WATER RIGHT LICENSE

License of Water Right No. 47-7093 Priority April 15, 1970 Amount 1.05 cfs

THIS IS TO CERTIFY, that The Amalgamated Sugar Company
of Ogden, Utah, has complied with the terms and conditions of Permit
No. 47-7093 issued pursuant to Application for Permit dated April 15, 1970,
and has submitted proof to the Department of Water Resources on April 23, 1975,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 1.67 cfs of water from a ground water source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Industrial</u>	from <u>Jan. 1</u> to <u>Dec. 31</u> at <u>1.05</u> cfs and <u>758</u> acre feet		
	from _____ to _____ at _____ cfs and _____		
	from _____ to _____ at _____ cfs and _____		

(both dates inclusive)

Subject, however, to the condition that no more than 1.05 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
758 acre feet per-year, said waters to be diverted within the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 26,
Twp. 10 S, Rge. 17 E, B. M. in the County of Twin Falls

A measuring device of a type approved by the Department shall be permanently
maintained as part of the diverting works.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described as provided by the laws of Idaho.

**NOTICE OF APPLICATION FOR
PERMIT TO APPROPRIATE THE
PUBLIC WATERS OF THE STATE
OF IDAHO**

Notice is hereby given that The Amalgamated Sugar Company, P.O. Box 1520, Ogden, Utah, has on April 15, 1970 submitted Application No. 47-7093 to appropriate the public waters of a groundwater source.

The application proposes a maximum diversion and appropriation of 1.05 cubic feet per second of water to be diverted by well within the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 26, T. 10S, R. 17E, B.M., Twin Falls County, and is to be used within the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 26, T. 10S, R. 17E, B.M. from October 1 to September 30 for industrial purposes.

Any permit issued pursuant to this application will be subject to ALL PRIOR WATER RIGHTS and subject to the CONTROL OF A STATE WATERMASTER. Any protest against this application must be filed with the Idaho Department of Reclamation on or before May 18, 1970.

Dear Mr. West:

One of the conditions of approval of your water Permit No. 47-7093 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit Nos. G-31584/47-2383 and 47-7093

Mr. Bob West
Amalgamated Sugar Co.
P.O. Box 1520
Ogden, Utah 84401

Dear Mr. West:

We have reviewed the problem discussed on August 4, 1970. You have stated that you are only using water diverted under permit no. G-31584/47-2383. As you may be aware, this permit is licensed, and we have confirmed evidence of the water right. Apparently, the confusion arose when the Department received two applications from your company on April 15, 1970. However, only one application fee was received. As each application requires its own \$25.00 filing fee, we processed one of the applications and held the other one, requesting an additional \$25.00. On the 20th of July, 1970, we returned the second application inasmuch as we had not received a filing fee.

In reviewing the applications we have, no. 47-7093, which has been approved, and your original permit no. G-31584/47-2383, it appears as though your project is adequately covered at the present. If you require the additional water that must be diverted out of the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 26, which was licensed, you may do so under your new application. Therefore, you apparently do not need the third filing. We would assume that it would not be necessary for you to submit the additional \$25.00 and another application.

If we can assist you further, please contact us.

Very truly yours,

Dorian Clay,
Appropriation Examiner

Dear Mr. Higginson:

On February 12, 1970, Mr. A. Kenneth Dunn of your department visited our Twin Falls Factory and talked to our factory superintendent, Mr. Jack Stewart. He stated to Mr. Stewart that our #2 well permit, No. G-31584, does not include the forty-day period for our juice run or the amount of water pumped during our intercampaign period. Enclosed is a permit that includes this additional water usage. Also included is a copy of the letter previously sent to your Mr. Dorian T. Clay that breaks down our water usage from this well.

Mr. Stewart informed Mr. Dunn of our intent to use in the future our #3 well located near our lime pond. He stated that for priority sake we should get an application filed on this well. Accordingly, also included is an application for this well that was drilled and is capped and not in production. A copy of the drilling record and the well test report is included.

If you require any additional information, please contact me.

Sincerely yours,

ROBERT D. WEST
Chemical Engineer

Dear Mr. Clay:

Reference our recent telephone conversation and permit No. G-31584 for a well on our Twin Falls factory property.

At the time of my last letter, I was unaware that Mr. Jack Stewart, our Twin Falls factory superintendent, used this well on day shift during the course of the summer other than during the beet run and juice run. This usage further increases the flow on this well as shown below:

$(600 \text{ GPM}) (60 \frac{\text{Min.}}{\text{Hr.}}) (40 \frac{\text{Hr.}}{\text{Week}}) (25 \text{ weeks}) = 36,000,000 \text{ gallons.}$

Therefore, our total water usage for one year is summarized as follows:

Beet Run	=	130,464,000 gallons
Juice Run	=	36,288,000 gallons
Intercampaign Period	=	36,000,000 gallons
Total	=	202,752,000 gallons per year.

If you have any further questions, please contact me.

Sincerely yours,

ROBERT D. WEST

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid.

(Signature of the claimant)

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor
