Idaho Land Office

George H. Lemmon
Hagerman, Idaho 83332

Dear Mr. Lemmon:

On November 29, 1967, the Boise District Manager issued an initial decision classifying the land in your desert land petition - application I-76 as suitable for entry under the desert land act.

According to your plan of development water for the irrigation of the entry will be obtained from springs or seeps located on adjoining land. The water from these sources is collected in two small reservoirs which were built by you. You have submitted a copy of licensed water right of 1 c.f.s. which is appurtenant to the W $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 25, T. 8 S., R. 13 E. You must submit evidence of your right to appropriate water to be placed on the E $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 25, T. 8 S., R. 13 E. This evidence should consist of a State water appropriation permit approved by the State Reclamation Engineer. Attached is an extra copy of this letter. The copy should be submitted to the State Department of Reclamation at the time you apply for a permit. You should make arrangements with the State Reclamation Engineer to have a copy of the permit sent to this office.

We would appreciate receiving a copy of the permit as soon as possible.

According to the District's report your dams and reservoirs are located on the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 25, T. 8 S., R. 13 E. The Land Office records show this land to be public domain. We have no record that you have obtained a right-of-way for the construction of these dams or for irrigation ditches to the lands. To protect whatever interest you may have in the dams and ditches, you should obtain a right-of-way under the provisions of the act of March 3, 1891. I am enclosing a copy of the right-of-way regulations and an information brochure, which explain the procedure to be followed to obtain the necessary rights-of-way.

Sincerely yours,

Orval G. Hadley
