ORDER

WHEREAS, on October 18, 1971, Valley Trout Farms, Inc., applied to the Department of Water Resources (formerly the Dept. of Water Administration) for a permit to appropriate 20 cfs of water from a seepage tunnel, tributary to Deep Creek, within the NE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 16, Twp. 10S, Rge. 14E, B.M., Twin Falls County, to be used for fish propagation purposes; and

WHEREAS, on January 18, 1972, the Department approved said application and issued Permit No. 47-7126 with the condition that proof of construction of works and application of water to beneficial use be submitted to the Department on or before February 1, 1974, and that measuring devices of a type approved by this Department be permanently installed and maintained at the point of diversion and the point of effluent discharge; and,

WHEREAS, on January 29, 1974, the Department extended the time within which to submit proof of beneficial use to August 1, 1974; and,

WHEREAS, on May 31, 1974, the Department notified the permit holder that proof of beneficial use was due and instructed the permit holder as to the steps to be taken to make said proof; and,

WHEREAS, on August 7, 1974, the Department notified the permit holder that Permit No. 47-7126 had lapsed for failure to submit proof of beneficial use; and,

WHEREAS, on September 27, 1974, the Department received a request for an additional extension of time which was consequently denied; and,

WHEREAS, on October 25, 1974, the Department received the required proof of beneficial use along with a request for removal of the measuring device requirement at the inlet works; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within 60 days from the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing as to why said permit should be reinstated; and,

WHEREAS, it has been determined by the Department that the permit holder has shown just cause to relieve the measuring device requirement at the inlet works, only; and,

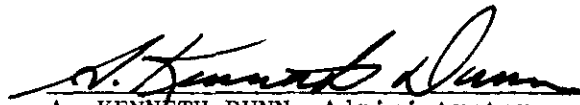

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 47-7126 be REINSTATED and the priority advanced to January 11, 1972;

IT IS FURTHER ORDERED that the condition of approval of Permit No. 47-7126 that a

That he is the holder, or the duly authorized agent of the holder *, of Permit to Appropriate the Public Waters of the State of Idaho No. 47-7126.

That under the terms and conditions of said permit, work thereunder was required to be completed on or before 8-30-74, 19 .

That he has heretofore performed the following work described under said permit:

Have built 14 ^{dug} fish ponds. Have raised fish in them
for 2 yrs.

Costing \$

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: We were raising fish on a grow basis under an Agreement with Clear Springs Trout Co. Due to a lack of market Clear Springs has discontinued the farm pond portion of their business. We have decided to buy fingerling fish and need some concrete ponds to start them in. We have had to divert part of our water in order to construct the concrete ponds. Gary Fongerberg at T. Falls office suggests we get an extension.

Wherefore, he asks that the Department of Water Administration extend the time for the completion of obligations under said permit to August 30, 1976.

Dear Mr. Fleenor:

We request a waiver of inlet measuring devices for Permits # 47-7126, 47-7127 and 47-7090, all in the name of Valley Trout Farms, Inc, Route #4, Buhl, Idaho

The following reasons justify our request:

- a. Because construction of the inlet device is not possible due to amount of water and impossible to channel from present diversion.
- b. Department personel, District Engineer Robert Haynes, agrees with waiver to be granted from State Office because of situation of inlets.
- c. Valley Trout is the only water right using this seepage tunnel; therefore no other rights could be hurt from lack of control.
- d. Water seeps in through lower ponds from high water table in our area.

Outlet measuring devices are installed and have been measured by Gary Funderburg, Department Resource Examiner.

Thank you for your attention to this matter.

Sincerely yours,

Shelby Williams

Dear Mr. Williams:

One of the conditions of approval of your water Permit No. 47-7226 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Higginson;

This is in answer to your letter of November 30, 1973,
regarding beneficial use of water under permit No 47-7126.

We have used the water for production of fish and we have
installed our cipoletti weers but did not get them installed
in time to measure the water. This seepage stream flows
from about May until February each year and is practically
dry now. We would appreciate an extension until August 1,

complete their measurements.

