY ORDERED that the above request for extension of time be APPROVED and the time within which to submit proof of beneficial use is extended to November 1, 1992.

Signed this 28th day of May 19 90.

PUBLISH: Thursday,
February 1 and 8, 1990.

Affidavit of Publication

STATE OF IDAHO

COUNTY OF TWIN FALLS } SS.

I, Linda Capps McGuire being first duly sworn upon oath, depose
and say that I am Print Clerk of the TIMES-NEWS, published daily, at
Twin Falls, Idaho, and do solemnly swear that a copy of the notice of advertisement, as per
clipping attached, was published in the regular and entire issue of said newspaper, and not in
any supplement thereof, for Two consecutive Weeks,
commencing with the issue dated February 1, 1990,
and ending with the issue dated February 8, 1990.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho
Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily ex-
cept Monday, both of which newspapers prior to consolidation had been published under said names in said city and
county continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-
NEWS, since such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at
which time said newspaper began daily publication under said name in said city and county continuously and
uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated
as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho,
to be published weekly, will be published; and that at the head of the editorial column of said combined newspapers,
and in each issue thereof, Thursday is announced as the day on which said legal notices will be published.

STATE OF IDAHO
COUNTY OF TWIN FALLS

9 day of February in the year of 1990, before me,
a Notary Public, personally appeared Linda Capps McGuire,
known or identified to me to be the person whose name subscribed to the within instrument, and being by me first
duly sworn, declared that the statements therein are true, and acknowledged to me that he executed the same.

MICROFILMED

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. 47-7170

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

Dated this 18th day of August, 1978.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 47-07170

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)736-3033.

Sincerely,

Karen L. Gustafson

ACTION OF DEPARTMENT OF WATER RESOURCES

This Permit is Approved.

If approved, this permit authorizes the construction of a well subject to the following conditions:

GENERAL CONDITIONS

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.

SPECIFIC CONDITIONS

9. Permission is given to cap previously drilled well until Spring. when casings must be pulled and the hole back filled according to DWR regulations - both subject to Department inspection.
10. Permission is given to relocate on new well site & to drill.

Dated this 28 day of September, 1989.

Amended 28 December, 1989

PROOF DUE NOTICE
RE: PERMIT NO. 47-07170

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

RE: Permit No. 47-7170

Ed Yragui
Box 975
Twin Falls, ID 83303-0975

Dear Permit Holder(s):

Enclosed is an order that authorizes you to continue development under Permit to Appropriate Water No. 47-7170. Please note in condition #1., page five of the order that you must develop your system and beneficially use the water prior to November 1, 1992. Failure to beneficially use the water before November 1, 1992, could result in a loss of your water right permit.

Also enclosed is a copy of the approved application for amendment and an extension of time request. Please be advised that the department has granted this extension of time based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional requests.

Please note the conditions of approval contained in the continuation order. You must comply with the conditions to fully complete beneficial use.

Sincerely,

TIM LUKE
Sr. Water Resource Agent

INTER-DEPARTMENT MEMO — 1

FROM D R Jones

DATE 12/26/89

TO File 47-07170, Ed Yragui

SUBJECT Amended Amendment of Permit

Applicant originally filed a response to ^{Swan Falls} S.F. questionnaire from Tim Luke and paid read fee on 4/14/89. On 9/29/89 Applicant amended permit to change P/D, P/O and # of acres along with an extension request (w/ \$5 extension fee). Applicant now desires to change the well location again. Since the S.F. readvertisement has not been made, per 12/26 telecon w/ Tim Luke, previous read fee is applied to the amended amendment.

NOTICE OF INFORMATION REQUIRED BY WATER APPROPRIATION RULE 4,5.

Dear Permit Holder:

The Department acknowledges receipt of the Trust Water Information Questionnaire and appropriate re-advertising fee for the above referenced permit. On behalf of the Department, I wish to thank you for your cooperation in providing the requested fee and information.

In the letter that accompanied the questionnaire, I informed you that you would need to submit additional information required by Water Appropriation Rule 4,5. if the undeveloped portion of the permit exceeds 200 acres.

