Dear Mr. Higginson: I am writing this letter for my husband, Leonard Peters, because he suffered a severe heart attack on July 13, 1973 and is still so nervous that it's difficult for him to write a letter.

This letter is in regard to water Permit number 47-7050. We are asking for an extension of time to show the proof of application of water to beneficial use from our well.

Mr. Peters plans to come to Boise on Wednesday of this week or some day before Dec. 1st. To show proof of beneficial use of this water. But, if the roads are icy or he is not well enough he won't be able to come this week.

We are asking for this extension of time to be granted if it happens that he will not be able to come.

Dear Mr. Peters:

One of the conditions of approval of your water Permit No. 47-7050 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before December 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Peters:

We are in receipt of your personal check in the amount of \$10.00 and your application to appropriate the public waters of the State of Idaho. Please be advised that before we can accept and process the application, we will require some additional information.

Item 6a of the application requires a description of the proposed diverting works. You have listed the source of water as subterranean, therefore, we would assume that your works would include a well, pump, motor, and possibly gravity or sprinkler irrigation. A description of this nature is what we request.

Under Item 8a(1), you are requested to give the place of use of the water for the non-irrigation uses. This would be by 40 acre subdivision, section, township, and range descriptions.

The above requested information will enable the department to process the application. Please contact us if you need assistance.

Very truly yours,

Donald W. McEldowney
