WATER RIGHT LICENSE

License of Water Right No. 47-7089 Priority Jan. 30, 1970 Amount 1.0 cfs

THIS IS TO CERTIFY, that ROBERT JUKER
of Buhl, Idaho, has complied with the terms and conditions of Permit
No. 47-7089 issued pursuant to Application for Permit dated January 30, 1970,
and has submitted proof to the Department of Water Resources on December 20, 1972,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 1.0 cfs of water from an unnamed stream (I-1 Lateral)
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Fish Propagation from	Jan. 1 to Dec. 31	at 1.0 cfs and	n/a
_____ from _____	to _____	at _____ cfs and	_____
_____ from _____	to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 1.0 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
n/a acre feet per year, said waters to be diverted within the SE 1/4 NE 1/4 of Sec. 19,

A measuring device of a type approved by the Department shall be permanently
maintained as part of the diverting works.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, as provided by the laws of Idaho.

Dear Mr. Juker:

A representative of this Department has made an examination of the works covered by the above referenced permits and has found the following:

Permit 47-7087

Quantity of water diverted: 6.46 cfs

Amount of water that can be recognized as beneficially used under Idaho law: * 6.46 cfs

Source: Green Big Spring & Ruyts Tunnel

Point of diversion: NE $\frac{1}{4}$ NE $\frac{1}{4}$ (2 points), Sec. 19, Twp. 9 S, Rge. 15 E, B. M.

Beneficial use: Fish propagation purposes within the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 19, Twp. 9 S, Rge. 15 E, B. M.

Priority date established: Dec. 19, 1969

* Subject to the condition that the maximum rate of diversion shall not exceed 6.46 cfs when combined with License No. 47-7089.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid.

Dear Sir:

The financial statement - preliminary design - justification and estimated schedule of construction for this Permit (No. 47-7089) will be the same as the one sent to you on the application for Permit No. 47-7087.

This water is to be used in conjunction with this same project, as additional water will be needed for an oxygen balance in the system, especially during Jan., Feb. and Mar. when the seep tunnel water level drops.

This information was sent to you Jan. 16, 1970.

Sincerely,

Robert Juker

Gentlemen:

We are enclosing a copy of the above referenced application for permit.

The source of water supply is listed as an unnamed stream which we find is also your I-1 lateral. Inasmuch as this source of water is a lateral, we request that you advise us as to the nature of beneficial use of the water at the point of diversion listed on the application. We are searching to determine not only the nature of the beneficial use, but also the period of time in which you feel there would not be water available for appropriation. The proposed use listed on the application is basically non-consumptive.

We wish to advise you that if the proposed application would injure a prior existing water right, you may protest the application if you so desire.

Your assistance in this matter is appreciated.

Very truly yours,

Donald W. McEldowney

Dear Mr. Juker:

In reviewing your application for permit, we find that in order for your application to be considered complete, it will be necessary for you to submit additional information on or before March 10, 1970, in order to maintain your proposed priority of January 30, 1970.
(Section 42-204, Idaho Code)

1. A financial statement indicating the resources available to complete the project as described in the application.
(see Section 42-203, Idaho Code)
2. A preliminary design of the hatchery facilities, indicating the size of raceways, general layout, the size of pipelines or other diversion works and such other information as will fully describe the method and means of diversion and verify the need for the quantity of water you have requested.
3. A justification based upon the preliminary design and the estimated production of the hatchery, for the amount of water requested.
4. An estimated schedule of construction giving dates for the start of construction, the finish of construction, and the date that full operation of the hatchery is anticipated.

Re: 47-7089

You should be aware that all applications, if approved, will require the installation and maintenance of adequate measuring devices, both at the point of diversion and the point of return of the water, espically in cases of non-consumptive uses. These devices must be of a type approved by the Department of Reclamation; they can be of any generally recognized standard measuring device type. You should include the installation of these devices in your preliminary plans for construction.

If you have any questions concerning your application, please contact us at once.