The returned questionnaire indicates that you wish to pursue completion of the irrigation project as proposed under your permit. The project includes more than 200 acres and is therefore subject to the additional information requirements of Rule 4,5.

I wish to call your attention to the specific requirements under Rule 4,5. (copy enclosed). In particular, you must submit the information outlined in Rules 4,5,3,6,1. through 4,5,3,6,7. Note that Rule 4,5,3,6,4. is not applicable to your permit.

The information must be submitted within 30 days of the date of this notice. Failure to submit the required information within the time period allowed will be cause for the Department to advance the priority of the permit by the number of days that the information submittal is late. The

RECEIVED

APR 17 1989

Permit No. 47-7170

Department of Water Resources

IF YOU ARE NOT INTERESTED IN HAVING YOUR PERMIT PROCESSED,
PLEASE COMPLETE AND RETURN THE ENCLOSED RELINQUISHMENT FORM.

INSTRUCTIONS: Please answer the following questions as
thoroughly as possible and submit the \$20.00 readvertisement
fee if applicable.

1. Did irrigation occur on the lands identified under your
permit prior to July 1, 1985? Yes _____ No ✓

If yes, you are requested to submit clear evidence that shows the
number and location of acres irrigated.

Aerial photographs taken prior to July 1, 1985, located in area
ASCS offices, are best forms of evidence. Photos submitted to the
the Department must be accompanied by a signed statement from an
ASCS representative which verifies the photo date and that the
lands were irrigated prior to July 1, 1985. If ASCS does not have
photos for the land and/or time in question, you must have the ASCS
provide the Department with a statement that photos are not avail-
able and then proceed to submit other forms of suitable evidence.

2. Please state the number of acres you have irrigated under this
permit since July 1, 1985. None

3. If you have not irrigated lands under this permit, please
state the number of acres you plan to complete. 240

NOTE: You must submit the \$20.00 readvertisement fee if any or
all of the lands were not irrigated before July 1, 1985.

4. If the permit is a supplemental filing please identify other
water rights which are used on the same land.

None

Use the reverse side of this form if you wish to add any comments.

I hereby assert that the responses provided above are true to the
best of my knowledge. I understand that any willful misrepresentations
may result in voiding of the application.

Re: Permit No. 47-7170

Dear Mr. Yragui:

NOTICE OF PENDING ORDER CANCELING PERMIT

On June 16, 1976, the Department of Water Resources (department) issued Permit No. 47-7170 which authorized the diversion of 4.8 cfs of water from groundwater for the irrigation of 240 acres.

The department mailed a letter and questionnaire to you on January 30, 1989 in connection with the permit. The letter provided notice that the department was reviewing the permit in connection with development which was not complete prior to July 1, 1985.

This letter also requested that you return the department's questionnaire concerning any prior development under the permit and/or your plans for pursuing completion of the proposed project. The correspondence further requested that you submit with the questionnaire either a readvertisement fee in the amount of twenty (\$20) dollars and/or evidence showing that development under the permit was complete prior to July 1, 1985. Finally, the letter notified you that failure to submit the required fee or information within 30 days of the date of the letter was cause for the department to cancel the permit.

The purpose of this letter is to provide a second and final opportunity for you to submit the requested information. If you fail to respond to this inquiry within fifteen (15) days of the date of this letter, the Department will issue an order canceling the permit pursuant to Water Appropriation Rule 4,2,3,4.

If no development has been completed as authorized by the permit, and you are no longer interested in pursuing the development, please complete and return the enclosed relinquishment form.

RECEIVED

JUN 20 1990

Please feel free to contact me if you have any questions concerning this matter.

Sincerely,

A handwritten signature in cursive script, appearing to read "Tim Luke".

DIRECTOR

January 30, 1989

RE: PERMIT NO. _____

Dear PERMIT HOLDER:

Due to the Swan Falls litigation, development proposed by the enclosed permit may have been delayed. The Department is presently reviewing the permit and may authorize completion of development proposed under the permit.