Thank you for your assistance.

Dear Mr. Kaufman:

We received your January 17th letter concerning the recent filings made by Valley Trout Farm, Inc.

The final date for protest against the approval of these applications was November 29, 1971. Since no protests against the approval of the applications were received, the applications were approved and permits issued.

- However, these permits were issued subject to existing water rights. Therefore, if you have an existing valid water right to the use of the water, it must be recognized and respected by Valley Trout Farm, Inc.

Your letter cannot be accepted as a valid protest, but it has been entered into the permit files for future reference if necessary. If you have any questions regarding this matter, please let us know.

Dear Sir:

It has come to my attention that the Valley Trout Farm has filed on, and wish to divert seepage water in Sect 16 Twp 10, Range 14 E, for the purpose of raising trout. I wish to protest this filing and diverting of water because it would leave me without water for livestock while my cattle are on fall and winter pasture. I have used this water ever since it was brought to the surface a number of years ago.

It is my understanding that the Valley Trout Farm wishes to divert this seep water to a different drainage which would leave me without winter water for my cattle.

Thanking you for your consideration.

Enclosed is sketch of our plans for pond constructions

BDF

We started Construction about November 15th but the weather hasn't cooperated very much and the "Cat and Can" has one string of ponds completed and the other two about half finished. As you know two ponds were already in use When Valley Trout purchased the property from Mr. Peters. We intend to complete the additional ones in the next two to three years. At least one more by April 1972.

Each pond should raise 10,000 lbs. of fish and with 12 ponds we will have plenty of capacity to utilize all the water at peak flow.

I am also enclosing a financial statement of Valley Trout and one of my own. We don't anticipate any difficulty in raising funds to complete this operation.

