10. Remarks At the present time I own 5 acres but there is adjoining dry land of approximately 10 acres. If this dry land can be purchased it will be sprinkled irrigated from this well. This is the reason that I want to file on additional water at this time. In the vicinity of my property there is plenty of available water due to the general seepage condition in the area north of Buhl. The 5 acres presently owned will be sprinkler irrigation therefore there will be no wasted water.

The well will be drilled by the Twin Falls Canal Company of Twin Falls, Idaho. An 8" hole will be drilled to 18', cased to 18' and cemented at the bottom of the casing. A 6" hole will then be drilled to a depth sufficient to provide the necessary water.

The horsepower on the electric pump will be determined after the availability of water is certain and a pump of sufficient size will be installed.

Dear Mr. & Mrs. Novacek:

A representative from this department has made an examination of your works covered by Permit 47-7043. The works were found capable of producing 0.1 c.f.s. of which 0.1 c.f.s. can be recognized as beneficially used and licensed under Idaho law. The water is used for irrigation of 5 acres within SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 24, T. 9 S., R. 14 E., B.M.

If you disagree with the findings, please advise us within 10 days; otherwise, a license will be issued showing the findings as set forth in this letter.

Re: Edward D. and Patricia A. Novacek
Permit No. 47-7043

Dear Sir:

Reference is made to your letter of September 23, 1968, in which you advised me that the minimum legal rate of diversion is .02 cubic feet per second per irrigated acre.

Since there were a couple of other questions I needed to have clarified, I called your office on September 27 and visited with Mr. Dean Reynolds. In that conversation I authorized him to change our original application for permit from 0.5 to 0.1 cubic feet per second.

When my application is approved, would you please forward me the necessary forms for final proof on the well.

The well has been dug by the Twin Falls Canal Company and the irrigation system is installed, and we are putting the water to beneficial agricultural use. At any time you would care to inspect this well during the irrigating season you are most welcome to do so.

Very truly yours,

E. D. Novacek

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you can not publish the notice on the proposed dates please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

Signature of claimant

Very truly yours,

Re: Application for Permit No. 47-7043

Edward D. Novacek and Patricia A. Novacek
Route #4,
Buhl, Idaho 83316

Dear Mr. Novacek:

In processing your application to appropriate the public waters of the State of Idaho it is noted that you have requested .5 cubic feet for the irrigation of 5 acres. You should be advised that the amount of water you have requested is excessive as indicated under the existing Idaho Statutes. The minimum legal rate of diversion per irrigated acre is .02 cubic feet per second.

We realize that it is extremely difficult to irrigate small tracts of ground with such a small amount of water. You can request, however, for the Department to allow additional water by means of some type of justification such as the capacities of the system you intend to use. This might be the number of nozzels, the gallons per minute that each nozzel is operated with, a soils analysis stating that the soils require an excessive amount of water, and other qualified information of this nature.

We are aware that in the remarks you have proposed the purchasing of additional acres of ground. You should either apply in this application for ten acres of ground or omit the amount of water required for this additional acreage from the application and file a new application at such time as you make adequate negotiations.

If we can assist you in any manner please contact us. A reply is requested within 30 days of the date of this letter. Your assistance has been appreciated.

Very truly yours,