The purpose of this letter is to determine: (1) the extent of development under the permit, and (2) your continued interest in developing or completing development under the permit.

Enclosed are two forms which will help the Department expedite the reprocessing of the permit.

Please complete and return the enclosed questionnaire if you wish to continue with your plans of development or have completed all or a portion of your development before July 1, 1985.

Please complete the enclosed relinquishment form and return it to the Department if you have abandoned or have no interest in continuing with your plans for development of the project.

If the entire project was not completed prior to July 1, 1985, and you still wish to proceed with your plans of development, then you must submit a \$20.00 re-advertisement fee to the Department as required by Water Appropriation Rule 4,2,3. and Section 42-221F, Idaho Code.

Failure to return the questionnaire and pay any required re-advertisement fee within thirty (30) days of the date of this letter is cause for the Department to cancel the permit.

If the incomplete portion of your project is for irrigation of more than 200 acres, the Department will issue a notice requesting additional information as required by Water Appropriation Rule 4,2,3. (copy enclosed).

RECORDED

JUN 20 1990

Page 2

If you have questions concerning the content of this letter or about completing the forms, please contact Tim Luke at the address below or by calling directly at 334-7864. The enclosed forms and all other relative information must be returned within thirty (30) days to:

Idaho Department of Water Resources
Statehouse Mail
Boise, Idaho 83720
Attn: Tim Luke - Water Allocation/Trust Water

Please note that a copy of your permit is enclosed. The permit number is shown on the enclosed questionnaire.

Sincerely,

A handwritten signature in cursive script that reads "Tim Luke".

SEPTEMBER 1, 1985

DEAR PERMIT HOLDER:

ACCORDING TO OUR RECORDS, YOU ARE THE HOLDER OF A WATER PERMIT ON WHICH PROOF OF BENEFICIAL USE OF WATER WAS NOT SUBMITTED BEFORE JULY 1, 1985, WHICH INDICATES YOUR PROJECT IS NOT COMPLETE. THEREFORE, YOU NEED TO BE AWARE OF CHANGES IN IDAHO LAW, EFFECTIVE JULY 1, 1985, WHICH IMPACT ALL WATER PERMITS ISSUED BY THIS DEPARTMENT.

SPECIFICALLY, PURSUANT TO SECTION 42-203D, IDAHO CODE, THE DEPARTMENT MUST REVIEW ALL PERMITS FOR WHICH DEVELOPMENT OF WATER USE WAS NO COMPLETED ON OR BEFORE JULY 1, 1985, TO DETERMINE IF THEY MEET THE NEW REQUIREMENTS OF CHAPTER 2, TITLE 42, IDAHO CODE. RULES AND REGULATIONS GOVERNING THE RE-EVALUATION OF PERMITS ARE NOT YET FINALIZED. HOWEVER, IF YOU COMPLETED THE DEVELOPMENT UNDER YOUR PERMIT BEFORE JULY 1, 1985, YOU SHOULD SUBMIT A PROOF OF BENEFICIAL USE STATEMENT, STATING THAT THE PROJECT WAS COMPLETED BEFORE JULY 1, 1985 SO THAT YOUR PERMIT WILL NOT BE SUBJECT TO THE REVIEW REQUIREMENTS OF SECTION 42-203D, WHICH READS AS FOLLOWS:

42-203D. REVIEW OF PERMITS - OPPORTUNITY FOR HEARING. - (1)THE DEPARTMENT SHALL REVIEW ALL PERMITS ISSUED PRIOR TO THE EFFECTIVE DATE [JULY 1, 1985] OF THIS SECTION, EXCEPT TO THE EXTENT A PERMIT HAS BEEN PUT TO BENEFICIAL USE PRIOR TO JULY 1, 1985, TO DETERMINE WHETHER THEY COMPLY WITH THE PROVISIONS OF CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PROPOSED USE DOES NOT SATISFY THE CRITERIA OF CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL EITHER CANCEL THE PERMIT OR IMPOSE THE CONDITIONS REQUIRED TO BRING THE PERMIT INTO COMPLIANCE WITH CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PERMIT SATISFIES THE CRITERIA ESTABLISHED IN CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL ENTER AN ORDER CONTINUING THE PERMIT. (2)THE DEPARTMENT SHALL PROVIDE AN OPPORTUNITY FOR HEARING IN ACCORDANCE WITH SECTION 42-1701A, IDAHO CODE, AND SECTIONS 67-5209 THROUGH 67-5215, IDAHO CODE, FOR EACH HOLDER OF A PERMIT THAT IS PROPOSED EITHER TO BE CANCELLED OR MADE SUBJECT TO NEW CONDITIONS.

