3. The point of diversion of the water is SW corner of Lot No. 2 Section 19, Range 17E, Township 12S

11. Remarks Concerning question 5 above-- Since the water from this well is pumped directly into a 10" pipeline, and from there into a 14" concrete ditch, it is not practicable to install a permanent measuring device. A permanent weir could be installed in an earth ditch (used prior to installation of the pipeline) or a temporary weir installed in the 14" concrete ditch. Please advise if the requirement for a permanent measuring device is mandatory.

Mr. Courtney filed this request. It involves the use of two wells drilled under permit 47-07803A. He wants to use these wells to supply water to licensed land under 47-7494 and 47-7005. The well covered under these licenses has failed (caved in) and the Salmon River Canal Co. Shares have been shut off. Although the licenses cover 217 acres he only really wants to water trees and a few small acres around a farmstead. Attached in a draft approval..... << File: drought TC-47-01 John Courtney change PD.doc >>

ENCLOSURE

Licensing w/ Amendment 47-7005

The permit identified ~~88~~⁹⁰ acres within the NW¹/₄ & 30 acres in the NW¹/₄NE¹/₄ Sec 19. When the field exam was completed, it showed 78 acres within the NW¹/₄, 23 acres in the NW¹/₄NE¹/₄ & 19 acres in the NE¹/₄SW¹/₄ Sec 19.

To license this right with out an amendment ^{which would} ~~add~~ the 19 acres in the NE¹/₄SW¹/₄ we must delete that quarter quarter. Thus the license would result in ~~the~~ total amount of acres being 101 acres. The cfs amount & AF amount would not change.

Dear Mr. Harder:

Our office made an error and sent you a fee letter in the amount of \$15.00. Since you submitted this fee we would like to refund the same. Would you please sign the original of the enclosed miscellaneous expenditure voucher marked with a red "X" and return it to our office. We will then refund your \$15.00 as soon as possible. Sorry for this mistake.

It is noted, however, that a permanent measuring device has not been installed. Therefore, a license cannot be issued until the device is installed. As to the temporary weir installed in the 14" concrete ditch, this system would be satisfactory if the weir were to be made available when required for a measurement. Upon notification that the weir is available we will issue the license.