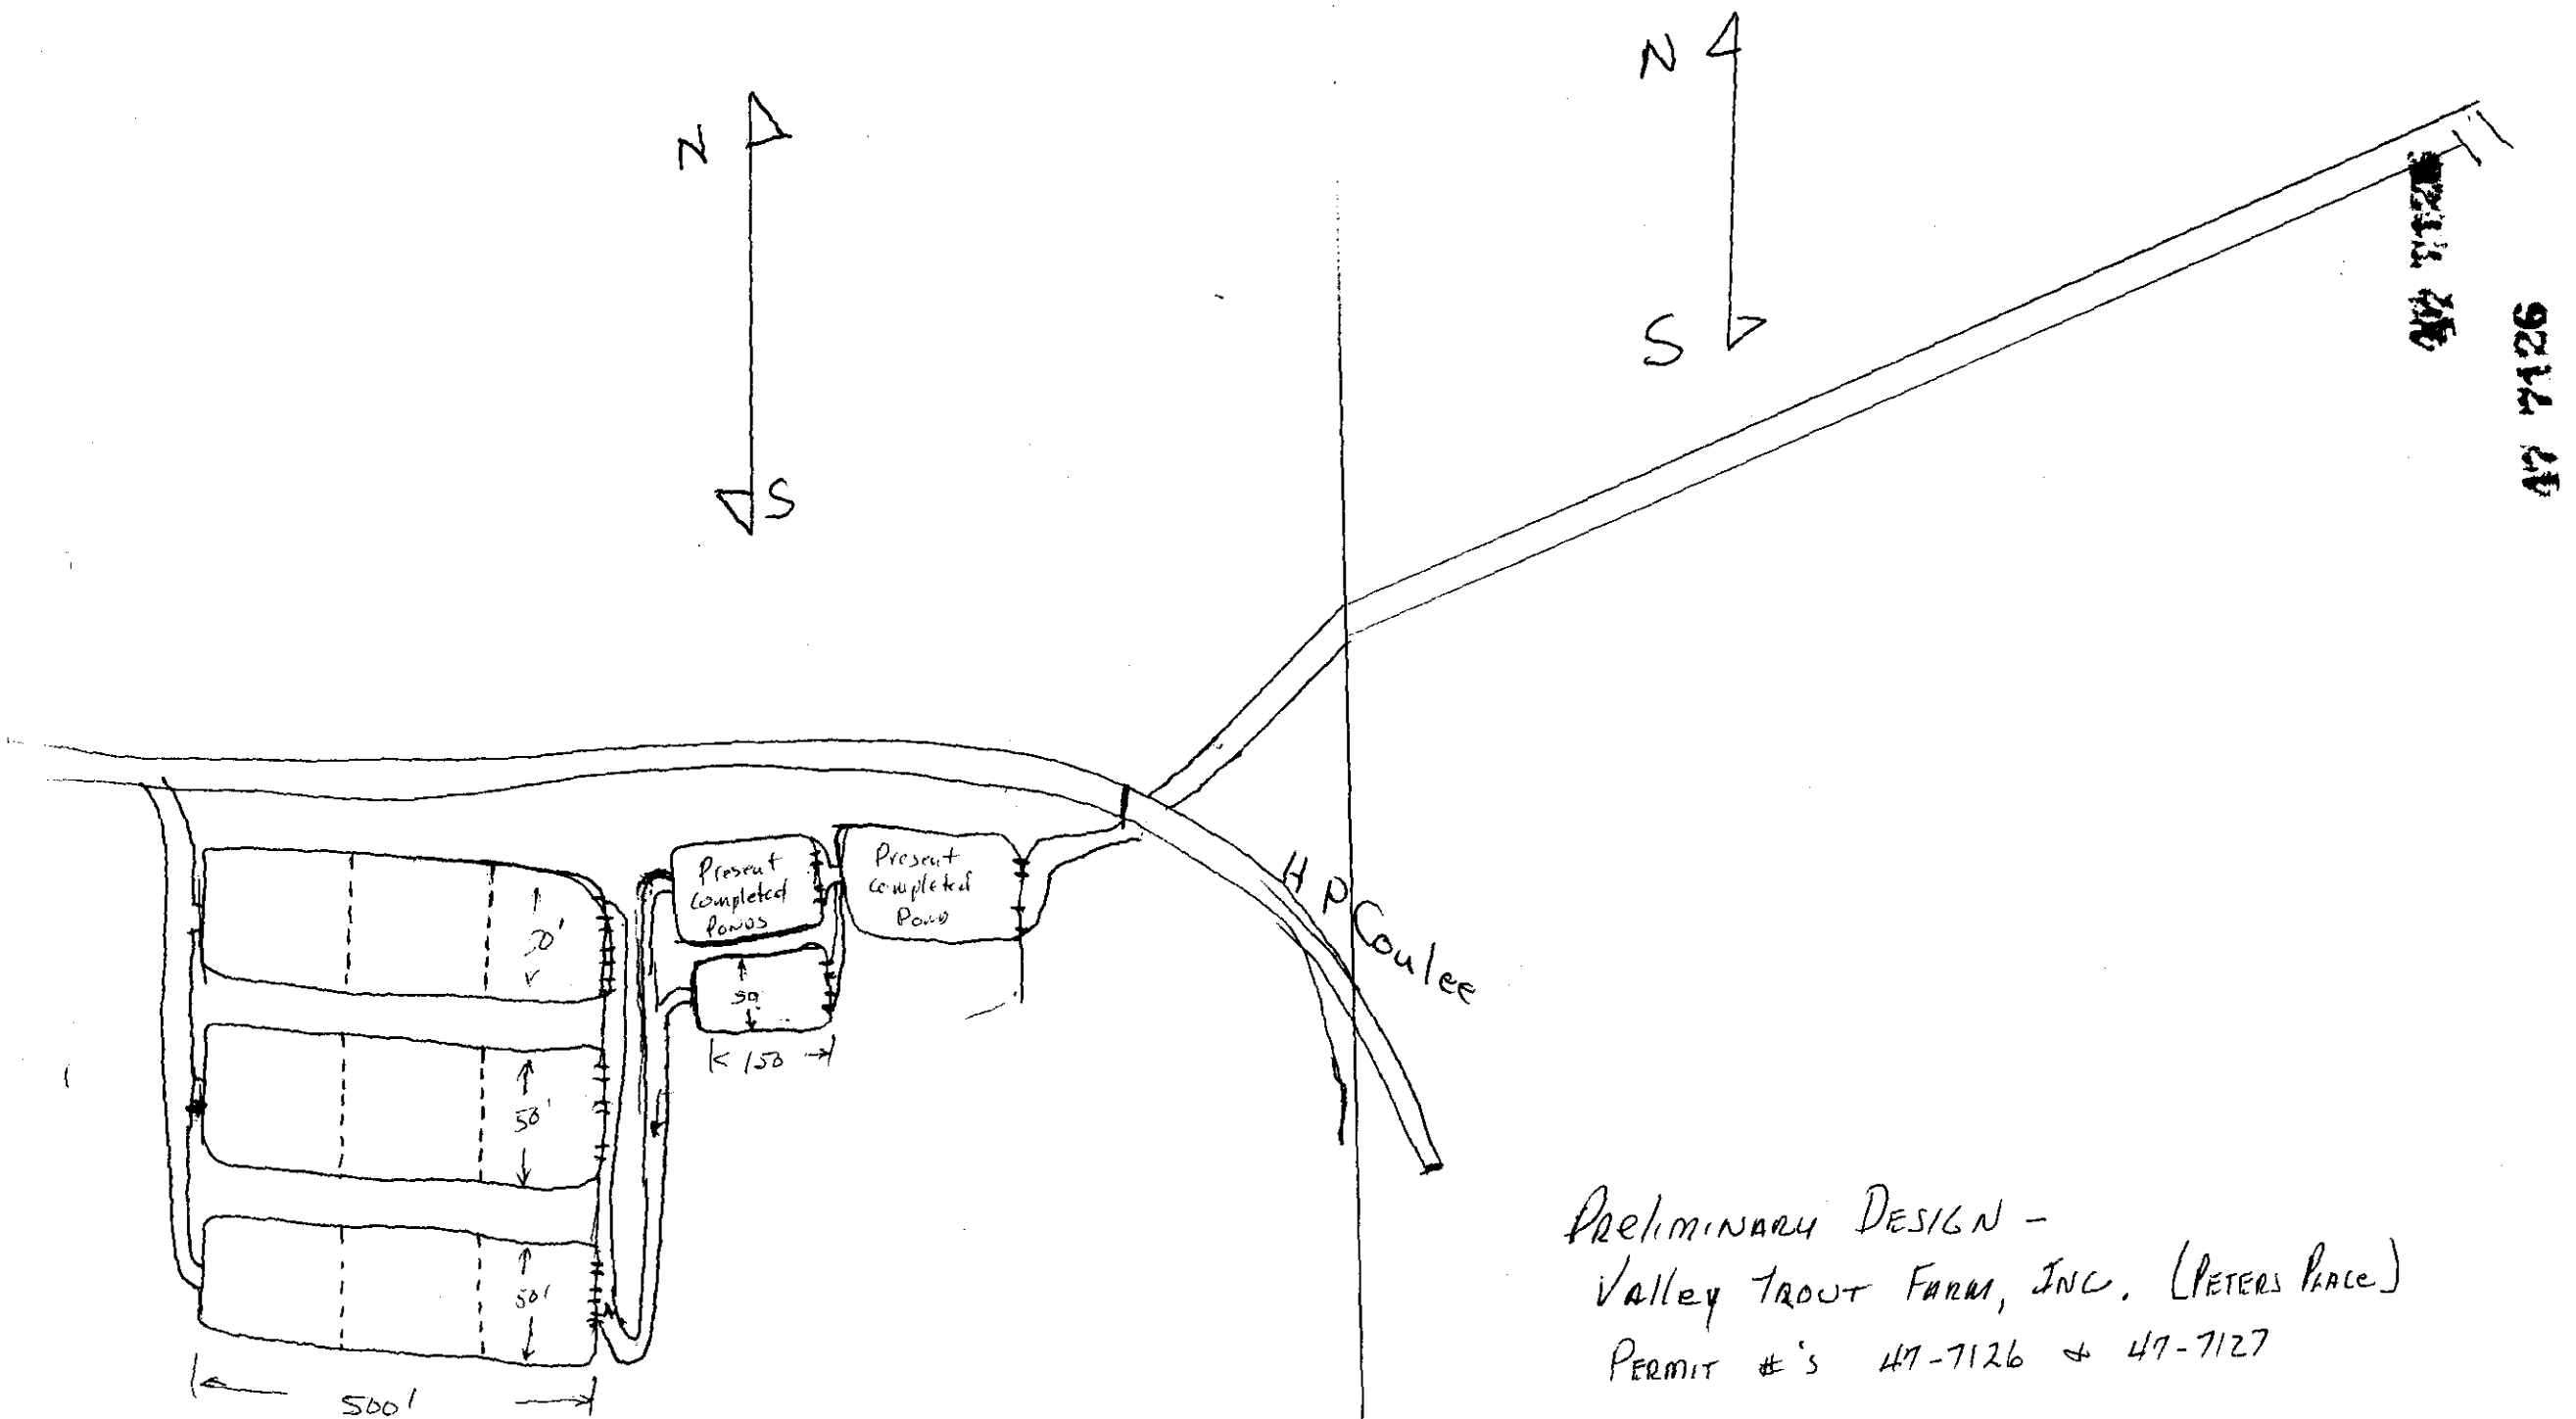

Thank you for your cooperation in this matter. We will be happy to have you or any of your staff visit us when in this area.

In order to further consider your application for permit, we will require additional information not included with the above referenced applications as follows:

1. A letter from a financial institution showing that you are financially able to complete the project as described in the application. (See Section 42-203 of the Idaho Code)
2. A preliminary design of the hatchery facilities, indicating the size of raceways, general layout, the size of pipelines or other diversion works and such other information as will fully describe the method and means of diversion and verify the need for the quantity of water requested.
3. A justification, based upon the preliminary design and the estimated production of the hatchery, for the amount of water requested.