YOU MAY OBTAIN PROOF OF BENEFICIAL USE FORMS FROM THE DEPARTMENT. IF YOU HAVE ANY QUESTIONS, PLEASE LET US KNOW.

SINCERELY,

L. GLEN SAXTON

January 22, 1985

Ed Yragui
P. O. Box 975
Twin Falls, ID 83303

Dear Mr Yragui:

Re: Permit Nos. 47-7169 and 47-7170

Enclosed is a copy of each of the approved requests for extension of time. The time within which to submit the proofs of beneficial use is extended to November 1, 1989. Please note that the permits have been reinstated with an advance in priority since the extension of time requests were submitted after the proof due date.

In connection with the development of a water right under this permit, the department wishes to call to your attention an Idaho Supreme Court decision issued in November 1982 which could affect your future use of water.

The decision in the case of Idaho Power Company vs the State of Idaho, et al stated in part that Idaho Power Company's use of water for power generation purposes at the Swan Falls dam on the Snake River is not subordinated to upstream depletion by later-in-time uses. Ongoing negotiations to resolve this water right controversy without further court action has resulted in the signing of a contract in October 1984, between the State of Idaho and Idaho Power Company. The contract essentially describes certain categories of water uses from which the company will seek no restitution for depletion of water availability at Swan Falls Dam in exchange for certain concessions. In addition, an agreement was also signed by the Attorney General, Governor, and Idaho Power Company. The agreement outlines additional actions which could be implemented to further resolve the Swan Falls controversy. Some of the additional actions include suggested changes in legislation, suggested changes in the State Water Plan, and the reduction of Idaho Power Company's water rights provided certain concessions are made to the company.

RECEIVED
JAN 23 1985
TWIN FALLS, ID

The Department urges you to follow the actions taken relative to the contract and agreement, since your water use could be affected.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

LAPSE NOTICE

NOVEMBER 06, 1984

DEAR PERMIT HOLDER:

YOU ARE HEREBY NOTIFIED THAT UNDER THE PROVISIONS OF SECTION 42-218A OF THE IDAHO CODE, PERMIT NO. 47-7170 HAS LAPSED. THIS OFFICE DID NOT RECEIVE EITHER AN ACCEPTABLE NOTICE THAT YOU HAVE COMPLETED THE PROJECT (PROOF OF BENEFICIAL USE) BY THE DATE REQUIRED ON YOUR PERMIT OR AN ACCEPTABLE REQUEST FOR AN EXTENSION OF TIME. YOU WERE PROVIDED THE PROPER FORMS IN OUR PROOF DUE NOTICE TO YOU DATED AUGUST 31, 1984.

YOUR PERMIT CANNOT BE REINSTATED UNLESS YOU SUBMIT THE STATEMENT OF BENEFICIAL USE POSTCARD OR SUBMIT AN EXTENSION OF TIME REQUEST SHOWING REASONABLE CAUSE FOR DELAY. EITHER THE COMPLETED POSTCARD OR THE EXTENSION REQUEST MUST BE RECEIVED BY THIS OFFICE WITHIN SIXTY DAYS OF THE DATE OF THIS LAPSE NOTICE OR THE PERMIT WILL NO LONGER BE OF ANY FORCE OR EFFECT.

