Re: Application for Permit No. 47-7066

Mr. Ellis Hudelson
Route 2
Twin Falls, Idaho

Dear Mr. Hudelson:

The Department is ready to take final action of your application for permit. It is noted, however, that you applied for the irrigation of five (5) acres. Under Idaho State Law, the maximum legal rate of diversion which can normally be considered for your five acres would be .1 of a cubic foot per second. This is a maximum legal rate of diversion of .02 cubic foot per second per irrigated acre.

We realize that it is difficult to irrigate small tracts of land within the established maximum legal rate of diversion, therefore, if you ~~completely~~ us with some justification as to the .3 cubic foot per second you have requested for your irrigation purposes, we would appreciate your assistance.

In some instances, the Department could consider approximately .04 cubic foot per second per irrigated acre, if your request is made for this amount.

Very truly yours,

Donald W. McEldowney