4. An estimated schedule of construction, giving dates for the start of construction, the finish of construction, and the date that full operation of the hatchery is anticipated.

You should be aware that all applications, if approved, will require the installation and maintenance of adequate measuring devices both at the point of diversion and the point of return of the water. These devices must be of a type approved by the Department; they can be of any generally recognized standard measuring device type. You should include the installation of these devices in your preliminary plans for construction.

We would appreciate receiving this information on or before December 3, 1971. Thank you for your cooperation in this matter.

Dear Mr. Higginson,

Valley Trout Farm Inc., has purchased the SW $\frac{1}{4}$ of Sec 16
Twp 10 S Range 14 EBM consisting of 160 Acres and water permit
#47-7090 for 8 cfs from Mr. Alfred Peters.

We have measured the water from the sources covered by
permit #47-7090 and determined there is approximately 20 cfs,
at the peak season. We would like to retain the 8 cfs filing
because of the date and apply for another permit for an additional
12 cfs.

Also in the far NE corner of the NE $\frac{1}{4}$ SW $\frac{1}{4}$ there is a drain
tile discharging approximately 20 cfs which our survey indicates
can be combined with the water from Mr. Peters source. We wish
to file an application for a permit for 20 cfs from this drain
tile. The three permits would give us a total of 40 cfs.

We plan to construct six additional ponds adjoining the
two now in use for a total of eight ponds.

Enclosed is our check to cover the cost of the application.
We would appreciate your prompt attention to this filing.

Yours truly,