A STATEMENT OF BENEFICIAL USE POSTCARD AND A REQUEST FOR EXTENSION OF TIME FORM ARE AGAIN ENCLOSED FOR YOUR USE. PLEASE NOTE THAT A FEE OF \$15.00 MUST ACCOMPANY AN EXTENSION OF TIME REQUEST AND THAT ONLY ONE EXTENSION OF TIME CAN BE GRANTED UNLESS THE PROJECT HAS NOT BEEN COMPLETED BECAUSE OF LACK OF A NECESSARY APPROVAL BY A GOVERNMENTAL AGENCY OR BY LITIGATION.

PROOF DUE NOTICE

AUGUST 31, 1984

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 47-7170 WAS THAT PROOF OF THE EXTENT OF YOUR BENEFICIAL USE MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE NOVEMBER 01, 1984. (SEE LAST PAGE OF YOUR APPROVED PERMIT OR YOUR LAST APPROVED EXTENSION REQUEST). ENCLOSED IS A POSTCARD WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU OR A PREVIOUS OWNER OF THIS PERMIT HAVE NOT RECEIVED A PRIOR EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME IF THE DELAY IS FOR REASONABLE CAUSE AS PROVIDED IN SECTION 42-204, IDAHO CODE. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. AN EXTENSION OF TIME REQUEST FORM IS ENCLOSED FOR YOUR CONVENIENCE.

EITHER THE BENEFICIAL USE POSTCARD OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE DESCRIBED PROOF DUE DATE. IF NEITHER IS RECEIVED, THE DEPARTMENT WILL SEND YOU A LAPSE NOTICE. WITHIN SIXTY (60) DAYS OF THE MAILING OF THE LAPSE NOTICE, THE PERMIT WILL NO LONGER BE OF ANY FORCE NOR EFFECT.

March 11, 1976

Mr. Ed Yragui
c/o Mr. Bo Yragui
662 East Malibu Drive
Tempe, AZ 85282

Dear Mr. Yragui:

I have evaluated several exchange proposals that have been made for various parcels of land in Twin Falls County. I have on file an exchange proposal that you submitted to me on July 29, 1968.

In order to classify the land you selected for exchange, it must be physically suitable for transfer to private ownership and the present and potential uses and users of the land must be considered in an attempt to achieve maximum future uses and minimum disturbance to, or dislocation of, existing users. Further, the classification must be consistent with Federal, State, and local government programs, plans, policies, and regulations.

Our land use planning, field examinations and other information indicates that the land you selected should be retained in Federal ownership to further the objectives of Federal natural resource programs. These programs include the provision of stabilization and development of the livestock industry dependent on Federal lands, preservation of adequate habitat and food supplies for wildlife dependent upon the public lands and the provision of needed recreation, conservation, and open space values.

The land you selected could not be classified for exchange at this time because it is best suited for multiple use management and requires management for a mixture of uses in order to best benefit the general public. Such management could not be achieved if the land was in private ownership. Therefore, your exchange proposal is denied.

If you have any questions concerning this action, please call, write or stop in at the office.

Sincerely yours,

/s/ NICK J. COZAKOS

Twin Falls, ID 83301

Dear Mr. Haynes:

In regard to Mr. Ed Yragui's Applications for Water Permit Nos. 47-7169, 47-7170, we have reported to you earlier that he does not have a Desert Land Entry. However, we have been working with him on a private exchange which would cover the 160 acres of national resource land he shows in his applications. We feel that when time permits us to do the work, we will make the exchange. This would put all of the land which he has applied for in his ownership. He could then put in his farm development as planned.

We hope this information will be of help in evaluating his applications for water.

Sincerely yours,

Nick James Cozakov

Re: Applications Number 47-7168,
47-7169, and 47-7170 - Ed Yragui

Dear Bob:

The purpose of this letter is to advise you that we have consulted with Mr. Ralph Schnell of Rogerson, Idaho, concerning the above three permits filed by his neighbor.

As of this time, we are authorized by Mr. Schnell to withdraw his protest to the above three applications with the reservation that his withdrawal is without prejudice, that the permit which is issued acknowledges prior existing rights as superior. Mr. Schnell reserves the right to raise the same issues contained in his protest of January 15, 1973, at a later date, if in fact development pursuant to the above three permits causes him some injury. If interference is the result of pumping water pursuant to the above three applications, Mr. Schnell will then decide what course of action to follow.

Please file a copy of this letter with each of the above three mentioned applications so that both the department and the applicant are aware of the position of Mr. Schnell.

Sincerely,

John A. Rosholt

Re: Application Nos. 47-7168, 47-7169, & 47-7170 - Ed Yragui

Ed Yragui
P. O. Box 975
Twin Falls, ID 83301

Dear Mr. Yragui:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application Nos. 47-7168, 47-7169, & 47-7170. You should be aware that the following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required. (Section 42-202, Idaho Code)

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we can be of any assistance, please contact us.

Very truly yours,

Bob Haynes
District Engineer
Southern District

Re: Application Nos. 47-7168, 47-7169, & 47-7170 - Ed Yragui

Ralph Schnell
Rogerson, ID
83302

Dear Mr. Schnell:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced applications. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Was the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Very truly yours,

Bob Haynes
District Engineer
Southern District

Mr. R. Keith Heggins, Director
Idaho Dept. of Water Administration
1041 Blue Lakes Blvd. No.
Twin Falls, Idaho

RECEIVED

JAN 16 1973

Department of Water Administration
Southern District Office

Dear Mr. Heggins:

We would like to protest the applications for water permits # 47-7168, 47-7169 and 47-7170 made by Edward Yagui, P.O. Box 975, Twin Falls, Idaho for the following reasons: the three applications for wells are all located above and around our patented water rights. We feel we must protect our investments. Due to the location of his applications for wells, we feel it may affect our water supply.

He has also applied for rights to place water on 160 acres of government land ($S\frac{1}{2}$ of N.W. $\frac{1}{4}$ of Sec. 26 T. 14., R 15 E and $W\frac{1}{2}$ of S.E. $\frac{1}{4}$ of Sec. 27 T 14 R 15 E) which has been allotted to us under Taylor Grazing and which is presently under a rest-rotation plan set up by the Bureau of Land Management.

We would appreciate your giving this matter your attention.

Sincerely,
Ralph Schnell
Nazel Schnell

Twin Falls, ID 83301

Re: Application 47-7170, Ed Yragui

Dear Mr. Haynes:

I appreciate your sending us the information about the above application. The $\frac{1}{2}$ SE $\frac{1}{4}$ of Sec. 27, T. 14 S., R. 15 E., B. M., which Mr. Yragui has included in his application, is public land, but it is not under Desert Land Entry. In 1970, the subject 80-acre tract was classified for multiple-use management and segregated against entry under the agricultural land laws (43 U.S.C., parts 7 & 9; 25 U.S.C. 334). This includes the Desert Land Act. Therefore, we will not accept an application for desert land entry.

The above 80-acres should be dropped from the land Mr. Yragui can put water on because it is public land. Thank you.

Sincerely yours,

Wick James Lozakov
District Manager

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

" I hereby certify that the foregoing account is just and correct,
that the amount claimed is legally due, after allowing all just
credits, and that no part of the same has been paid. "

(signature of claimant)

Very truly yours,

Bob Haynes
District Engineer
Southern District

Enc. Legal Notices (5)

NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that Ed Yragui,
P. O. Box 975, Twin Falls, ID
has on Dec. 22, 1972 submitted Application No. 47-7170
for a permit to appropriate 6.4 cubic feet per second ~~approx 6.4 cfs per approx~~
of water from a groundwater source
by means of well and pump
within the NW $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 34, T. 14S, R. 15E, B.M., Twin Falls County
to be used from Jan. 1 to Dec. 31 for stockwater purposes and from April 1 to
~~Nov.~~ Nov. 1 for the irrigation of 320 acres
within the SE $\frac{1}{4}$, Sec. 27; NE $\frac{1}{4}$, Sec. 34, T. 14S, R. 15E, B.M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Administration, 1041 Blue Lakes Boulevard North, Twin Falls, Idaho, 83301 on or before Jan. 22, 1973.
